Sinners In Summertime:

Sinners in Summertime Sigurd Hoel, 2002 Back in print after 70 years this edition features an afterword by Sverre Lyngstad The Literary Beach Carsten Meiner, Katrine Helene Andersen, 2024-05-08 As a geo historical place the beach integrates a variety of characteristics and functions so multiple that they tend to contradict each other The beach is both a place of work and trade but also of leisure it is both a place of therapy and health but also of migration war and death it is a place of mass tourism and boredom but also the place of experiencing the Other it is a public place but also an uncivilized and desolate place This book studies the literary representation of the beach from ancient Greek literature up until today drawing on English French Italian American and Spanish literatures from various periods and genres and presenting multiple ways of comparing and understanding literary beaches as a ubiquitous literary phenomenon It demonstrates how the literary beach as a both geo historical place and as an aesthetic literary commonplace has been a constant and privileged resource for the analysis of more general existential sociological and moral problems This is the case when for instance the Tahitian beach becomes the place of the already modern in Stevenson s tales or when the Italian beach becomes a question of modern feminism in Ferrante In this sense literature expands the local or national beach by articulating its transnational complexities
