

One thing we build into every product is G-E experience

Building seven million refrigerators, 29 million electric irons, taught us a lot about making things do more, last longer, cost less to run.... Making billions of lamps has shown us how to give you the most light for the fewest pennies. Each generation of G-E scientists and engineers stands on the shoulders of men who have worked and learned and discovered before them. The products you buy today are better because of General Electric's experience in so many fields.
