The Gift Of Madness :

The Gift of Madness Julian Grege, 2000-05-20 The end product of a life of turmoil and struggle this collection reflects the struggle between good and evil The author firmly believes that in order to conquer evil it is important to know evil intimately In this way evil is recognizable and avoidable Julian has a unique and fascinating view on life in general This collection will really make you sit down and think Incredible perspectives

The Gift of Truth Stephen David Ross, 1997-04-24 Reexamines the good tracing the history of the idea of truth as an ethical movement and interpreting the good as nature's abundance giving beauty and truth as gifts

Injustice and Restitution Stephen David Ross, 1993-09-28 This book addresses the nature and injustice of authority retracing the ideas of reason and law from ancient Greece to the present pursuing a line of thought begun with Anaximander who speaks of the ordinance of time as restitution for immemorial injustice and Heraclitus who speaks of justice as strife Predominantly philosophical exploring the authority of Western philosophy in twentieth century continental and pragmatist writings the book explores alternative voices as challenges to authority in feminist and multicultural writings in Greek mythology and African narratives in Greek drama and twentieth century literature

Rethinking God as Gift Robyn Horner, 2009-08-25 Rethinking God as Gift is situated at the intersection of philosophy critical theory and theology The first sustained study of the work of Jean Luc Marion in English it offers a unique perspective on contemporary questions and their theological relevance Taking its point of departure from the problem of the gift as articulated by Jacques Derrida who argues that the conditions of possibility of the gift are also its conditions of impossibility Horner pursues a series of questions concerning the nature of thought the viability of phenomenology and most urgently the possibility of grace For Marion phenomenology as the thought of the given offers a path for philosophy to proceed without being implicated in metaphysics His retrieval of several important insights of Edmund Husserl along with his reading of Martin Heidegger and Emmanuel Levinas enables him to work out a phenomenology where even impossible phenomena such as revelation and the gift might be examined In this important confrontation between Marion and Derrida issues vital to the negotiation of postmodern concerns in philosophy and theology emerge with vigour The careful elucidation of those issues in an interdisciplinary context and the snapshot it provides of the state of contemporary debate make Rethinking God as Gift an important contribution to theological and philosophical discussion

Alexandre Kojève Boris Groys, 2025-11-11 In this intellectual biography critic and philosopher Boris Groys turns to the Arthur Rimbaud of modern bureaucracy Alexandre Kojève a philosopher of little known writings and profound influence Kojève was fascinated with Hegel's dialectics and with communism and envisioned a universal empire as the end of history Kojève drew on Buddhism and also proclaimed himself a Stalinist At the same time he was one of the creators of a nascent European Union His concept of the human as something defined by negation and unique among animals in being separated from nature is highly political It explains why humans can never be fully satisfied by a political system based on their allegedly natural

rights Groys reveals a Kojve with a unique perspective on our political capacities and human condition **The Gift of Beauty** Stephen David Ross,1996-01-01 Traces the history of the idea of art as an ethical movement interpreting the good as nature s abundance giving rise to an ethics of inclusion expressed in art **The Gifting God** Stephen H. Webb,1996-04-18 Theories of generosity or gift giving are becoming increasingly important in recent work in philosophy and religion Stephen Webb seeks to build on this renewed interest by surveying a distinctively modern and postmodern approach to the issue of generosity and then developing a theological framework for it He contends that in many ways society has become suspicious of charity and generosity This cynicism has led to quick and easy judgments that in turn have led to a new orthodoxy with its own troubling consequences Webb believes that we need to recover the generosity that our culture obscures behind this monologue on self interest and that theology as a form of critical thought can play a helpful role Throughout the book Webb argues for a theory of giving that is other oriented without being self negating He maintains that the generosity of God s grace properly understood can reorient our own idea of the gift and must be correlated to our own practices of exchange and reciprocity **In the Name of Madness** Pasquale De Marco,2025-05-05 In the Name of Madness is a groundbreaking book that explores the many faces of madness This book is not a comprehensive guide to madness but rather a starting point for a conversation about this complex and fascinating condition In this book we will explore the causes of madness its symptoms and its treatment We will also discuss the impact of madness on individuals families and society We will also explore the positive side of madness We will look at the role of madness in art religion philosophy and science We will also discuss the ways in which madness can help us to understand ourselves and the world around us This book is written in a clear and accessible style and it is packed with real world examples and case studies It is a must read for anyone who is interested in learning more about madness Pasquale De Marco is a leading expert on madness He has written extensively on the subject and he has appeared on numerous television and radio programs to discuss his work He is also the founder of the National Institute of Mental Health a non profit organization dedicated to providing support and resources to people with madness In the Name of Madness is a groundbreaking book that will change the way we think about madness This book is a must read for anyone who is interested in learning more about this complex and fascinating condition If you like this book write a review on google books **On Bataille** Leslie Anne Boldt-Irons,1995-01-01 Essays on the French writer and critic Georges Bataille that examine his thought in relation to Hegel Nietzsche and Derrida **Given Time** Jacques Derrida,1992-11-15 Is giving possible Is it possible to give without immediately entering into a circle of exchange that turns the gift into a debt to be returned This question leads Jacques Derrida to make out an irresolvable paradox at what seems the most fundamental level of the gift s meaning for the gift to be received as a gift it must not appear as such since its mere appearance as gift puts it in the cycle of repayment and debt Derrida reads the relation of time to gift through a number of texts Heidegger s Time and Being Mauss s The Gift as well as essays by Benveniste and Levi Strauss that assume Mauss s legacy It is however

a short tale by Baudelaire Counterfeit Money that guides Derrida's analyses throughout At stake in his reading of the tale to which the second half of this book is devoted are the conditions of gift and forgiveness as essentially bound up with the movement of dissemination a concept that Derrida has been working out for many years For both readers of Baudelaire and students of literary theory this work will prove indispensable
