the male elite to address a wider spectrum of Roman society Chapters deal with such topics as masculine attire strategies for
self expression for Roman women within a dress code prescribed by a patriarchal culture and the complex dynamics of dress
in imperial Roman culture both literary and artistic This volume further investigates the literary legal and iconographic

is no longer limited to the economic sphere but is recognized as a fundamental social institution with multiple implications
for Roman society and culture The essays in this collection explore how material culture namely art architecture and
inscriptions can illustrate Roman attitudes towards the institution of slavery and towards slaves themselves in ways that
significantly augment conventional textual accounts Providing the first interdisciplinary approach to the study of Roman
slavery the volume brings together diverse specialists in history art history and archaeology The contributors engage with
questions concerning the slave trade manumission slave education containment and movement and the use of slaves in the
