Nicholas Carr

The Glass Cage:

The Glass Cage Nicholas Carr, 2016 In The Glass Cage Pulitzer Prize nominee and bestselling author Nicholas Carr shows how the most important decisions of our lives are now being made by machines and the radical effect this is having on our ability to learn and solve problems In May 2009 an Airbus A330 passenger jet equipped with the latest glass cockpit controls plummeted 30 000 feet into the Atlantic The reason for the crash the autopilot had routinely switched itself off In fact automation is everywhere u from the thermostat in our homes and the GPS in our phones to the algorithms of High Frequency Trading and self driving cars We now use it to diagnose patients educate children evaluate criminal evidence and fight wars But psychological studies show that we perform best when fully involved in a task while the principle of automation u that humans are inefficient u is self fulfilling The glass cockpit is becoming a glass cage In this utterly engrossing exposU bestselling writer Nicholas Carr reveals how automation is affecting our ability to solve problems forge memories and acquire skills Rather than rejecting technology Carr argues that we must urgently rethink its role in our lives
