Tiger Bone & Rhino Horn Richard Ellis, 2013-02-22 In parts of Korea and China moon bears black but for the crescent shaped patch of white on their chests are captured in the wild and brought to bear farms where they are imprisoned in squeeze

cages and a steel catheter is inserted into their gall bladders The dripping bile is collected as a cure for ailments ranging from an upset stomach to skin burns The bear may live as long as fifteen years in this state Rhinos are being illegally poached for their horns as are tigers for their bones thought to improve virility Booming economies and growing wealth in parts of Asia are increasing demand for these precious medicinals Already endangered species are being sacrificed for temporary treatments for nausea and erectile dysfunction Richard Ellis one of the world's foremost experts in wildlife extinction brings his alarm to the pages of *Tiger Bone Rhino Horn* in the hope that through an exposure of this drug trade something can be done to save the animals most direly threatened Trade in animal parts for traditional Chinese medicine is a leading cause of species endangerment in Asia and poaching is increasing at an alarming rate Most of traditional Chinese medicine relies on herbs and other plants and is not a cause for concern Ellis illuminates those aspects of traditional medicine but as wildlife habitats are shrinking for the hunted large species the situation is becoming ever more critical One hundred years ago there were probably 100 000 tigers in India South China Sumatra Bali Java and the Russian Far East The South Chinese Caspian Balinese and Javan species are extinct There are now fewer than 5 000 tigers in all of India and the numbers are dropping fast There are five species of rhinoceros three in Asia and two in Africa and all have been hunted to near extinction so their horns can be ground into powder not for aphrodisiacs as commonly thought but for ailments ranging from arthritis to depression In 1930 there were 80 000 black rhinos in Africa Now there are fewer than 2 500 Tigers bears and rhinos are not the only animals pursued for the sake of alleviating human ills the list includes musk deer sharks saiga antelope seahorses porcupines monkeys beavers and sea lions but the dwindling numbers of those rare species call us to attention Ellis tells us what has been done successfully and contemplates what can and must be done to save these animals or sadly our children will witness the extinction of tigers rhinos and moon bears in their lifetime

Wildlife Resources Harald H. Roth,Günter Merz,2013-06-29 The general interest and attention paid to the use of the renewable natural resources of the world have increased greatly during the last decades This is due to the environmental dilemma into which mankind has got itself by the total disregard of ecological facts and laws the underpricing of natural resources and the overemphasis on economic development coupled with unimpeded rapid population growth and the preponderance of material istic consumption oriented attitudes The management and use of natural resources such as forests grasslands rivers and lakes were formerly considered purely in a financial context whereas latterly a consciousness of their social function and the indirect economic benefits which can be derived from them has developed Thus as regards these traditional resources multi use concepts comprising eco nomically oriented utilisation as well as recreational educational and social use have be come widely accepted Conservation of natural resources for sustainable consumptive as well as non consumptive uses has been recognised as a key element for maintaining eco nomic development all over the world Fortunately the industrialised countries have started to apply this principle themselves and in their technical and financial aid to the developing Third World countries This is manifest from policy documents such as the World Bank Policy on Development of Wild Lands issued in 1987

Deadly Medicine Peter C. Mancall,2018-07-05 An important work of scholarship with powerful concise and objective insights into the complicated history of alcohol use among Native American peoples Impeccably researched cogently argued and clearly written Peter Mancall s book is both an eye opener for the lay reader and an invaluable resource for the expert Michael Dorris author of The Broken Cord A Family s Ongoing Struggle with Fetal Alcohol Syndrome Alcohol abuse has killed and impoverished American Indians since the seventeenth century when European settlers began trading rum for furs In the first book to probe the origins of this ongoing social crisis Peter C Mancall explores the liquor trade s devastating impact on the Indian communities of colonial America Mancall recounts how English settlers quickly found a market for alcohol among the Indians and traffic in rum became a prominent source of revenue for the British Empire In spite of the colonists growing awareness that some Indians abused alcohol and that drinking threatened the stability of countless Indian villages already decimated by European diseases they expanded the liquor trade into virtually every Indian community from the Atlantic to the Mississippi In response Indians created one of the most important temperance movements in American history a movement that was nevertheless unable to halt the lucrative commerce The author follows the trail of rum from the West Indian producers to the colonial distributors and on to the Indian consumers in the eastern woodlands To discover why Indians participated in the trade and why they experienced such a powerful desire for alcohol he addresses current medical views on alcoholism and reexamines the colonial era as a time when Indians were forming new strategies for survival in a

world that had been radically changed Finally Mancall compares Indian drinking in New France and New Spain with that in the British colonies Forever shattering the stereotype of the drunken Indian Mancall offers a powerful indictment of English participation in the liquor trade and a new awareness of the trade's tragic cost for the American Indians The Gentleman's and London Magazine, 1741 The Biology and Conservation of Wild Felids David Macdonald, Andrew Loveridge, 2010-06-03 The editors utilize their 50 years of combined experience in professional engagement with the behaviour and ecology of wild felids to draw together a unique network of the world's most respected and knowledgeable experts For the first time this interdisciplinary research programme is brought together within a single volume Beginning with a complete account of all 36 felid species there follow 8 comprehensive review chapters that span all the topics most relevant to felid conservation science including evolution and systematics felid form and function genetic applications behavioural ecology management of species that come into conflict with people and control of international trade in felid species conservation tools techniques ex situ management and felid diseases 19 detailed case studies then delve deeply into syntheses of the very best species investigations worldwide written by all the leading figures in the field These chapters portray the unique attributes of the wild felids describe their fascinating and conflicting relationship with humans and create an unparalleled platform for future research and conservation measures A final chapter analyses the requirements of and interdisciplinary approaches to practical conservation with cutting edge examples of conservation science and action that go far beyond the cat family **Victory RUN 1-2-3** Devon Hartford, 2015-04-02 Have you ever dreamed of being a rock star Girl guitar shredder Victory Payne dreams about it every night She is the hottest lead guitar player on the night club scene of Hollywood's infamous Sunset Strip With nothing but her car and her guitar she's ready to claw her way to success Victory never gives up Like the rebel she is Victory broke the only rule in Rock Roll Don't sleep with anyone in the band She fell in love with her lead singer the gorgeous and brooding Scott Walker That's mistake number one Mistake number two is a roadblock named Kellan Burns Kellan is primed to claim the title of hottest lead guitar player in Los Angeles with his rugged good looks and his own guitar slung as low as his tight jeans Kellan isn't the kind of guy to let some upstart babe with a six string stand in his way Victory Payne meet Kellan Burns BOOM You will need a fire extinguisher for this one This edition collects the serialized novels Victory RUN 1 Victory RUN 2 and Victory RUN 3 into a single volume *Hides and Skins and Leather* United States Tariff Commission, 1946 **'How Best Do We Survive?'** Kenneth McPherson, 2012-12-06 This book traces the social and political history of the Muslims of south India from the later nineteenth century to Independence in 1947 and the contours that followed It describes a community in search of political survival amidst an ever changing climate and the fluctuating fortunes it had in dealing with the rise of Indian nationalism the local political nuances of that rise and its own changing position as part of the wider Muslim community in India The book argues that Partition and the foundation of Pakistan in 1947 were neither the goal nor the necessarily inescapable result of the growth of communal politics and

sentiment and analyses the post 1947 constructions of events leading to Partition Neither the fact of Muslim communalism per se before 1947 nor the existence of separate Muslim electorates provide an explanation for Pakistan The book advances the theory that micro level studies of the operation of the former and the defence of the latter in British India can lead to a better understanding of the origins of communalism The book makes an important contribution to understanding and dealing with the complexities of communalism be it Hindu Muslim or Christian and its often tragic consequences *Fur* Jonathan Faiers,2020-01-01 A groundbreaking informative and thought provoking exploration of fur s fashionable and controversial history The first and only book of its kind *Fur A Sensitive History* looks at the impact of fur on society politics and of course fashion This material has a long complex and rich history culminating in recent and ongoing anti fur debates Jonathan Faiers discusses how fur long praised for its warmth softness and connotation of status became so controversial at the center of campaigns against animal cruelty and the movement toward ethical fashion At the same time fake fur now faces a backlash of its own given the environmental impact of its manufacture and its links to fast fashion Divided into five sections dedicated to hair pelt coat skin and fleece the book surveys not only the politics of fur but also its centrality to western fashion the tactile pleasure it gives and its use in literature art and film This thoughtfully reasoned eloquently written and spectacularly illustrated examination of fur is both timely and essential filling a gap in fashion scholarship and appealing to a broad audience *Wildlife Production Systems* Robert J. Hudson,K. R. Drew,L. M. Baskin,1989-06 This book first published in 1989 examines the controversial position of commercial utilisation in relation to wildlife conservation Production of large mammals has earned respectability as an agricultural strategy and its evaluation has been listed as a priority requirement in the World Conservation Strategy However many authorities question whether wildlife production is a viable economic and environmental strategy and suggest that it runs counter to its claimed purpose This book evaluates this controversy by chronicling the changing role of wildlife and by reflecting on the implications of these trends The book should be of interest to people both applauding and deploring the use of wildlife in this economic role *Annual Report of the Medical Officer* ,1882 **A Dictionary of the Economic Products of India** George Watt,2014-01-23 Reissued in nine parts this monumental work 1889 96 describes India s commercial plants and produce providing scientific and vernacular names

Skin Trade: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have charmed audiences this year. Skin Trade : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Skin Trade : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
