Copyright Office, 1931      Kid Comic Strips Ian Gordon, 2016-11-30 This book looks at the humor that artists and editors believed would have appeal in four different countries Ian Gordon explains how similar humor played out in comic strips across different cultures and humor styles By examining Skippy and Ginger Meggs the book shows a good deal of similarities between American and Australian humor while establishing some distinct differences In examining the French translation of Perry Winkle the book explores questions of language and culture By shifting focus to a later period and looking at the American and British comics entitled Dennis the Menace two very different comics bearing the same name Kid Comic Strips details both differences in culture and traditions and the importance of the type of reader imagined by the artist

their legacies Moving beyond binaries of positive and negative representation many black cartoonists have used caricatures to criticize constructions of ideal citizenship in the United States as well as the alienation of African Americans from such imaginaries The Content of Our Caricature urges readers to recognize how the wide circulation of comic and cartoon art contributes to a common language of both national belonging and exclusion in the United States Historically white artists have rendered white caricatures as virtuous representations of American identity while their caricatures of African Americans are excluded from these kinds of idealized discourses Employing a rich illustration program of color and black and white reproductions Wanzo explores the works of artists such as Sam Milai Larry Fuller Richard Grass Green Brumsic Brandon Jr Jennifer Crut Aaron McGruder Kyle Baker Ollie Harrington and George Herriman all of whom negotiate and navigate this troublesome history of caricature The Content of Our Caricature arrives at a gateway to understanding how a visual grammar of citizenship and hence American identity itself has been constructed
