Gilton, 2020-02-18 This edition of Multicultural and Ethnic Children's Literature in the United States addresses both quantitative and more qualitative changes in this field over the last decade Quantitative changes include more authors books and publishers book review sources booklists and awards organizations institutions and websites and criticism and other

scholarship Qualitative changes include More support for new and emerging writers and illustrators Promotion of multicultural literature both in the U S and around the world as well as developments in global literature Developments in the literatures described throughout this book as well as in research supporting this literature. The impact of technology Characteristics and activities of four adult audiences that use and promote multicultural children's literature and Changes in leaders and their organizations. This is still a single reference source for busy and involved librarians teachers parents scholars publishers distributors and community leaders Most books on multicultural children's literature are written especially for teachers librarians and scholars They may be introductions to the literature selection tools teaching guides or very theoretical books on choosing evaluating and using these materials Multicultural and Ethnic Children's Literature in the United States focuses much more on the history of the development of this literature from the nineteenth century to the present day This book provides much more of a cultural and political context for the early development of this literature It emphasizes the self determining viewpoints and activities of diverse people as they produce materials for the young Multicultural and Ethnic Children's Literature describes organizations events activities and other contributions of diverse writers illustrators publishers researchers scholars librarians educators and parents It also describes trends in the research on the literature It elaborates more on ways in which diversity is still an issue in publishing companies and an extended list of related industries It describes related literature from outside of the U S and makes connections to traditional global literature Last Multicultural and Ethnic Children's Literature shows the impact of multiculturalism on education libraries and the mainstream culture in general While the other books on multiculturalism focus on how to find evaluate and use multicultural materials especially in schools and libraries this book is concerned over whether and how books are produced in the first place and how this material impact the broader society In many ways it supplements other books on multicultural children's literature The Editor Makes House Calls Allison Mitcham, Yvonne Wilson, 2003 Disney Stories Krystina Madej, Newton Lee, 2020-10-20 The second edition of Disney Stories Getting to Digital will be of interest to lovers of Disney history and also to lovers of Hollywood history in general The first edition was planned as a short history of the companies evolution from analog storytelling to a digital online presence that closed the chapter on early Disney films with the release of the groundbreaking Snow White The purpose of the new edition is to bring to readers a more complete view of the analog digital story by including three new chapters on film that cover key developments from the live animation hybrids of the 1940s to CAPS and CGI in the 1990s and VR in the 2010s It also includes in the discussion of cross media storytelling the acquisition of the exceptional story property Star Wars and discusses how Disney has brought the epic into the Disney Master Narrative by creating Galaxy s Edge in its US theme parks Krystina Madej s engaging portrayal of the long history of Disney's love affair with storytelling and technology brings to life the larger focus of innovation in creating characters and stories that captivate an audience and together with Newton Lee's detailed experience of Disney during the crucial 1995

2005 era when digital innovation in online and games was at its height in the company makes for a fast paced captivating read Disney Stories first edition explored the history of Disney both analog and digital It described in detail how Walt Disney used inventive and often ground breaking approaches in the use of sound color depth and the psychology of characters to move the animation genre from short visual gags to feature length films with meaningful stories that engaged audience s hearts as well as tickled their funny bones It showed Walt's comprehensive approach to engaging the public across all media as he built the Disney Master Narrative by using products books comics public engagements fan groups such as the Mickey Mouse club TV and of course Disneyland his theme park Finally it showed how after his passing the company continued to embrace Walt's enthusiasm for using new technology to engage audiences through their commitment to innovation in digital worlds It describes in detail the innovative storybook CD ROMs their extensive online presence the software they used and created for MMORGs such as Toontown and the use of production methods such as agile methodology This new edition provides insight on major developments in Disney films that moved them into the digital world The History of Modern Korean Fiction (1890-1945) Young Min Kim, 2020-11-09 This book explores the history of modern Korean literature from a sociocultural perspective Rather than focusing solely on specific authors and their works Young Min Kim argues that the development of modern media shifting conceptualizations of the author and a growing mass readership fundamentally shaped the types of narratives that appeared at the turn of the twentieth century In particular Kim follows the trajectory of the sin sosol new fiction as it meshed with the new print and media culture to give rise to innovative and hybrid genres and literary styles In doing so he compellingly illuminates the relationship between literary systems and forms and underscores the necessity of re locating literary texts in their sociohistorical contexts
