RJ Shavelson

The Gentleman From Georgia The Biography Of Newt Gingrich:

The Gentleman from Georgia Mel Steely, 2000 Along the way the story of Gingrich's personal and political problems and triumphs is revealed from his controversial first divorce and scandalous ethics problems and his early campaign losses We also see his rise to national prominence and influence the development of Newt Inc and his involvement in the necessary revolution Finally by detailing Gingrich's life experiences from childhood to adulthood the nature and development of his conservatism is examined BOOK JACKET Burning Down the House Julian E. Zelizer, 2021-07-06 A New York Times Notable Book A New York Times Book Review Editors Choice The story of how Newt Gingrich and his allies tainted American politics launching an enduring era of brutal partisan warfare When Donald Trump was elected president in 2016 President Obama observed that Trump is not an outlier he is a culmination a logical conclusion of the rhetoric and tactics of the Republican Party In Burning Down the House historian Julian Zelizer pinpoints the moment when our country was set on a path toward an era of bitterly partisan and ruthless politics an era that was ignited by Newt Gingrich and his allies In 1989 Gingrich brought down Democratic Speaker of the House Jim Wright and catapulted himself into the national spotlight Perhaps more than any other politician Gingrich introduced the rhetoric and tactics that have shaped Congress and the Republican Party for the last three decades Elected to Congress in 1978 Gingrich quickly became one of the most powerful figures in America not through innovative ideas or charisma but through a calculated campaign of attacks against political opponents casting himself as a savior in a fight of good versus evil Taking office in the post Watergate era he weaponized the good government reforms newly introduced to fight corruption wielding the rules in ways that shocked the legislators who had created them His crusade against Democrats culminated in the plot to destroy the political career of Speaker Wright While some of Gingrich's fellow Republicans were disturbed by the viciousness of his attacks party leaders enjoyed his successes so much that they did little collectively to stand in his way Democrats for their part were alarmed but did not want to sink to his level and took no effective actions to stop him It didn't seem to matter that Gingrich's moral conservatism was hypocritical or that his methods were brazen his accusations of corruption permanently tarnished his opponents This brand of warfare worked not as a strategy for governance but as a path to power and what Gingrich planted his fellow Republicans reaped He led them to their first majority in Congress in decades and his legacy extends far beyond his tenure in office From the Contract with America to the rise of the Tea Party and the Trump presidential campaign his fingerprints can be seen throughout some of the most divisive episodes in contemporary American politics Burning Down the House presents the alarming narrative of how Gingrich and his allies created a new normal in Washington The Pact Steven M. Gillon, 2008-06-03 The resident historian of the History Channel reveals that President Bill Clinton and Speaker Newt Gingrich formed a secret alliance in 1997 a pact that would have rocked the political landscape had it not foundered in the wake of the Lewinsky scandal The Power to Destroy Michael J. Graetz, 2025-09-23 How the antitax fringe went

mainstream and now threatens America's future. The postwar United States enjoyed large widely distributed economic rewards and most Americans accepted that taxes were a reasonable price to pay for living in a society of shared prosperity. Then in 1978 California enacted Proposition 13, a property tax cap that Ronald Reagan hailed as a second American Revolution, setting off an antitax antigovernment wave that has transformed American politics and economic policy. In *The Power to Destroy*, Michael Graetz tells the story of the antitax movement and how it holds America hostage, undermining the nation's ability to meet basic needs and fix critical problems. In 1819 Chief Justice John Marshall declared that the power to tax entails the power to destroy. But *The Power to Destroy* argues that tax opponents now wield this destructive power. Attacking the IRS, protecting tax loopholes, and pushing tax cuts from Reagan to Donald Trump, the antitax movement is threatening the nation's social safety net, increasing inequality, ballooning the national debt, and sapping America's financial strength. The book chronicles how the movement originated as a fringe enterprise promoted by zealous outsiders using false economic claims and thinly veiled racist rhetoric, and how abetted by conservative media and Grover Norquist's taxpayer protection pledge, it evolved into a mainstream political force. The important story of how the antitax movement came to dominate and distort politics and how it impedes rational budgeting, equality, and opportunities. *The Power to Destroy* is essential reading for understanding American life today.

The Meanest Man in Congress Timothy McNulty, Brendan McNulty, 2019-05-10. A native of Beaumont, Texas, and a World War II veteran, Jack Brooks represented Texas's Ninth District for forty-two years in the U.S. Congress. One of the most influential congressmen you've never heard of, the irascible Brooks is finally getting his due in this first full biography. *The Meanest Man in Congress* chronicles in fascinating detail not only a remarkable lawmaker's career spanning the tenures of ten U.S. presidents but also the epic sweep of American history in the latter half of the twentieth century, from the Kennedy assassination to the Iran-Contra affair. Packed with anecdotes based on Brooks's personal correspondence, interviews with his peers and family members, and more, this meticulously researched biography traces the incredible life and times of a true public servant, a man who applied his tenacious will to practical across-the-aisle governance for the good of his constituents and his country. At a time when Brooks's brand of selfless service is in short supply and American politics has become a zero-sum game, distinguished authors Timothy McNulty and Brendan McNulty bring into high relief the character of a man who knew how to compromise and bargain, negotiate, and cooperate to get things done.

Robert H. Michel Frank H. Mackaman, Sean Q. Kelly, 2023-08-18. As incredible as it might seem, there was a time when Congress worked, a time when partisan competition produced consensus and good public policy. At the center of it all for four decades was Robert H. Michel, the longest-serving Republican leader in the history of the U.S. House of Representatives. In this book, top congressional scholars, historians, and political scientists provide a compelling picture of Bob Michel and the congressional politics of his day. Marshaling a wealth of biographical, historical, and political detail, they describe Michel's House of Representatives and how the institution became what it is now. During the thirty-eight years that

Michel represented Illinois's 18th congressional district January 3 1957 January 3 1995 the last fourteen as Republican leader in the House his party was in the minority Drawing on archival material that captures politics in the making the authors of this volume show how Michel made the most of that minority status They write about his legislative efforts as with President Ronald Reagan's tax cuts and President George H W Bush's North American Free Trade Agreement negotiations The resulting friction between Michel's leadership on the national stage and his responsibilities to constituents back home almost cost him reelection in 1982 forcing a change in his home style Their essays also cover Michel's strategies for House minority leadership his party's proposals to reform the House and his retirement one election before Republicans became the House majority party the result of a generational and ideological shift to a more combative style of politics practiced by Michel's successor Newt Gingrich An innovative approach to biography with its examination of Bob Michel's career from a variety of angles this volume offers both an unusually nuanced portrait of one important politician and a uniquely informed perspective on politics in the latter half of the twentieth century *Chosen for Greatness* Paul Batura, 2016-11-01 A book to challenge the status quo spark a debate and get people talking about the issues and questions we face as a country **Rule and Ruin** Geoffrey Kabaservice, 2012-01-02 The chaotic events leading up to Mitt Romney's defeat in the 2012 election indicated how far the Republican Party had rocketed rightward away from the center of public opinion Republicans in Congress threatened to shut down the government and force a U S debt default Tea Party activists mounted primary challenges against Republican officeholders who appeared to exhibit too much pragmatism or independence Moderation and compromise were dirty words in the Republican presidential debates The GOP it seemed had suddenly become a party of ideological purity Except this development is not new at all In *Rule and Ruin* Geoffrey Kabaservice reveals that the moderate Republicans downfall began not with the rise of the Tea Party but about the time of President Dwight Eisenhower's farewell address Even in the 1960s when left wing radicalism and right wing backlash commanded headlines Republican moderates and progressives formed a powerful movement supporting pro civil rights politicians like Nelson Rockefeller and William Scranton battling big government liberals and conservative extremists alike But the Republican civil war ended with the overthrow of the moderate ideas heroes and causes that had comprised the core of the GOP since its formation In hindsight it is today's conservatives who are Republicans in Name Only Writing with passionate sympathy for a bygone tradition of moderation Kabaservice recaptures a time when fiscal restraint was matched with social engagement when a cohort of leading Republicans opposed the Vietnam war when George Romney father of Mitt Romney conducted a nationwide tour of American poverty from Appalachia to Watts calling on society to listen to the voices from the ghetto *Rule and Ruin* is an epic deeply researched history that reorients our understanding of our political past and present Today following the Republicans loss of the popular vote in five of the last six presidential contests moderates remain marginalized in the GOP and progressives are all but nonexistent In this insightful and elegantly argued book Kabaservice contends that their decline has

left Republicans less capable of governing responsibly with dire consequences for all Americans He has added a new afterword that considers the fallout from the 2012 elections

The New Encyclopedia of Southern Culture James W. Ely Jr., Bradley G. Bond, Charles Reagan Wilson, 2014-02-01 Volume 10 of The New Encyclopedia of Southern Culture combines two of the sections from the original edition adding extensive updates and 53 entirely new articles In the law section of this volume 16 longer essays address broad concepts ranging from law schools to family law from labor relations to school prayer The 43 topical entries focus on specific legal cases and individuals including historical legal professionals parties from landmark cases and even the fictional character Atticus Finch highlighting the roles these individuals have played in shaping the identity of the region The politics section includes 34 essays on matters such as Reconstruction social class and politics and immigration policy New essays reflect the changing nature of southern politics away from the one party system long known as the solid South to the lively two party politics now in play in the region Seventy shorter topical entries cover individual politicians political thinkers and activists who have made significant contributions to the shaping of southern politics

The Republican Party and American Politics from Hoover to Reagan Robert Mason, 2011-11-21 During a long period of the twentieth century stretching from the Great Depression until the Reagan years defeat generally characterized the electoral record of the Republican party Although Republicans sometimes secured victory in presidential contests a majority of Americans identified with the Democratic party not the GOP This book investigates how Republicans tackled the problem of their party's minority status and why their efforts to boost GOP fortunes usually ended in failure At the heart of the Republicans minority puzzle was the profound and persistent popularity of New Deal liberalism This puzzle was stubbornly resistant to solution Efforts to develop a Republican version of government activism met little success Only the Democratic party's decline eventually created opportunities for Republican resurgence This book is the first to offer a wide ranging analysis of the topic which is of central importance to any understanding of modern US political history
