THE GATES OF JANUS

The Gates Of Janus Serial Killing And Its Analysis

Ying Liu

The Gates Of Janus Serial Killing And Its Analysis:

The Gates of Janus Ian Brady, 2001 Introduction by Colin Wilson Certain to be one of the most controversial books of the year this is a full length work by Ian Brady who along with Myra Hindley was responsible for The Moors Murders in the early 1960s Written after Colin Wilson suggested that he analyse serial murder and come to terms with the crimes he committed Brady s work is both psychological and philosophical and is based upon his readings observations and life story An extraordinary work that provides an insight into the mind of a criminal as never before **Serial Killers - Philosophy for Everyone** S. Waller, 2011-01-13 Serial Killers Philosophy for Everyone investigates our profound intrigue with mass murderers Exploring existential ethical and political questions through an examination of real and fictional serial killers philosophy comes alive via an exploration of grisly death Presents new philosophical theories about serial killing and relates new research in cognitive science to the minds of serial killers Includes a philosophical look at real serial killers such as Ian Brady Ted Bundy John Wayne Gacy Jeffrey Dahmer and the Zodiac killer as well as fictional serial killers such as Dexter and Hannibal Lecter Offers a new phenomenological examination of the writings of the Zodiac Killer Contains an account of the disappearance of one of Ted Bundy s victims submitted by the organization Families and Friends of Missing Persons and Violent Crime Victims Integrates the insights of philosophers academics crime writers and police officers *Kingship, Madness, and Masculinity on the Early Modern Stage* Christina Gutierrez-Dennehy, 2021-09-30 Kingship Madness and Masculinity examines representations of mad kings in early modern English theatrical texts and performance practices Although there have been numerous volumes examining the medical and social dimensions of mental illness in the early modern period and a few that have examined stage representations of such conditions this volume is unique in its focus on the relationships between madness kingship and the anxiety of lost or fragile masculinity The chapters uncover how as the early modern understanding of mental illness refocused on human rather than supernatural causes public stages became important arenas for playwrights actors and audiences to explore expressions of madness and to practice diagnoses Throughout the volume the authors engage with the field of disability studies to show how disability and mental health were portrayed on stage and what those representations reveal about the period and the people who lived in it Altogether the essays question what happens when theatrical expressions of madness are mapped onto the bodies of actors playing kings and how the threat of diminished masculinity affects representations of power This volume is the ideal resource for students and scholars interested in the history of kingship gender and politics in early modern drama *Serial Killing on Screen* Sarah E. Fanning, Claire O'Callaghan, 2022-11-30 This book explores the representation of real life serial murders as adapted for the screen and popular culture Bringing together a selection of essays from international scholars Serial Killing on Screen Adaptation True Crime and Popular Culture examines the ways in which the screen has become a crucial site through which the most troubling of real life crimes are represented re constructed and made accessible to the public Situated at the nexus

of film and screen studies theatre studies cultural studies criminology and sociology this interdisciplinary collection raises questions about and implications for thinking about the adaptation and representation of true crime in popular culture and the ideologies at stake in such narratives It discusses the ways in which the adaptation of real life serial murder intersects with other markers of cultural identity gender race class disability as well as aspects of criminology offenders victims policing and profiling and psychology psychopathy sociopathy and paraphilia This collection is unique in its combined focus on the adaptation of crimes committed by real life criminal figures who have gained international notoriety for their plural offences including for example Ted Bundy Ian Brady and Myra Hindley Aileen Wuornos Jack the Ripper and the Zodiac and for situating the tales of these crimes and their victims stories within the field of adaptation studies

Rethinking Serial Murder, Spree Killing, and Atrocities Robert Shanafelt, Nathan W. Pino, 2014-11-20 Multiple killings by serial or spree killers and the mass violence seen in war crimes and other atrocities have typically been understood as discrete category types which can foster the view that there are fundamentally different kinds of human beings including deviants who are born evil and innately given to sadism or a callous lack of empathy In contrast this book considers the violence of these deviants in terms of larger questions about human violence Therefore in addition to describing the life histories of a sample of individual serial and spree murderers the book includes analysis of macro level phenomena such as genocide mass rape and killing and torture occurring under conditions of war state authorization or political upheaval The chief claim of the book is that given the right combination of factors occurring at different levels of analysis virtually anyone can emerge as a killer or perpetrator of atrocities While it is crucial to understand individual killers in terms of the details of their biographies it is equally crucial to understand political atrocities in terms of the details of their histories and to see that persons and groups are always the product of complexly interacting assemblage processes

A History Of British Serial Killing David Wilson, 2009-10-15 The definitive history of British serial killing 1888 2008 by the UK's leading expert In this fascinating and informative book Professor David Wilson tells the stories of Britain's serial killers from Jack the Ripper to the extraordinary Suffolk Murders case David Wilson has worked as a Prison Governor and as a profiler and has been described as the UK's leading expert on serial killers His work has led him to meet several of the UK's deadliest killers and build up fascinating insights into what makes a serial killer and who they are most likely to target A vivid narrative history and a call for prison and social reform Professor Wilson's new book is a powerful and gripping investigation of Britain's serial murderers

Transnational Horror Cinema Sophia Siddique, Raphael Raphael, 2017-02-24 This book broadens the frameworks by which horror is generally addressed Rather than being constrained by psychoanalytical models of repression and castration the volume embraces M M Bakhtin's theory of the grotesque body For Bakhtin the grotesque body is always a political body one that exceeds the boundaries and borders that seek to contain it to make it behave and conform This vital theoretical intervention allows Transnational Horror Cinema to widen its scope to the social and cultural work of these global bodies of

excess and the economy of their grotesque exchanges With this in mind the authors consider these bodies potentials to explore and perhaps to explode rigid cultural scripts of embodiment including gender race and ability **Media and Violence** Karen Boyle,2005-01-01 Media and Violence pays equal attention to the production content and reception involved in any representation of violence This book offers a framework for understanding how violence is represented and consumed It examines the relationship of media gender and real world violence representations of violence in screen entertainment the effects of violent media on consumers the ethics and gender politics of the production processes of screen violence and the discussions are illustrated with topical and well known examples enabling the reader to critically engage with the debates

Sexual Violence Against Children in Britain Since 1965 Nick Basannavar,2021-11-30 This book investigates the changes and continuities in the ways in which sexual violence has been interpreted and represented in Britain since 1965 It explores the representational trail of the Moors murders and subsequent trial of 1966 the emergence of age of consent abolitionism in the 1970s Cleveland s child sexual abuse crisis of 1987 8 and 2010 and 20s contemplations on the Jimmy Savile scandal Harnessing research into popular media forms and a huge range of personal political and professional records Nick Basannavar carefully parses and illustrates the ways in which journalists medical workers politicians lobbyists and other groups assembled and animated their narratives revealing complex rhetorical and emotional processes This book challenges problematic conceptual dichotomies such as silence noise or ignorance knowledge It shows instead that although categories such as child sexual abuse and paedophilia may be relatively recent linguistic value constructs sexual violence against children has existed and been represented across historical moments in changeable and challenging ways **Violence, Society and Radical Theory** William Pawlett,2016-02-17 Shedding light on the relationship between violence and contemporary society this volume explores the distinctive but little known theories of violence in the work of Georges Bataille and Jean Baudrillard applying these to a range of violent events events often labelled inexplicable in order to show how even the most extreme of acts can be seen as socially meaningful The book offers an understanding of violence as fundamental to social relations and social organisation departing from studies that focus on individual offenders and their psychological states to concentrate instead on the symbolic relations or exchanges between agents and between agents and the structures they find themselves inhabiting Developing the notion of symbolic economies of violence to emphasise the volatility and ambivalence of social exchanges Violence Society and Radical Theory reveals the importance to our understanding of violence of the relationship between the structural or systemic violence of consumer capitalist society and forms of counter violence which attack this system A theoretically rich yet grounded expansion of that which can be considered meaningful or thinkable within sociological theory this ground breaking book will appeal to scholars and students of social and political theory and contemporary philosophy
