Being in Balance Dr. Wayne W. Dyer, 2016-07-12 An extraordinary 9 step program that will give you the keys to perfect balance in every aspect of your life In this inspirational work beloved best selling author Dr Wayne W Dyer shows you how to restore balance in your life by offering nine principles for realigning your thoughts so that they correspond to your highest desires Imagine a balance scale with one end weighted down to the ground and the other end featuring the objects of your desires sticking up precariously in the air This scale is a measurement of your thoughts To restore the same balance that characterizes everything in our universe you have to take up the weighty thoughts so that they match up to your desires The seasons reflect the overall harmony of life For example winter passes and the blossoms emerge This is balanced by a need to have the trees rest so autumn arrives on time and helps the trees ready themselves for another period of repose This book is dedicated to the idea that we re a vital component of this creative process and have within ourselves the wherewithal to create all that we want if we recognize and revise out of balance thoughts

Living an Inspired Life Dr. Wayne W.

Dyer,2016-03-01 What I m offering in this book is the awareness that we can return to a full time position of inspiration which is the true meaning of our life Dr Wayne W Dyer There s a voice in the Universe entreating us to remember our purpose our reason for being here now in this world of impermanence The voice whispers shouts and sings to us that this experience of being in form in space and time has meaning That voice belongs to inspiration which is within each and every one of us The feelings of emptiness the idea that there must be something more wondering Is this all there is and trying to determine the meaning of life this is all evidence of a yearning to reconnect with our soul space We re aching for our calling to be felt and expressed In *Living an Inspired Life* previously published under the title *Inspiration* Dr Wayne W Dyer explains how we ve chosen to enter this world of particles and form From our place of origin in ways that we don t readily comprehend now we knew what we were coming here to accomplish and we participated in setting this life process in motion So why not think along these same lines Why put the responsibility or blame on any one or any thing that s not a part of us On Earth we have the capacity of volition we can choose so let s assume that we had the same capacity when we resided in the spiritual realm We chose our physical body and we chose the parents we needed for the trip It doesn t seem too great a stretch to move into the idea that we chose this life in concert with our Source Inspiration can be cultivated and be a driving force throughout life rather than showing up every now and then and just as mysteriously disappearing seemingly independent of our desires Inspiration is for everyone It isn t reserved for high profile creative geniuses in the arts and sciences it s inherent in our Divine birthright The problem is that as children we re gradually taught to believe exclusively in the world of phenomena where ego is dominant and inspiration diminished As you read each chapter in this book you ll find specific suggestions for living in Spirit From a very personal viewpoint Wayne offers a blueprint through the world of inspiration your ultimate calling
