~The Golden Threads Hannah Josephson, 1967 **Lowell Offering** Benita Eisler, 1998 Gathers letters stories and essays written by the female employees of the textile mills of Lowell Massachusetts Young and Restless Mattie Kahn, 2023-06-13 NPR's Books We Love 2023 Glamour's The 15 Best Nonfiction Books of 2023 So Far Vogue's Best Books of 2023 So Far Town & Country's The Best Books of 2023 A heartening inspiration The New York Times the untold story of the people who have helped spark America's most transformative social movements throughout history teenage girls Nine months before Rosa Parks kicked off the bus boycotts Claudette Colvin was arrested for refusing to give up her seat on a segregated bus in Montgomery Alabama She was fifteen In 1912 women's rights activists organized a massive march in support of women's suffrage Leading them up Fifth Avenue in Manhattan was not one of the mothers of the movement but a teenage Chinese immigrant named Mabel Ping Hua Lee Half a century before the better known movements for workers rights began over 1 500 girls some as young as ten walked out of factories in Lowell Massachusetts demanding safer working conditions and higher wages in one of the nation's first ever labor strikes Young women have been disenfranchised and discounted but the true retelling of major social movements in America reveals their might they have ignited almost every single one Young and Restless recounts one of the most foundational and underappreciated forces in moments of American revolution teenage girls From the American Revolution itself to the Civil Rights Movement to nuclear disarmament protests and the women's liberation movement through Black Lives Matter and school strikes for climate Mattie Kahn uncovers how girls have leveraged their unique strengths from fandom to intimate friendships to organize and lay serious political groundwork for movements that often sidelined them Their stories illuminate how much we owe to girls throughout the generations what skills young women use to mobilize and find their voices and crucially what we can all stand to learn from them **There Is Power in a Union** Philip Dray, 2011-09-20 From the nineteenth century textile mills of Lowell Massachusetts to the triumph of unions in the twentieth century and their waning influence today the contest between labor and capital for the American bounty has shaped our national experience In this stirring new history Philip Dray shows us the vital accomplishments of organized labor and illuminates its central role in our social political economic and cultural evolution His epic character driven narrative not only restores to our collective memory the indelible story of American labor it also demonstrates the importance of the fight for fairness and economic democracy and why that effort remains so urgent today The Factory Girl and the Seamstress Amal Amireh, 2021-12-24 This book studies the representations of working class women in canonical and popular American fiction between 1820 and 1870 These representations have been invisible in nineteenth century American literary and cultural studies due to the general view that antebellum writers did not engage with their society's economic and social realities Against this view and to highlight the cultural importance of working class women this study argues that in responding to industrialization middle class writers such as Melville Hawthorne Fern Davies

and Phelps used the figures of the factory worker and the seamstress to express their anxieties about unstable gender and class identities. These fictional representations were influenced by and contributed to an important but understudied cultural debate about wage labor, working women, and class.

Working Women, Literary Ladies Sylvia J. Cook, 2008-01-30 This book explores the simultaneous entry of working class women in the United States into wage earning factory labor and into opportunities for mental and literary development. It traces the hopes and tensions generated by expectations of their gender and class from the first New England operatives in the early nineteenth century to immigrant sweatshop workers in the early twentieth.

The Economy Neil L. Shumsky, 2020-10-14 Volume 4 THE ECONOMY of the American Cities series This collection brings together more than 200 scholarly articles pertaining to the history and development of urban life in the United States during the past two centuries. The selections in Volume 4 of the series concern the development of the urban economy since the early nineteenth century. Three groups of articles each arranged chronologically deal with three basic sectors of the economy: trade and commerce (especially retailing), manufacturing and industrialization, and finance. Individual articles address subjects as diverse as merchants and shopping malls, flour milling and scientific management, and the Chicago Board of Trade and redlining.

The Entrepreneurs Robert Sobel, 2000 A well researched informative book in which Robert Sobel, the noted financial historian, explores the lives and careers of nine representative innovators in business during the last 200 years, men frequently overlooked by contemporary social and political historians: Francis Cabot Lowell, John Wanamaker, Cyrus McCormick, James Hill, James Duke, Theodore Vail, Marcus Loew, Donald Douglas, and Royal Little. Each one was selected to illustrate a different aspect of American business tradition. All share the ability to grasp opportunity and to oppose conventional wisdom when necessary, both of which contributed to the fabric of modern corporate life. In the aggregate they created new organizational traditions that were imitated throughout the Western world. Book jacket
