In the center, a young man with spiky blonde hair and a cigarette in his mouth looks slightly to the right. On the right, a young woman with long blonde hair and orange eyes has her mouth wide open as if shouting. City-County Consolidation and Its Alternatives: Reshaping the Local Government Landscape J.B. Carr, Richard C. Feiock, 2016-07-08 City country consolidation builds upon the Progressive tradition of favoring structural reform of local governments This volume looks at some important issues confronting contemporary efforts to consolidate governments and develops a theoretical approach to understanding both the motivations for pursuing consolidation and the way the rules guiding the process shape the outcome Individual chapters consider the push for city county consolidation and the current context in which such decisions are debated along with several alternatives to city county consolidation The transaction costs of city county consolidation are compared against the costs of municipal annexation inter local agreements and the use of special district governments to achieve the desired consolidation of services The final chapters compare competing perspectives for and against consolidation and put together some of the pieces of an explanatory theory of local government consolidation

Gnosticism, Docetism, and the Judaisms of the First Century Urban C. von Wahlde, 2015-02-26 In this book von Wahlde provides an exploration of three distinct cultural and religious backgrounds against which scholars have frequently proposed that the Gospel and Letters of John are to be read and understood von Wahlde examines each of these three possibilities in turn and shows how they may be regarded as plausible or implausible depending upon the evidence available von Wahlde shows that there are features within the Gospel and or Letters of John that do in fact suggest that they were influenced either by Gnosticism Docetism or one of the variant forms of Judaism However in each case while some of the evidence suggests a particular background von Wahlde shows that it is equally evident that not all of the evidence can be seen to suggest the same background Through an examination of the origins and purpose of the gospel and drawing on the conclusions of his well regarded commentary on the Johannine literature von Wahlde presents a new way of understanding the Gospel in its wider contexts

Janet Warren, 2012-11-08 Understanding evil spiritual forces is essential for Christian theology yet discussion is almost always phrased in terms of spiritual warfare Warfare language is problematic being dualistic assigning a high degree of ontology to evil and poorly applicable to ministry This unique study proposes a biblically based model as the first alternative to a spiritual warfare framework for dealing with the demonic thus providing insights for preaching counseling and missiology Warren develops this model using metaphor theory and examining four biblical themes Creation Cult Christ and Church Metaphors of cleansing ordering and boundary setting are developed in contrast to battle imagery and relevant theological issues are engaged Boyd's warfare imagery Barth's ideas of evil as nothingness and Eliade's notion of the sacred and the profane The role of the Holy Spirit is emphasized and the ontology of evil minimized This model incorporates concentric circles evil being considered peripheral to divine reality and provides a refreshing alternative to current spiritual warfare models **Islamic Economic Alternatives** K.S. Savage, 2012-12-06 In the Preliminary Dissertation of his Theodicy Leibniz declares himself an apologist for the compatibilist doctrines of original sin election and reprobation propounded by the theologians of the Augsburg Confession According to those theologians man's actions are determined but man retains the power to act otherwise and therefore is responsible for his actions Savage argues that Leibniz in formulating his apology availed himself of both his doctrine of possible worlds and his finite infinite analysis distinction the latter being applied within the former Savage challenges the dogma that Leibniz's metaphysical principles entail that individuals are powerless to act otherwise and that God cannot conceive of them acting otherwise He argues that interpreters deduce the dogma from those principles with the aid of dubious extra textual premises for example that a Leibnizian individual has only one complete concept or cannot be persons other than the person it actually is *Sweeney Ridge, Study for Alternatives, New Area ,1979*
