The German Social Democratic Party 1875 1933 From Ghetto To Government:

The German Social Democratic Party, 1875-1933 W. L. Guttsman, 2019-06-26 Originally published in 1981 this book covers the development of the Social Democratic Party SPD from its inception to the end of the Weimar republic Within a historical framework it analyses the role and operation of the SPD in the changing social and political climate of Germany and describes the party's internal struggles throughout the period The party continually debated its aims and the means to achieve them Conducted by people such as Kautsky Bernstein and Rosa Luxemburg with close links to Marx Engels and other leaders of the international socialist movement this debate within the party was one of the most fundamental socialist controversies whose relevance remains today

The German Social Democratic Party, 1875-1933 Wilhelm Leo Guttsman, 1981

The German Social Democratic Party, 1875-1933 Wilhelm L. Guttsman, 2020

The German Social Democratic Party, 1875-1933 Roy Harris, Talbot J. Taylor, 1989 Originally published in 1981 this book covers the development of the Social Democratic Party SPD from its inception to the end of the Weimar republic Within a historical framework it analyses the role and operation of the SPD in the changing social and political climate of Germany and describes the party's internal struggles throughout the period The party continually debated its aims and the means to achieve them Conducted by people such as Kautsky Bernstein and Rosa Luxemburg with close links to Marx Engels and other leaders of the international socialist movement this debate within the party was one of the most fundamental socialist controversies whose relevance remains today

The West German Social Democrats, 1969-1982 Gerard Braunthal, 2019-06-26 The fall of the West German government in 1982 ended the 13 year rule of the Social Democratic Party SPD as the senior coalition partner under Chancellors Willy Brandt and Helmut Schmidt In perpetual opposition from 1949 to 1966 the Social Democrats finally entered the government as the junior coalition party in 1966 three years later they assumed primary responsibility for guiding the nation The central theme of this detailed examination of the SPD during its years of governance is that social and economic forces in the nation had a major effect often unsettling on the party at a time when it had achieved the pinnacle of political power Significant changes in the party's organization membership leadership factionalism ideology and voter support limited its role within the political system in the executive and legislative branches and its influence on domestic and foreign policies Yet its ability to remain in power for a comparatively long period attests to its strength and respectability among the voting public Dr Gerard Braunthal draws on a wealth of documentation some unpublished located primarily in German archives and libraries In addition he interviewed more than 120 persons ranging from the top SPD leaders to staff officials members and other specialists to gain a greater understanding of a party that is one of the most powerful in Western Europe and in the social democratic world and whose organization has been a model of the twentieth century mass party

Between Reform and Revolution David E. Barclay, Eric D. Weitz, 2002-09-01 The powerful impact of Socialism and Communism on modern German history is the theme which is explored by the contributors

to this volume Whereas previous investigations have tended to focus on political intellectual and biographical aspects this book captures for the first time the methodological and thematic diversity and richness of current work on the history of the German working class and the political movements that emerged from it Based on original contributions from U S British and German scholars this collection address a wide range of themes and problems The German Social Democrats Since 1969 Gerard Braunthal,2019-07-11 This thoroughly revised edition of The West German Social Democrats 1969 1982 Profile of a Party in Power contrasts the period during which the SPD was in power with its role since 1982 as an opposition party Even though it was the senior party in the coalition governments of chancellors Willy Brandt and Helmut Schmidt it did not have the influence on domestic and foreign policy in the 1970s that it had hoped for Nevertheless it achieved insider status unlike its dual competitive and cooperative opposition role vis a vis the conservative governments of Helmut Kohl Braunthal also discusses the short lived East German SPD which formed during the crumbling months of the German Democratic Republic and then merged with the West German party shortly before unification In a period when some analysts pronounce the victory of capitalism and the death of socialism and others decry the crises among political parties the SPD has managed to remain relatively strong Yet the party argues the author will need to enhance its support especially in eastern Germany if it expects to regain political power in the 1990s Such a goal cannot be reached unless it projects a modern image minimizes intraparty discord copes successfully with the external social and economic forces affecting its development and has a dynamic leadership that presents appealing policy alternatives to the Kohl government Braunthal details the SPD s organization leadership factions constituent associations ideology voter support and elections relations to Parliament and government and influence on government policies He draws from a wealth of primary sources including unpublished German archival records and over 200 interviews with top politicians party officials SPD members and journalists Braunthal one of the leading Western scholars on the SPD presents here the definitive study of this pivotal party *The Weimar Years* Frank McDonough,2023-08-31 A DAILY MAIL BOOK OF THE WEEK A SPECTATOR BOOK OF THE YEAR A DAILY TELEGRAPH BEST HISTORY BOOK OF 2023 ASPECTS OF HISTORY BOOKS OF THE YEAR A GUARDIAN BOOK OF THE YEAR 2023 Established in 1918 19 in the wake of Germany s catastrophic defeat in the First World War and the revolution that followed swiftly on its heels the Weimar Republic ushered in widespread social reform a radical cultural flowering and the most democratic conditions the German people had ever known At its beginning Weimar held out the hope that democracy stability and prosperity would take root in Germany but it was beset by frequent changes of government waves of economic upheaval and spasms of violence of increasing intensity between the forces of left and right Agitation and assassination by rightwing nationalists enraged by the severity of the Treaty of Versailles and the acceptance of its terms by liberal German politicians formed a threatening descant to the conciliatory efforts of successive coalition governments Ultimately the instabilities of Weimar would lead to the appointment as German Chancellor of the Nazi Fu hrer Adolf Hitler who created a

one party dictatorship that abandoned the rule of law democracy and civil rights In the words of Gustav Stresemann Germany's Nobel Peace Prize winning Foreign Minister from 1923 to 1929 Weimar democracy was dancing on a volcano The Weimar Years is a vivid and compelling narrative of a dramatic period in German history Year by year from 1918 to 1933 Frank McDonough covers the major events in both domestic and foreign policy and the personalities who shaped them together with developments in music art theatre and literature McDonough places particular focus on the parliamentary history of Weimar arguing that it was the failure of parliamentary democracy to bring stability that eroded public confidence and allowed the power of the elected Reichstag to gradually diminish culminating in Hitler's accession to power in January 1933 The Weimar Years is the tragic story of a rise and fall as well as a warning of how under poor leadership economic pressure and unrelenting political volatility a democracy can drift towards a form of authoritarian rule that eventually destroys it Weimar and Nazi Germany Panikos Panayi, 2014-09-25 Weimar and Nazi Germany presents the history of the country in these periods in a unique way Examining the continuities and discontinuities between the Third Reich and the Weimar Republic it also contextualises these two regimes within modern German and European history After a broad introduction to 1919-1945 four general surveys examine the economy society internal politics and foreign policy A third section treats specific key themes including women and the family big business race the SPD the extreme Right and Anglo-German relations This innovative text assembles major scholars of Germany It will prove vital reading for all those interested in twentieth century history Themes in Modern European History 1830-1890 Bruce Waller, 2002-09-11 Providing a series of lively essays which reflect the skills that historians have to master when challenged by problems of evidence interpretation and presentation this important new text covers the topics of France Germany Italy Austria and Russia as well as analyzing the themes of political thought cultural trends the economy and warfare international relations and imperialism Six distinguished scholars all of whom are regularly involved in student teaching provide an authoritative student guide to the main contours of nineteenth century European history when the continent's standing was at its highest and its influence spanned the globe
