The Golden Turkey Awards:

The Golden Turkey Awards Harry Medved, Michael Medved, 1980 **The Golden Turkey Awards** Harry Medved, 1975 *Son of Golden Turkey Awards* Harry Medved, Michael Medved, 1986 More than two hundred black and white photographs illustrate this new roster of Hollywood's worst in categories including the most embarrassing nude scene in Hollywood history the worst performance by Ronald Reagan and the worst biker movie of all time **The Golden Age of Science Fiction** John Wade, 2020-11-12 A detailed look at the British world of science fiction in the 1950s John Wade grew up in the 1950s a decade that has since been dubbed the golden age of science fiction It was a wonderful decade for the genre but not so great for young fans With early television broadcasts being advertised for the first time as unsuitable for children and the inescapable barrier of the X certificate in the cinema barring anyone under the age of sixteen the author had only the radio to fall back on and that turned out to be more fertile for the budding SF fan than might otherwise have been thought Which is probably why as he grew older rediscovering those old TV broadcasts and films that had been out of bounds when he was a kid took on a lure that soon became an obsession For him the super accuracy and amazing technical quality of today's science fiction films pale into insignificance beside the radio early TV and B picture films about people who built rockets in their back gardens and flew them to lost planets or tales of aliens who wanted to take over if not our entire world then at least our bodies This book is a personal account of John Wade's fascination with the genre across all the entertainment media in which it appeared the sort of stuff he reveled in as a young boy and still enjoys today Not only a well researched book grounded in hundreds of sources but also an unmistakable labor of love New York Journal of Books **The Worst We Can Find** Dale Sherman, 2023-06-15 Had you tuned in to the small television station KTMA on Thanksgiving Day 1988 you would have been one of the few witnesses to pop culture history being made On that day viewers in and around St Paul Minnesota were treated to a genuine oddity in which a man and his robots trapped within a defiantly DIY sci fi set cracked jokes while watching a terrible movie It was a cockeyed twist on the local TV programs of the past in which a host would introduce old cheaply licensed films And though its origins may have been inauspicious Mystery Science Theater 3000 captured the spirit of what had been a beloved pastime for generations of wags wiseacres and smartalecks and would soon go on to inspire countless more The Worst We Can Find is a comprehensive history of and guide to MST3K and its various offshoots including Rifftrax Cinematic Titanic and The Mads Are Back whose lean crew of writers performers and puppeteers have now been making fun of movies for over thirty years It investigates how riffing of films evolved recounts the history of these programs and considers how a practice guaranteed to annoy real life fellow moviegoers grew into such a beloved long lasting franchise As author Dale Sherman explains creative heckling has been around forever but MST3K and its progeny managed to redirect that art into a style that was both affectionate and cutting winning the devotion of countless fans and aspiring riffers **Ed Wood, Mad Genius** Rob Craig, 2009-09-12 Filmmaker Ed Wood was controversial and critically

maligned even labeled the worst director of all time yet he achieved cult status and remains of great interest today This book frames Wood s work such as the cross dressing themed Glen or Glenda and the haphazard Bride of the Monster as reflections of the culture of their era Wood invariably worked with infinitesimal budgets shooting at breakneck speed incorporating plot twists that defied all logic Yet there was a tangible if unfocused thematic thrust to Wood s films which meditate fitfully on gender religion and society revealing a holy trinity of fixations sex death and resurrection Wood s infamous Plan 9 From Outer Space encapsulates the fixations and flaws that were his hallmarks and with 22 other films is explored here A filmography and 47 photographs are included

The Economy of Prestige James F. English, 2008-12-15 This is a book about one of the great untold stories of modern cultural life the remarkable ascendancy of prizes in literature and the arts Such prizes and the competitions they crown are almost as old as the arts themselves but their number and power and their consequences for society and culture at large have expanded to an unprecedented degree in our day In a wide ranging overview of this phenomenon James F English documents the dramatic rise of the awards industry and its complex role within what he describes as an economy of cultural prestige Observing that cultural prizes in their modern form originate at the turn of the twentieth century with the institutional convergence of art and competitive spectator sports English argues that they have in recent decades undergone an important shift a more genuine and far reaching globalization than what has occurred in the economy of material goods Focusing on the cultural prize in its contemporary form his book addresses itself broadly to the economic dimensions of culture to the rules or logic of exchange in the market for what has come to be called cultural capital In the wild proliferation of prizes English finds a key to transformations in the cultural field as a whole And in the specific workings of prizes their elaborate mechanics of nomination and election presentation and acceptance sponsorship publicity and scandal he uncovers evidence of the new arrangements and relationships that have refigured that field

The American Miracle Michael Medved, 2017-09-05 The New York Times bestselling author of God s Hand on America reveals that what the Founders always believed has been proven true that America s rise to prosperity and power from the writing of the Constitution to the Civil War unfolded according to a master plan THE INSPIRATION FOR THE MOTION PICTURE EXPERIENCE THE AMERICAN MIRACLE OUR NATION IS NO ACCIDENT Absolutely spectacular The stories are genuinely staggering fascinating eye opening and deeply inspiring Eric Metaxas The history of the United States displays an uncanny pattern At moments of crisis when the odds against success seem overwhelming and disaster looks imminent fate intervenes to provide deliverance and progress Historians may categorize these incidents as happy accidents callous crimes or the product of brilliant leadership but the most notable leaders of the last four hundred years have identified this good fortune as something else a reflection of divine providence Among the stirring illogical episodes described here A band of desperate religious refugees find themselves blown hopelessly off course only to be deposited at the one spot on a wild continent best suited for their survival George Washington s beaten army surrounded by a ruthless foe and

on the verge of annihilation manages an impossible escape due to a freakish change in the weather A famous conqueror known for seizing territory frustrated by a slave rebellion and a frozen harbor impulsively hands Thomas Jefferson a tract of land that doubles the size of the United States A weary soldier picks up three cigars left behind in an open field and notices the stogies have been wrapped in a handwritten description of the enemy s secret battle plans a revelation that gives Lincoln the supernatural sign he s awaited in order to free the slaves When millions worry over the nation losing its way Medved s sweeping narrative bursting with dramatic events and lively portraits of unforgettable occasionally little known characters affirms America as fortune s favorite shaped by a distinctive destiny from our beginnings to the present day **Hollywood**

Science Sidney Perkowitz,2010-02-22 In this book a scientist and dedicated film enthusiast discusses the portrayal of science in more than one hundred films including science fiction scientific biographies and documentaries Beginning with early films like Voyage to the Moon and Metropolis and concluding with more recent offerings like The Matrix War of the Worlds A Beautiful Mind and An Inconvenient Truth Sidney Perkowitz questions how much faith we can put into Hollywood s depiction of scientists and their work how accurately these films capture scientific fact and theory whether cataclysms like our collision with a comet can actually happen and to what extent these films influence public opinion about science and the future Bringing together history scientific theory and humorous observation Hollywood Science features dozens of film stills and a list of the all time best and worst science fiction movies Deanna Durbin in Hollywood Barry Lowe,2024-02-09

Known as the first film teenager Deanna Durbin was one of the most popular actresses of the 1930s and 1940s From starring alongside legends like Judy Garland to playing the lead role in classic film musicals her rise to fame seemed almost like fantasy But her life behind the scenes was anything but glamorous Though Durbin was a princess to the public she was a puppet to film studios and producers and a punching bag for critics and gossip columnists At the end of her twelve year career her only wish was to be forgotten Impossible This book pays tribute to Deanna Durbin by detailing her life and career in the context of her time and appraises her film work from both a contemporaneous and a modern view It includes a short biography an in depth discussion of her films and an extensive filmography and bibliography of her work Readers will discover the true identity behind the people s Cinderella and how Durbin s career opened Hollywood s studio gates to a generation of adolescent performers
