literacy skills that experts agree are necessary for a young child to be ready to learn to read Special sections within each chapter are dedicated to the specific needs of preschool teachers parents and librarians making the content relevant to different settings Recommended book lists personal anecdotes and literacy rich activities combine to create an effective and accessible plan for implementing an early literacy program

**Margaret Wise Brown's Experimental Art** Julia Pond,2024-09-25 In this study the engaging art created by children s author Margaret Wise Brown receives the critical attention it deserves as a lasting contribution to American children s literature Through analysis of her dozens of titles published during the height of western Modernism this scholarly text shares Brown s importance and impact from the perspective of Brown s work rather than biographically Moving beyond such popular titles as Goodnight Moon and The Runaway Bunny into deeper cuts reveals how Brown s oeuvre bridges multiple disciplines including writing visual art philosophy and music Her projects successfully experiment with artistic collaboration and synesthesia as a natural expression for a child readership while both contributing to and reflecting high Modernism amidst the two World Wars The quality of Brown s writing and the maturity of her themes reveal respect for her child audience and recommend her work to the generations of readers who followed her early death As this book demonstrates Margaret Wise Brown remains one of the truly great authors of children s literature

**Intellectual Development** Dave Riley,2008-06-09 To the untrained eye many of the common activities in early childhood settings may not seem educational In reality research shows that these activities are actually learning tools that promote children s intellectual development Why do we sort blocks and sing nursery rhymes with children and what do they learn from these activities Intellectual Development answers these questions and investigates the link between the best practices in early childhood education and the science of child development This book will help teachers answer the question Why do we do what we do Chapters cover language and literacy development early number learning and musical and artistic development The book also contains information on early learning standards practice tips and recommended readings
