Sistercelebrations Nine Worship Experiences:

The Laywoman Project Mary J. Henold, 2020-01-30 Summoning everyday Catholic laywomen to the forefront of twentieth century Catholic history Mary J Henold considers how these committed parishioners experienced their religion in the wake of Vatican II 1962 1965 This era saw major changes within the heavily patriarchal religious faith at the same time as an American feminist revolution caught fire Who was the Catholic woman for a new era Henold uncovers a vast archive of writing both intimate and public facing by hundreds of rank and file American laywomen active in national laywomen s groups including the National Council of Catholic Women the Catholic Daughters of America and the Daughters of Isabella These records evoke a formative period when laywomen played publicly with a surprising variety of ideas about their own position in the Catholic Church While marginalized near the bottom of the church hierarchy laywomen quietly but purposefully engaged both their religious and gender roles as changing circumstances called them into question Some eventually chose feminism while others rejected it but most Henold says crafted a middle position even conservative nonfeminist laywomen came to reject the idea that the church could adapt to the modern world while keeping women s status frozen in amber

Ritual Making Women Jan Berry, 2017-07-05 Ritual Making Women looks at the way in which women s making of ritual has emerged from the rapidly developing field of women s spirituality and theology The author uses ethnographic material to explore how the construction of ritual uses story making and embodied action to empower women Ritual far from being a timeless and universal practice is shown to be a contextual and gendered performance in which women subvert conventional distinctions of private and public The book combines narrative and case study material and draws on feminist theology and theory social anthropology and gender studies

Women's Ways of Worship Teresa Berger, 1999 The richness of recent research on women s worship gives witness to the scholarly interest in its contemporary practice reflection and construction On the other hand feminist scholarship has had little impact on liturgical historiography In Women s Ways of Worship Teresa Berger reconstructs liturgical history from the perspectives of women She shows that the invisibility of women in the traditional liturgical narrative draws into question the credibility of that narrative especially at a time when research into women s history has unearthed much material relevant to women s liturgical lives Berger focuses on thirteen key interpretative principles that guide the reconstruction of women at worship from a re configuration of the canon of sources and a re Visioning of liturgical periodization to re interpretation of anthropological basics and of liturgical texts On the basis of these principles she analyzes liturgical dynamics in two time periods crucial to the history of women at worship the early centuries of the Christian Church and the twentieth century liturgical renewal Within the twentieth century liturgical renewal Berger focuses on two specific foci of renewal the classical liturgical movement of the first half of the century and as a case of history in the making the women s liturgical movement of the present day Women s Ways of Worship narrates both past and present liturgical developments from the perspectives of women s lives heeding such

dynamics as the genderization of liturgical space women specific liturgical taboos gender specific devotional practices and the emergence of feminist liturgies An epilogue confronts the question of a future liturgy beyond gender Convinced that reconstructing the history of women at worship will offer a new Vision of the place of the women s liturgical movement within liturgical history as a whole Berger puts this movement on a continuum of women at worship which is a continuum of struggle against the historic marginalization of women in most liturgical contexts As this struggle has come to the forefront today Women s Ways of Worship provides a context for change with women themselves being agents of both the questioning and the transformation Chapters are Reconstructing Women s Ways of Worship In Search of Methodological Principles Liturgical History Re Constructed I Early Christian Women at Worship Liturgical History Re Constructed II Women in the Twentieth Century Liturgical Movement and Liturgical History in the Making The Women s Liturgical Movement Teresa Berger is associate professor of Ecumenical Theology at the Divinity School of Duke University Durham North Carolina She is the author of numerous books and contributor to a variety of journals including Worship published by The Liturgical Press
