Arratrilla and So It Begins by Normie Klee It s been said the greatest trick the devil ever played was letting the people of the world believe that he doesn t exist As his influence and darkness spreads across the planet like a plague upon mankind the governments of the world and their desire for land and oil can no longer be trusted and they start to roll out their war machines When man s faith in religion has become an empty shell of greed and illusion God will send forth another one of His sons to do battle for good against the tyranny of evil But unlike the man of peace who died for the sins of the people this time He will send forth one with an iron fist to bring balance back to his planet Whether you stand with him or against him either way he will make you stand

Australia's Fossil Heritage , The Australian Heritage

Council, 2012-07-18 The National Heritage List was created in January 2004 to recognise celebrate and protect places of outstanding heritage value to the nation National heritage encompasses those places that reveal the richness of Australia's extraordinarily diverse natural historic and Indigenous heritage One aspect of natural heritage that has been little explored is Australia's wealth of exceptional fossil sites While a small number of fossil sites have risen to public prominence there are many lesser known sites that have important heritage values The Australian Heritage Council engaged palaeontologists from state museums and the Northern Territory Museum and Art Gallery to compile lists of outstanding fossil sites and to document their characteristics and relative importance against a range of categories with a view to further our understanding about Australia's important fossil heritage Sites that were listed for National or World Heritage values were not included in the places for consideration with the focus being on lesser known but still important sites This book is an account of the palaeontologists findings Some of the sites that were included in the initial lists have since been recognised through listing on the National Heritage List or the World Heritage List Australia's Fossil Heritage provides a useful reference to the outstanding fossil sites it catalogues and gives a clearer understanding of the heritage values of such sites More generally it contributes to a greater appreciation of Australia's geological and fossil diversity and enables readers to learn more about Australia's prehistory
