Cyber Situational Awareness Sushil Jajodia, Peng Liu, Vipin Swarup, Cliff Wang, 2009-10-03 Motivation for the Book This book seeks to establish the state of the art in the cyber situational awareness area and to set the course for future research A multidisciplinary group of leading researchers from cyber security cognitive science and decision science areas elaborate on the fundamental challenges facing the research community and identify promising solution paths Today when a security incident occurs the top three questions security administrators would ask are in essence What has happened Why did it happen What should I do Answers to the first two questions form the core of Cyber Situational Awareness Whether the last question can be satisfactorily answered is greatly dependent upon the cyber situational awareness capability of an enterprise A variety of computer and network security research topics especially some systems security topics belong to or touch the scope of Cyber Situational Awareness However the Cyber Situational Awareness capability of an enterprise is still very limited for several reasons Inaccurate and incomplete vulnerability analysis intrusion detection and forensics Lack of capability to monitor certain microscopic system attack behavior Limited capability to transform fuse distill information into cyber intelligence Limited capability to handle uncertainty Existing system designs are not very friendly to Cyber Situational Awareness

Smart Cities: Cyber Situational Awareness to Support Decision Making Nataliia Neshenko, Elias Bou-Harb, Borko Furht, 2022-11-07 This book overviews the drivers behind the smart city vision describes its dimensions and introduces the reference architecture It further enumerates and classifies threats targeting the smart city concept links corresponding attacks and traces the impact of these threats on operations society and the environment This book also introduces analytics driven situational awareness provides an overview of the respective solutions and highlights the prevalent limitations of these methods The research agenda derived from the study emphasizes the demand and challenges for developing holistic approaches to transition these methods to practice equipping the user with extensive knowledge regarding the detected attack instead of a sole indicator of ongoing malicious events It introduces a cyber situational awareness framework that can be integrated into smart city operations to provide timely evidence based insights regarding cyber incidents and respective system responses to assist decision making This book targets researchers working in cybersecurity as well as advanced level computer science students focused on this field Cybersecurity operators will also find this book useful as a reference guide

Cyber Defense and Situational Awareness Alexander Kott, Cliff Wang, Robert F. Erbacher, 2015-01-05 This book is the first publication to give a comprehensive

structured treatment to the important topic of situational awareness in cyber defense. It presents the subject in a logical consistent continuous discourse covering key topics such as formation of cyber situational awareness visualization and human factors automated learning and inference use of ontologies and metrics predicting and assessing impact of cyber attacks and achieving resilience of cyber and physical mission. Chapters include case studies recent research results and practical insights described specifically for this book. Situational awareness is exceptionally prominent in the field of cyber defense. It involves science technology and practice of perception comprehension and projection of events and entities in cyber space. Chapters discuss the difficulties of achieving cyber situational awareness along with approaches to overcoming the difficulties in the relatively young field of cyber defense where key phenomena are so unlike the more conventional physical world. Cyber Defense and Situational Awareness is designed as a reference for practitioners of cyber security and developers of technology solutions for cyber defenders. Advanced level students and researchers focused on security of computer networks will also find this book a valuable resource.

Safety at the Sharp End Dr Margaret Crichton, Dr Paul O'Connor, Professor Rhona Flin, 2013-08-28. *Safety at the Sharp End* is a general guide to the theory and practice of non technical skills for safety. It covers the identification training and evaluation of non technical skills and has been written for use by individuals who are studying or training these skills on CRM and other safety or human factors courses.
