Living on the Edge Ken Paffrath, 2014-05-01 We all are Living On The Edge Sometimes we fall off the edge sometimes we decide to change edges Regardless life on the edge can be exciting and fraught with many perils Many times we stop Living On The Edge to contemplate where we have been and what lies ahead Ken Paffraths life has experienced many ups and downs and is reflected in his poetry Poetry which is introspective suicidal humourous spiritual environmental thought provoking or nonsensical It is a chronicle of life in poetry dreams heartbreaks ups and downs In reading *Living On The Edge* it is hoped that you may identify in some small way with the author *From My Heart to Yours* Lynn Brown

Erwin, 2005-07-11 My book of poetry comes from deep within my heart It s about love pain sorrow and happiness I ve always been able to reach inside myself and others And to write about ones life I m sure once you ve read my book of poetry you will find one s own life within the words I have wrote *My Driver Tulong* M P Joseph, 2017-02-20 The author M P Joseph a Civil Servant from the distant Indian state of Kerala spent many delightful years in Cambodia working for the UN when the country had just morphed from a war torn Communist moth into a fascinating free market butterfly Through mesmerizing characters who personify the ancient soul of Cambodia and epitomize its modernizing mind the author conjures up a vision of contemporary Cambodia and its people Their lives and loves their joys and tribulations their hopes and their anguish and most of all their innocence is captured in these delightfully inter connected stories The characters come alive to etch a never before known Cambodia Written with a Maughamian touch the book delves deep into the soul of Cambodia a soul moulded by the ancient culture of Angkor and shaped by the more recent excesses of Pol Pot The fortitude of its people their pluck and their courage in the face of adversities their survival skills as well as Cambodias Indian past both Hindu and Buddhist and its present Indo Chinese zest are woven seamlessly into the stories The book is an amusing essay into the modern soul of this ancient land Now populated by a GenNext who cannot yet forget their chilling past the book is a journey into the heart of its people A heart of innocence The authors Valentinian love for Cambodia his honed observation and delightful humour makes this fictional stretched travelogue a genre apart A must read for everyone whether a traveller or not interested in South East Asia Indo China or Cambodia **Symphony of Life** Leticia Gossdénovich Feldman Ed.D Ph, 2013-07-03 Temples fail statues decay mausoleums perish Eloquent phrases declaimed are forgotten But good books are immortal William Vernon

In the Hills Theodore Marburg, 1924 *Religion, Death, and Dying* Lucy Bregman, 2009-11-25 A wide ranging anthology for general readers covering many religious ethical and spiritual aspects of death dying and bereavement in American society What do various spiritual and ethical belief systems have to say about modern medicine s approach to the end of life Do all major religions characterize the afterlife in similar ways How do funeral rites and rituals vary across different faiths Now there is one resource that gathers leading scholars to address these questions and more about the many religious ethical and spiritual aspects of death dying and bereavement in America *Religion Death and Dying* compares and contrasts the ways

different faiths and ethical schools contemplate the end of life The work is organized into three thematic volumes first an examination of the contemporary medicalized death from the perspective of different religious traditions and the professions involved second an exploration of complex often controversial issues including the death of children AIDS capital punishment and war and finally a survey of the funeral and bereavement rituals that have evolved under various religions *Musings of an Old Warrior* , The Female Poets of America ... In this devotional, Ellie invites you to steep your soul in the living Word, take hold of it, wrestle with it, bury it in your heart and watch as it brings about life and flourishing. The Ironware Store William Stanley, 2024-09-03 The *Ironware Store* is set in Dawson City shortly after the start of the twentieth century. The book is the last in a series written by this author which depicts the adventures of an extended family of fur trappers as they struggle to survive in the Yukon Territory. Samuel, an adventurer from Seattle who moved to Dawson City to open a business selling products such as woodstoves, axes, ironware for cooking and dog sled runners, managed to earn a profit in his first year of operation. Looking to increase his income, he opens a fur brokerage business in a small building constructed behind his ironware store. Samuel's close relationship with the patriarchal couple of the family provides him with a glimpse of what true survival entails as he becomes acquainted with the members of this close network of friends and relatives. The *Ironware Store* depicts daily life in the Yukon and the struggle to exist in a harsh but stunning environment. Discover what chilling event drastically changes the lives of the men and women who have made the wilds near Dawson their home, an ending no one was expecting.

Mirror Worlds David Gelernter, 1993-01-28 Technology doesn't flow smoothly; it's the big surprises that matter. And Yale computer expert David Gelernter sees one such giant leap right on the horizon. Today's small scale software programs are about to be joined by vast public software works that will revolutionize computing and transform society as a whole. One such vast program is the Mirror World. Imagine looking at your computer screen and seeing reality: an image of your city for instance, complete with moving traffic patterns or a picture that sketches the state of an entire far flung corporation. At this second, these representations are called Mirror Worlds, and according to Gelernter, they will soon be available to everyone. Mirror Worlds are high tech voodoo dolls; by interacting with the images you interact with reality. Indeed, Mirror Worlds will revolutionize the use of computers, transforming them from mere handy tools to crystal balls which will allow us to see the world more vividly and see into it more deeply. Reality will be replaced gradually, piece by piece, by a software imitation we

will live inside the imitation and the surprising thing is this will be a great humanistic advance We gain control over our world plus a huge new measure of insight and vision In this fascinating book part speculation part explanation Gelernter takes us on a tour of the computer technology of the near future Mirror Worlds he contends will allow us to explore the world in unprecedented depth and detail without ever changing out of our pajamas A hospital administrator might wander through an entire medical complex via a desktop computer Any citizen might explore the performance of the local schools chat electronically with teachers and other Mirror World visitors plant software agents to report back on interesting topics decide to run for the local school board hire a campaign manager and conduct the better part of the campaign itself all by interacting with the Mirror World Gelernter doesn't just speculate about how this amazing new software will be used he shows us how it will be made explaining carefully and in detail how to build a Mirror World using technology already available We learn about disembodied machines trellises ensembles and other computer components which sound obscure but which Gelernter explains using familiar metaphors and terms He tells us that a Mirror World is a microcosm just like a Japanese garden or a Gothic cathedral and that a computer program is translated by the computer in the same way a symphony is translated by a violinist into music Mirror Worlds offers a lucid and humanistic account of the coming software revolution told by a computer scientist at the cutting edge of his field
