The Glorious Obsession:

The Glorious Obsession Maurice Rheims, 1980-01-01 **The Socialness of Things** Stephen H. Riggins, 2012-10-25 No detailed description available for *The Socialness of Things* *The Museum* Michael S. Shapiro, 1990-07-24 This critical bibliography of museum studies comprises an organized collection of essays on the various types of museums art natural history history science and technology and folk and on general aspects collections education exhibitions etc that cut across the media Most of the essays are cogent substantial if not comprehensive and clear The editor has taken care to see that they follow a similar format of historical essay followed by a full bibliography of items discussed Library Journal As the number of museums in the United States has grown to more than 6500 in this century the museum profession has experienced similar growth In addition to academic training and accreditation programs in the field an expanding body of literature on museum history philosophy and functions has evolved little of which has received the critical attention it deserves This reference volume serves as an up to date guide to this wealth of literature identifying and evaluating works that introduce the general reader the museum studies student and the beginning professional to the history philosophy and functions of museums The volume presents a series of informative historical outlines and critical bibliographic essays on all aspects of museum history philosophy and functions Contributors treat such subjects as art museums natural history museums science and technology museums history museums collections exhibition education and interpretation and the public and museums Each chapter consists of an introductory historical narrative a survey of sources and a bibliographic checklist that contains cited and additional sources A set of appendices include a geographically organized bibliography of museum directories a guide to archives and special collections and a selective list of museum related periodicals The book concludes with a comprehensive general subject index This work will be an important reference tool for museum professionals and cultural historians as well as for courses in museum studies It will also be a valuable addition to both academic and public libraries **The Woman who Lived in a Tree** Don Pinnock, 2009 Arguing that for many people the easy predictability of civilized life is unfulfilling this chronicle presents the remarkable stories of Africans profiled by the author during more than a decade of adventuring With a cast of characters that includes the eponymous tree dwelling woman the man who circled the globe in an ultralight plane powered by a lawn mower engine and the person who decided to plant a million trees this thrilling collection will inspire readers to launch their own adventures **The Eschatology of the Restoration of All Things** Mike Parsons, 2023-05-17 Eschatology is often thought of as describing the end of the world or end times Yet many have begun to conclude that the restoration of all things is an inevitable consequence of who God really is as Love encouraging them to look to the future with optimistic anticipation and expectation Isaiah prophesied no end to the increase of God's government and peace so why are believers still looking for an end Mike Parsons examines the reasons for this confusion exposing the Great Deception that lies behind it and proposing instead a happy eschatology in which all of God's children can recognise and fulfil their eternal

destiny Antiques Leon Rosenstein,2009 Leon Rosenstein offers a sweeping and lively account of the origin and development of the antique as both a cultural concept and an aesthetic category **The Rise and Fall of American Art, 1940s-1980s** Catherine Dossin,2016-03-03 In The Rise and Fall of American Art 1940s 1980s Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne and Turin emerged as major commercial and artistic hubs a development that enabled European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period *A Guide to Your Aspie* Amanda J Harrington,2019-10-10 This funny and insightful book covers the most fundamental and awkward elements of Aspergers from both the aspie and non aspie side of life The effects of childhood experiences dealings with other people how non aspies can help how to cope with stress and responsibility all of these and much more are covered The sections cluster around general themes so either settle down with the whole book or dip in and out And at the very end are some fun chapters including A Guide to your Aspie and Aspie Apocalypse This book is part of a series along with How to Talk to Your Aspie and Aspies Hate Christmas This is the large print edition of the book **Collecting in a Consumer Society** Russell W. Belk,2013-01-11 This groundbreaking book examines the relationship between the development of the consumer society and the rise of collecting by individuals and institutions Rusell Belk considers how and why people collect as individuals corporations and museums and the impact this collecting has on us and our culture Collecting in a Consumer Society outlines the history of museum collecting from ancient civilizations to the present It also looks at aspects of consumer culture advertizing department stores mass merchandizing consumer desires and how this relates to the activity of collecting Collecting in a Consumer Society is the first book to focus on collecting as material consumption This is a provocative and engaging book essential reading for anyone involved with the process of collecting *Interpreting Objects and Collections* Susan Pearce,2012-10-12 This volume brings together for the first time the most significant papers on the interpretation of objects and collections and examines how people relate to material culture and why they collect things The first section of the book discusses the interpretation of objects setting the philosophical and historical context of object interpretation Papers are included which discuss objects variously as historical documents functioning material and as semiotic texts as well as those which examine the politics of

objects and the methodology of object study The second section on the interpretation of collections looks at the study of collections in their historical and conceptual context Many topics are covered such as the study of collecting to structure individual identity its affect on time and space and the construction of gender There are also papers discussing collection and ideology collection and social action and the methodology of collection study This unique anthology of articles and extracts will be of inestimable value to all students and professionals involved in the interpretation of objects and collections
