A Personal Journey Through Psychotherapy Susan M. Fereday,2018-05-01

This book is a personal account of the enduring value of an appropriate psychotherapeutic intervention and is set within the author's lifespan to date. It is also a unique view of how it feels to be the subject of a published case study. Following a long period of resistance to the therapeutic process, a direct channel to the author's unconscious is established via the art of the written word. It is a first person chronological account of the psychological signposts that relentlessly point the author toward an unavoidable therapeutic encounter, one that will ultimately have the strength to contain her frightening experience of mental disturbance. The reader is afforded the opportunity to watch the story unfold and to draw their own academic conclusions. Some of the psychological processes are presented in real time and will help to illustrate the link between experience, theory, and practice in psychotherapy.

Journey of Psychotherapy Jane S. Hall, 2004 Once a journey for self understanding has begun there is inevitably a struggle against real change Inner roadblocks on both sides of the couch impede the journey of psychoanalytic psychotherapy The pressure to repeat the past in the present including the attachments to pain and the difficulty of letting go of abusive relations both internal and external are enemies of growth and change These roadblocks resistances and the forms they take are explored and illustrated in Roadblocks on the Journey of Psychotherapy Book jacket [Haruki Murakami and the Search for Self-Therapy](#) Jonathan Dil, 2022-02-24 Haruki Murakami a global literary phenomenon has said that he started writing fiction as a means of self therapy What he has not discussed as much is what he needed self therapy for This book argues that by understanding more about why Murakami writes and by linking this with the question of how he writes readers can better understand what he writes Murakami's fiction in other words can be read as a search for self therapy In five chapters which explore Murakami's fourteen novels to date this book argues that there are four prominent therapeutic threads woven through Murakami's fiction that can be traced back to his personal traumas most notably Murakami's falling out with his late

father and the death of a former girlfriend and which have also transcended them in significant ways as they have been transformed into literary fiction The first thread looks at the way melancholia must be worked through for mourning to occur and healing to happen the second thread looks at how symbolic acts of sacrifice can help to heal intergenerational trauma the third thread looks at the way people with avoidant attachment styles can begin to open themselves up to love again the fourth thread looks at how individuation can manifest as a response to nihilism Meticulously researched and written with sensitivity the result is a sophisticated exploration of Murakami's published novels as an evolving therapeutic project that will be of great value to all scholars of Japanese literature and culture
