Statistical Studies of Historical Social Structure Kenneth W. Wachter, Eugene A. Hammel, Peter Laslett, 2013-10-22
Statistical Studies of Historical Social Structure articulates and applies concepts from statistics into historical investigations of pre industrial English households The book provides statistical reports on household composition and demographic influences and uses simulation in the study of problems in historical structure Chapters are devoted to computer simulation experiments presentation and analysis of English household composition data correlation of English patriline extinction with social mobility and how age distribution affects English social structure Statisticians historians demographers researchers and students will find the book interesting Ohio Nisi Prius and General Term Reports Ohio. Courts of Common Pleas, 1896

The New Heirs Franklin Díaz, An indispensable guide crafted to facilitate all the procedures involved in the inheritance process An essential tool for safeguarding the family estate and preventing the inheritance from becoming a labyrinth or a sea of doubts and uncertainties that are difficult to resolve Receiving an inheritance often triggers a complex web of bureaucratic procedures family disputes and legal challenges This book emerges as an essential guide for navigating this process whether as an heir testator or someone interested in understanding the Spanish succession system With a practical approach and clear straightforward language the work demystifies the technical aspects of inheritances from drafting wills to distributing assets in the absence of one covering legal implications and common errors that can prolong or make the process more expensive Its aim is to empower the reader to make informed decisions and avoid unnecessary conflicts The work is structured around three fundamental pillars The first examines succession with a will detailing types such as open wills sealed wills holographic wills maritime or military wills and their validity requirements both in Spain and abroad Here key questions are resolved Who are the forced heirs How is the legitima applied Is it possible to disinherit a child Can I donate my assets during my lifetime to leave everything sorted and thus avoid subsequent disputes etc The second section addresses succession without a will explaining the legal order of heirs the declaration of heirs and the procedures for accessing the assets The third focuses on practical steps necessary documents deadlines tax calculations notarial procedures explained step by step etc Finally an extensive problem section is included with very well explained real cases reflecting common conflicts from disputes over real estate inheritances in foral territories disinheritances to will contests offering practical solutions and strategies for resolving them *The Routledge Companion to Women and Monarchy in the Ancient Mediterranean World* Elizabeth D. Carney, Sabine Müller, 2020-11-09 This volume offers the first comprehensive look at the role of women in the monarchies of the ancient Mediterranean It consistently addresses certain issues across all dynasties title role in succession the situation of mothers wives and daughters of kings regnant and co regnant women role in cult and in dynastic image and examines a sampling of the careers of individual women while placing them within broader contexts

Written by an international group of experts this collection is based on the assumption that women played a fundamental role in ancient monarchy that they were part of not apart from it and that it is necessary to understand their role to understand ancient monarchies This is a crucial resource for anyone interested in the role of women in antiquity *Monarch Power* Clive Whitmore, AI, 2025-03-21 *Monarch Power* explores the far reaching impact of monarchs on global history examining royal decisions political strategies and their enduring consequences The book argues that individual monarchs driven by ambition and societal expectations have significantly shaped historical trajectories Royal actions concerning war diplomacy and economic policy have had lasting effects influencing both their realms and international affairs Did you know that understanding monarchical power can offer insights for contemporary leaders in business and politics By studying past rulers modern leaders can better understand present challenges The book delves into themes such as the acquisition and maintenance of power the impact of monarchical decisions on state formation and international relations and the patterns of rise and fall across royal dynasties Beginning with the emergence of monarchies the book progresses through case studies of specific monarchs and dynasties such as Louis XIV and Queen Victoria analyzing their key decisions and their lasting impact It concludes by investigating the factors contributing to the decline of royal dynasties including internal conflicts and economic crises The approach is comparative analyzing diverse monarchies across time periods and regions to reveal common patterns and unique variations **Rereading Modern Chinese History** Zhu Weizheng, 2015-04-21

Rereading Modern Chinese History is a collection of short essays on aspects of the history of the Qing dynasty a regime dominated by Manchus that ruled China from 1644 to 1911 Using sources from that period and earlier it addresses key themes on the nature of Qing rule These include the defeat by the British in the Opium Wars the twin track administration of Manchus and Han Chinese the rise of Chinese military leaders in southern China the purchase of office and endemic corruption the challenge of the Taiping Heavenly Kingdom and the failure of political reform There are new insights on all the Qing emperors and the Empress Dowager Cixi who ruled China between 1861 and 1908 **Lost Heirs of the Medieval Crown** J. F. Andrews, 2019-10-30 A fascinating study of the also rans and almost made its of medieval history Beautifully written and well researched it is an engaging read History The Interesting Bits When William the Conqueror died in 1087 he left the throne of England to William Rufus his second son The result was an immediate war as Rufus's elder brother Robert fought to gain the crown he saw as rightfully his this conflict marked the start of 400 years of bloody disputes as the English monarchy's line of hereditary succession was bent twisted and finally broken when the last Plantagenet king Richard III fell at Bosworth in 1485 The Anglo Norman and Plantagenet dynasties were renowned for their internecine strife and in *Lost Heirs* we will unearth the hidden stories of fratricidal brothers usurping cousins and murderous uncles the many kings and the occasional queen who should have been but never were History is written by the winners but every game of thrones has its losers too and their fascinating stories bring richness and depth to what is a colorful period of history King John would not

have gained the crown had he not murdered his young nephew who was in line to become England's first King Arthur Henry V would never have been at Agincourt had his father not seized the throne by usurping and killing his cousin and as the rival houses of York and Lancaster fought bloodily over the crown during the Wars of the Roses life suddenly became very dangerous indeed for a young boy named Edmund A journey through the minefield of opposing factions fighting for the crown of England Books Monthly Laws of Cuba, Puerto Rico, and the Philippines Cuba,1899 Manifesto on Cuban Affairs Ambrosio José Gonzales,1899 Translation of the Civil Code in Force in Cuba, Porto Rico, and the Philippines Cuba,1899 **Nested Political Coalitions** Terrence E. Cook,2001-11-30 Cook's principles of coalition politics are really rules of thumb followed by boundedly rational actors and can predict much coalition politics behavior Agents prefer to create marginally winning coalitions with like minded groups in the expectation of receiving rewards commensurate with investments Four distinct types of coalitions country regime agenda and cabinet are explored along with a thorough examination of current coalition literature Normally nested the broader coalitions give rise to narrower ones revealing diminishing bases of support and duration Also barring political catastrophe change in coalitions at the program or cabinet level usually do not harm and may actually strengthen the regime or country coalitions from which they arise Students and scholars in comparative politics and political theory will benefit from Cook's ability to rise above the usual divisions and limitations of sub fields A distinctive and refreshing mix of theory and empirical material INested Political Coalitions R provides a sensible digest of diverse theoretical literatures a good overview of coalition dynamics from one level to the next and illustrates all this with breathtaking empirical coverage **Blood Royal** Robert Bartlett,2020-07-09 An engaging history of royal and imperial families and dynastic power enriched by a body of surprising and memorable source material The Complete Law and Practice in the Probate Courts of Ohio ... with Complete and Practical Forms William Mahlon Rockel,1924 **The Complete Law and Practice in the Probate Courts of Ohio** William Mahlon Rockel,1922 **Genesis - A Theological Commentary - Volume 2** Charles Vogan,2019-09-21 Genesis started out with God creating the heavens and the earth When he was done he saw that it was very good God loved his Creation But man the key player in the picture refused to cooperate and turned away from God He was supposed to rule the earth under the Father Instead what ensued was ruin and disaster So God pronounced doom upon man and crippled him in four key areas Their Family relationship came to an end God however went back to that original idea He has in mind to create a new heavens and a new earth something on a higher level than the first Creation something that cannot be ruined To prevent another disaster God is creating a new Man in his own Son to live in that new Creation Genesis is showing us the process of making that new Man The New Creation will be perfect never to fail because God's own Son will rule over it *Applied Ethics* Ruth F. Chadwick,Doris Schroeder,2002 **Israel in the Book of Kings** James Richard Linville,1998-05-01 Linville argues that a new approach to the book of Kings is needed because of the failings of the usual historical critical methods He adopts a

holistic approach which sees the book as a Persian era text intended to articulate politically and religiously significant symbols within the book's monarchic history. These express the producer's reactions to important issues of Jewish identity in the continuing Diaspora and in Jerusalem. In the story of the schisms and apostacies of Israel's defunct monarchies both the Diaspora and cultural pluralism are legitimized. Rival versions of Israelite heritage are reconciled under an overarching sense of a greater Israelite history and identity.

Contributions to L'Année Sociologique Emile Durkheim, 2008-06-30. These reviews, notices and introductory sections by a major figure in intellectual history represent more than a decade of effort to define and clarify a new form of scientific investigation. Together they offer a suggestive new picture of Emile Durkheim as Scholarch of the French School and master of a whole school of social thought. For fifteen years Emile Durkheim worked on the journal *L'Année Sociologique*, selecting, editing, writing and shaping the goals and methods of the French School of sociology. Now Durkheim's own contributions to *L'Année* are available in English. Classified and explained by Durkheim scholar Yash Nandan, this useful collection clarifies the role of *L'Année Sociologique* in the development of scientific sociology, the position of *L'Année* in the body of Durkheim's own work and the development of Durkheim's ideas, the importance and function of Durkheim's categories of sociological data, Durkheim's view of contemporaries including Simmel, Westermarck, Tarde, Glotz and Steinmetz, the exchange of ideas between historians and the *L'Année* group and the reasons for *L'Année*'s reputation as a unique publication in the history of sociology. Professor Nandan has organized this material according to Durkheim's own classification system, with major sections on the concepts and methodologies of general, juridic and moral sociology, criminal sociology and the statistics on morals. Subdivisions treat issues in law, suicide, social, political and domestic organization, juridic and moral systems, the social contexts of crime, the sociology of knowledge, political sociology, social history and historical sociology.

Las Siete Partidas, Volume 5 Robert I. Burns, S.J., 2012-10-19. *Las Siete Partidas* or *Seven Divisions* is the major law code of thirteenth century Spain, compiled by Alfonso X the Learned of Castile. Seven centuries later, this compendium of legal and customary information remains the foundation of modern Spanish law. In addition, its influence is notable in the law of Spain's former colonies, including Texas, California and Louisiana. The work's extraordinary scope offers unparalleled insight into the social, intellectual and cultural history of medieval Spain. Built on the armature of a law code, it is in effect an encyclopedia of medieval life. Long out of print, the English translation of *Las Siete Partidas*, first commissioned in 1931 by the American Bar Association, returns in a superior new edition. Editor and distinguished medieval historian Robert I. Burns, S.J., provides critical historical material in a new general Introduction and extensive introductions to each *Partida*. Jerry Craddock of the University of California, Berkeley, provides updated bibliographical notes, and Joseph O. Callaghan of Fordham University contributes a section on law in Alfonso's time. *Las Siete Partidas* is presented in five volumes, each available separately: *The Medieval Church* (Volume 1), *The World of Clerics and Laymen* (*Partida I*), *Medieval Government* (Volume 2), *The World of Kings and Warriors* (*Partida II*), *The Medieval World of Law*.

Volume 3 Lawyers and Their Work Partida III Family Commerce and the Sea Volume 4 The Worlds of Women and Merchants
Partidas IV and V Underworlds Volume 5 The Dead the Criminal and the Marginalized Partidas VI and VII
