

The Goetheanum Rudolf Steiners Architectural Impulse

**Hagen Biesantz, Arne Klingborg, Åke
Fant**

The Goetheanum Rudolf Steiners Architectural Impulse:

The Goetheanum Hagen Biesantz, Arne Klingborg, Åke Fant, 1979 The Goetheanum, 1982 The Goetheanum, Rudolf Steiner's Architectural Impulse, 1982 **Rudolf Steiner's Sculptural Group** Sergei O. Prokofieff, 2013 Saved by good fortune from the flames that engulfed the first Goetheanum Rudolf Steiners wooden sculpture of the Christ the Representative of Humanity standing between the adversary forces of Lucifer and Ahriman remains intact although unfinished and on display to this day Unique in the history of art the Sculptural Group was deeply connected to Rudolf Steiners inner being The great Christian initiate even died by its side having made efforts to work on the sculpture days before he crossed the threshold *Rudolf Steiner* Gary Lachman, 2007-02-01 The first truly popular biography of the influential twentieth century mystic and educator who while widely known for founding the Waldorf schools and other educational and humanitarian movements remains a mystery to many who benefit from his ideas People everywhere have heard of Waldorf schools Biodynamic farming Camphill Villages and other innovations of the Austrian philosopher Rudolf Steiner 1861 1925 Indeed Steiner as an architect artist teacher and agriculturalist ranks among the most creative and prolific figures of the early twentieth century pioneering work in alternative education holistic health and environmental research While his accomplishments are felt all over the world few people understand this unusual figure Steiner s own writings and lectures fill several bookcases intimidating those who would like to know more Works on Steiner are often dense and insider in tone further deterring the curious No popular biography written by a sympathetic but critical outsider has been available Gary Lachman s *Rudolf Steiner* provides this missing introduction Along with telling Steiner s story and placing Steiner in his historical context Lachman s book presents Steiner s key ideas in a readable accessible manner In particular Lachman considers the spread of Steiner s most popular projects which include Waldorf schools one of the leading forms of alternative education and Biodynamic farming a popular precursor to organic farming He also traces Steiner s beginnings as a young intellectual in the ferment of fin de siècle culture to his rise as a thought leader within the influential occult movement of Theosophy to the founding of his own metaphysical teaching called Anthroposophy Finally the book illustrates how Steiner s methods are put into practice today and relates Steiner s insights into cosmology to the work of current thinkers *Rudolf Steiner* is a full bodied portrait of one of the most original philosophical and spiritual luminaries of the last two centuries and gives those interested in the history of ideas the opportunity to discover one of the most underappreciated figures of the twentieth century *The Color of Modernism* Deborah Ascher Barnstone, 2021-12-30 One of the most enduring and pervasive myths about modernist architecture is that it was white pure white walls both inside and out Yet nothing could be further from the truth *The Color of Modernism* explodes this myth of whiteness by offering a riot of color in modern architectural treatises polemics and buildings Focusing on Germany in the early 20th century one of modernism s most foundational and influential periods it examines the different scientific and artistic color theories which

were advanced by members of the German avant garde from Bruno Taut to Walter Gropius to Hans Scharoun German color theory went on to have a profound influence on the modern movement and Germany serves as the key case study for an international phenomenon which encompassed modern architects worldwide from le Corbusier and Alvar Aalto to Berthold Lubetkin and Lina Bo Bardi Supported by accessible introductions to the development of color theory in philosophy science and the arts the book uses the German case to explore the new ways in which color was used in architecture and urban design turning attention to an important yet overlooked aspect of the period Much more than a mere correction to the historical record the book leads the reader on an adventure into the color filled worlds of psychology the paranormal theories of sensory perception and pleasure showing how each in turn influenced the modern movement The Color of Modernism will fundamentally change the way the early modernist period is seen and discussed

Handbook of New Religions and

Cultural Production Carole Cusack,Alex Norman,2012-03-28 This volume fills a lacuna in the academic assessment of new religions by investigating their cultural products such as music architecture food et cetera Contributions explore the manifold ways in which new religions have contributed to humanity s creative output

The Routledge Companion to Biology in Art and Architecture Charissa Terranova,Meredith Tromble,2016-08-12 The Routledge Companion to Biology in Art and Architecture collects thirty essays from a transdisciplinary array of experts on biology in art and architecture The book presents a diversity of hybrid art and science thinking revealing how science and culture are interwoven The book situates bioart and bioarchitecture within an expanded field of biology in art architecture and design It proposes an emergent field of biocreativity and outlines its historical and theoretical foundations from the perspective of artists architects designers scientists historians and theoreticians Includes over 150 black and white images

A Short History of Western

Performance Space David Wiles,2003-10-02 This innovative book provides a historical account of performance space within the theatrical traditions of western Europe David Wiles takes a broad based view of theatrical activity as something that occurs in churches streets pubs and galleries as much as in buildings explicitly designed to be theatres He traces a diverse set of continuities from Greece and Rome to the present including many areas that do not figure in standard accounts of theatre history

The Archangel Michael Rudolf Steiner,1994-07 The Michael age has dawned Hearts begin to have thoughts Enthusiasm no longer flows from mystical obscurity but from the inner clarity that thought conveys To grasp this is to receive Michael into one s soul Thoughts that today seek to grasp the spirit must spring from hearts that beat for Michael as the fiery cosmic prince of thought Rudolf Steiner For centuries the tradition of the mystical chronology of the world s seven archangelic regents has been part of Western esoteric teaching According to this tradition 1879 marked the return of the solar spirit Michael the archangel of the Sun to oversee earthly evolution Steiner always placed his life and work in the service of Michael s evolutionary task And he recognized that at the beginning of the twentieth century humanity emerged from the Kali Yuga the Dark Age and entered the Age of Light Against this background Steiner described the ascent of

Michael as cosmic ruler his battle with the dragon of the spirits of darkness and his roles as the countenance of Christ and the guardian of cosmic intelligence He also gave many profound indications of how Michael s evolutionary task depends on the free and independent collaboration of human coworkers Speaking on behalf of Michael Steiner laid out the essentials for a new Michaelic path to full humanity Among the elements of this path are the development of selfless individuality cosmopolitanism the practice of the presence of Christ fearlessness the transformation of thinking and perception in a new synthesis of science art and religion the spiritualization of space and the separation of thought from language The Archangel Michael gathers most of Steiner s statements on this subject making it an important source for coming to terms with today s political social psychological and spiritual crises

Delve into the emotional tapestry woven by in **The Goetheanum Rudolf Steiners Architectural Impulse** .
