*The Deprived, the Disabled and the Fullness of Life* Flavian Dougherty, 1984-01-01      Developmental Disabilities and Sacramental Access Edward Foley, 2020-08-31 Is a developmental disability an appropriate reason to bar a baptized person from the sacraments This is the disturbing question that generated this book The pastoral reality is that Roman Catholics with developmental disabilities are often barred from sacraments Sometimes they are subject to discrimination or face unusual obstacles in the sacramental life of the Church This volume collaboratively written by pastoral theologians from Catholic Theological Union and the Special Religious Education Office of the Archdiocese of Chicago addresses these issues Punctuated with true stories of shame and triumph this volume grapples with real issues that daily confront Catholics with developmental disabilities With a breadth of scholarship that ranges from biblical perspectives to ethical and canonical issues the authors demonstrate how people with developmental disabilities need to be embraced by the Church and its sacraments for they teach us something central about sacramental encounters      *Theology and Down Syndrome* Amos Yong, 2007 While the struggle for disability rights has transformed secular ethics and public policy traditional Christian teaching has been slow to account for disability in its theological imagination Amos Yong crafts both a theology of disability and a theology informed by disability The result is a Christian theology that not only connects with our present social medical and scientific understanding of disability but also one that empowers a set of best practices appropriate to our late modern context

Publisher description      The New Cambridge Companion to Christian Doctrine Michael Allen, 2022-11-17 What is Christian Doctrine This Companion guides students and scholars through the key issues in the contemporary practice of Christian theology Including twenty one essays specially commissioned from an international team of leading theologians the volume outlines the central features of Christian doctrinal claims and examines leading methods and theological movements The first part of the book explores the ten most important topics in Christian doctrine offering a nuanced historical analysis as well as charting pathways for further development In the second part essays address the most significant movements that are reshaping approaches to multiple topics across disciplinary as well as denominational and ecclesiastical borders Incorporating cutting edge biblical and historical scholarship in theological argument this Companion serves as an accessible and engaging introduction to the main themes of Christian doctrine It will also guide theologians through a growing literature that is increasingly diverse and pluriform      Disability Theology and Eschatology Preston McDaniel Hill, Aaron Brian Davis, 2025-03-15 Christian theology looks forward to a consummation of all things in which hope justice and flourishing will finally prevail All creation will be perfectly united to God as its Creator and all shall be well But what does this mean for disabled people The typical Christian answer through history has been that disability will not exist in the world to come The advent of disability theology has given us reasons to doubt this answer In response Disability Theology and Eschatology Hope Justice and Flourishing gathers together essays from established and emerging scholars alike to provide

an extensive look at what it might mean to imagine disability as a part of humanity's ultimate ends. The volume advances conversations in disability theology through rigorously creative work including on the much neglected topic of psychiatric disability. Contributors ask and answer questions like how can one's well-being be high if they are disabled? Do Thomists have to be ableists? How do our beauty standards limit our eschatological thinking? What does dissociative identity disorder mean for the afterlife and more.

***Voices from the Edge*** Michelle Panchuk, Michael Rea, 2020. This book addresses the various ways in which key social identities, for example, race, gender, and disability, intersect with shape and are shaped by traditional questions in analytic theology and philosophy of religion. The book both breaks new ground and encourages further analytic theological work in these important areas of research.

***Essays Anglican and Analytic*** Robert MacSwain, 2025-04-17. Explore the riches at the intersection of Anglican and philosophical theology. In this thought-provoking essay collection, Robert MacSwain explores important connections between Anglican and philosophical theology. Shining a spotlight on the underappreciated theological work of Austin Farrer and David Brown, he brings them into creative conversation with better-known figures such as Joseph Butler, C. S. Lewis, Stanley Hauerwas, and Eleonore Stump. He skillfully leads readers through diverse conceptual territory ranging from the Reformed epistemology of Alvin Plantinga and Nicholas Wolterstorff to the hiddenness argument of J. L.

Schellenberg to a sacramental vision of human culture and the arts More broadly MacSwain outlines what he calls Critical Catholicism explaining how it differs from other movements in contemporary Christian thought such as Radical Orthodoxy and Analytic Theology These perceptive essays will be of particular interest to scholars and pastors who are curious about connections between theology philosophy and Anglican studies
