Six Strategies For War The Practice Of Effective Leadership:

Six Strategies for War Hsuan-ming Wang, Xuanming Wang, 1993 SIX STRATEGIES FOR WAR was highly regarded by rulers of ancient China. The six strategies Civil Military Dragon Tiger Leopard Hound each deal with a different subject corresponding plan for success. **The Expert Negotiator, 4th Revised Edition** Raymond Saner, 2012-05-31 In this book the social scientist and economist Professor Dr Raymond Saner draws on his long years of experience as a negotiation adviser teacher trainer researcher and university lecturer to show that two thirds of negotiation practice is learnable. The author treats the different aspects of negotiation practice in a way that is useful to both academics and practitioners such that the general laws and principles gradually become evident as and of themselves. **The Expert Negotiator, 4th Edition** Raymond Saner, 2012-05-31 Success in negotiation is not a matter of chance but the result of careful planning and specialized skills. Some of these skills are inborn others need to be learnt. In this book the social scientist and economist Professor Dr Raymond Saner draws on his long years of experience as a negotiation adviser teacher trainer researcher and university lecturer to show that two thirds of negotiation practice is learnable. Yet very few people are specifically trained in this everyday task. Without sacrificing scientific accuracy Professor Saner offers a highly readable and fascinating guide to the subject. In so doing he does not limit himself to the over simplified tips generally put out on successful bargaining in every imaginable situation. Rather he treats the different aspects of negotiation practice in a way that is useful to both academics and practitioners such that the general laws and principles gradually become evident as and of themselves. The aim of this approach is to reveal the essence of negotiation through the experience of both the author and the reader. Such an understanding of the processes involved in negotiation is of far greater practical value than a mere collection of recipes with no discussion of the underlying theory while the most comprehensive treatment of the theory without reference to its application in practice would be only half the story. Thus the text is supplemented by a series of illustrative examples and case studies from the business political NGO and international organization arenas plus some seventy figures and tables. With all this the author has paid considerable attention to writing a text that is both entertaining to read and rigorous in content.
