The architecture of social reform Isabel Rousset, 2022-06-07 The architecture of social reform explores the fascinating intellectual origins of modern architecture's obsession with domesticity Copiously illustrated Rousset's revealing analysis demonstrates how questions over aesthetics style urbanization and technology that gripped the modernist imagination were deeply ingrained in a larger concern to reform society through housing The increasing demand for new housing in Germany's rapidly growing cities fostered critical exchanges between a heterogeneous group of actors including architects urban theorists planners and social scientists who called for society to be freed from class antagonism through the provision of good modest traditionally minded domestic design Offering a compelling account of architecture's ability to act socially the book provocatively argues that architectural theory underwent its most critical epistemological transformation in relation to the dynamics of modern class politics long before the arrival of the avant garde

German Cities and Bourgeois Modernism, 1890-1924 Maiken Umbach, 2009-06-25 This is a study of a distinctive brand of modernism that first emerged in late nineteenth century Germany and remained influential throughout the inter war years and beyond Its supporters saw themselves as a new elite ideally placed to tackle the many challenges facing the young and rapidly industrializing German nation state They defined themselves as bourgeois and acted as self appointed champions of a modern consciousness Focusing on figures such as Hermann Muthesius Fritz Schumacher and Karl Ernst Osthaus and the activities of the Deutscher Werkbund and other networks of bourgeois designers writers and experts this book shows how bourgeois modernism shaped the infrastructure of social and political life in early twentieth century Germany Bourgeois modernism exercised its power not so much in the realm of ideas but by transforming the physical environment of German cities from domestic interiors via consumer objects to urban and regional planning Drawing on a detailed analysis of key material sites of bourgeois modernism and interpreting them in conjunction with written sources this study offers new insights into the history of the bourgeois mindset and its operations in the private and public realms Thematic chapters examine leitmotifs such as the sense of locality and place the sense of history and time and the sense of nature and culture Yet for all its self conscious progressivism German bourgeois modernism was not an inevitable precursor of neo liberal global capitalism It remained a hotly contested historical construct which was constantly re defined in different geographical and political settings

Richard Riemerschmid's Extraordinary Living Things Freyja Hartzell, 2022-11-01 How Richard Riemerschmid's designs of everyday but extraordinary objects recalibrate our understanding of modernism At the beginning of the twentieth century German artist Richard Riemerschmid 1868 1957 was known as a symbolist painter and by the advent of World War I had become an important modern architect This however the first English language book on Riemerschmid celebrates his understudied legacy as a designer of everyday objects furniture tableware clothing that were imbued with an extraordinary sense of vitality and even personality Freyja Hartzell makes a case for the importance of

Riemerschmid's designed objects in the development of modern design and for the power of everyday things to change the way we live our lives understand history and design our future Hartzell offers for the first time an interpretive history of Riemerschmid's design practice embedded in a fresh examination of modernism told by the objects themselves Hartzell explores Riemerschmid's early drawings paintings and prints his interiors and housewares which represent a modernist shift from exclusive image to accessible object his designs for women's clothing his immensely popular wooden furniture his serially produced ceramics and their appeal to German nationalism of the period and his complex and compelling pattern designs for textiles and wallpapers the only part of his creative practice that spanned his entire career Riemerschmid Hartzell writes was at his most inventive playful and free when designing things for everyday use His uniquely designed forms allow us to recognize the utilitarian object not just as a tool but as an individual being a thing with a soul *The Werkbund* Frederic J. Schwartz, 1996-01-01 During the period before World War I the German Werkbund tried to forge new theories of architecture and design in the light of the technological and economic developments of modernity This work explores the ideology and aesthetic positions in the debates among those who comprised the Werkbund **Designing One Nation** Katrin Schreiter, 2020-07-13 Designing One Nation is the first comprehensive study to examine the intertwined economic cultures of divided Germany from the 1940s until the 1990s Between Tradition and Modernity Mark A. Russell, 2007-12-01 Aby Warburg 1866 1929 founder of the Warburg Institute was one of the most influential cultural historians of the twentieth century Focusing on the period 1896 1918 this is the first in depth book length study of his response to German political social and cultural modernism It analyses Warburg's response to the effects of these phenomena through a study of his involvement with the creation of some of the most important public artworks in Germany Using a wide array of archival sources including many of his unpublished working papers and much of his correspondence the author demonstrates that Warburg's thinking on contemporary art was the product of two important influences his engagement with Hamburg's civic affairs and his affinity with influential reform movements seeking a greater role for the middle classes in the political social and cultural leadership of the nation Thus a lively picture of Hamburg's cultural life emerges as it responded to artistic modernism animated by private initiative and public discourse and charged with debate
