Encountering Jesus Evangeline Carey,2010 *Encountering Jesus A Life Changing Look at the Son of God* helps you discover or recapture the miracles of Jesus as they were first experienced by eyewitnesses to the Savior s power and compassion The Gospel writers Matthew Mark and John provide documented accounts of these events which left an impact on people then and continue to touch lives today

You Were Created Robert A. Whitley,Brenda Whitley,2002-02 With the onslaught of terrorism comes the question WHY The fact is evil has reigned in the hearts of men and women long before our generation Every time we are selfish or mean it causes pain to someone Sin is the cause of evil not God From the very beginning God has allowed men and women the freedom of choice and when wrong choices are made there are consequences The consequences usually affect more than the guilty one s God never intended His special creation to choose evil You Were Created explains God s love for us even when we disobey Him It covers several areas that we struggle with every day His answer is not a government economic or welfare program It is a program that in love calls His children back home to Him It is about change from the inside out that gives us the desire to do good instead of evil It is a program that will give peace even amidst extreme turmoil

The Lie Ken Ham,2012-10-15 Today Christians and those considering the Christian faith increasingly doubt the Bible s reliability Why What changed Revised Expanded for this special 25th anniversary edition Ken Ham points out the looming precipice too many church leaders are rushing towards a denial of the full authority and accuracy of the Bible from its very first verse In addition Ken powerfully shows how the unproven unscientific philosophy of evolution is driving young people away from the Christian faith and provides solid biblical solutions

to turn things around The Lie uncovers Why Genesis remains critically important in presenting the Gospel This slippery slope of reinterpreting Scripture and redefining biblical doctrine How the handling of the biblical account of creation impacts your understanding of all of Scripture and your worldview The collapsing structure of Christianity as Genesis is questioned compromised and dismissed The religion of evolution The authority of God s Word versus man s fallible word Genesis as the foundation for all biblical doctrine Evolutionary ideas are actually destructive to the foundational message of the Cross of Jesus Christ Evolution is used to justify social issues such as abortion communism drug abuse homosexual practices and worse The successful use of creation evangelism to present the whole gospel message These issues are of critical importance when you realize that today we have Christians questioning Genesis the age of the earth the reality of Hell Adam as a real person and Christ s own words about creation marriage and more One compromise just leads to another and it has to end if we want to leave a legacy of faith to future generations Churches individuals and Bible colleges are using this Christian apologetic resource to strengthen their faith families and sharing of the whole gospel of Jesus Christ *Applied Ethics* Larry May,2017-07-05 This best selling text continues to fill an existing gap in the literature taught in applied ethics courses As a growing number of courses that include the perspectives of diverse cultures are being added to the university curriculum texts are needed that represent more multicultural and diverse histories and backgrounds This new edition enhances gender coverage as nearly half of the pieces are now authored by women The new edition also increases the percentage of pieces written by those who come from a non Western background It offers twelve up to date articles not found in previous editions on human rights environmental ethics poverty war and violence gender race euthanasia and abortion all of these topics are addressed from Western and non Western perspectives Fundamentalisms and Society Martin E. Marty,R. Scott Appleby,1993-03-15 A systematic overview of the advances made by antiseccular religious movements over the past twenty five years and show ing the impact these movements have had on human relations education women s rights and scientific research Publisher
