WHEN I BEGAN WITH MY RESEARCH for this book, I had done some investigations on four of the *Vollsbücher* which I will discuss specifically in this monograph, but I was not aware of the breadth of the genre. While I continued reading representatives of this genre, and studied their interpretations written during the last two hundred years, my own horizon widened considerably. It was a wonderful opportunity to explore new perspectives on late medieval German literature and to grasp some of the links which connect the modern world with the Middle Ages. Part of my research was funded by a Faculty of Humanities Research Mini-Grant, University of Arizona, for which I am very grateful. I also received a generous grant from the American Philosophical Society that allowed me to carry out archival research in Germany, for which I also feel deep gratitude. My thanks go to Dennis Selzer who helped me to correct the English in the manuscript and offered some insightful criticism. I would like to express my gratitude to the Bayerische Staatsbibliothek München for providing me with a photograph of a *Fortunatus*-woodcut and allowing me to use it for this book. I am also indebted to P. Stabel, principal of the Friedrich-Magnus-Schwend-Gymnasium, Speyer, Germany, for providing me with an article practically impossible to find through traditional research channels. I received invaluable help in the last stages of preparing the manuscript for publication from my friends Professors William C. McDonald and Windsor McConnell. The credit for the manuscript's smoothness in grammar and style goes largely to them. All remaining mistakes are, of course, mine. Last but not least, I want to thank the Edwin Mellen Press for accepting this volume for publication.

I dedicate this book to my dear wife Carolyn and my cheerful son Stephan.

The German Volksbuch Hc 1995:

Magic and Magicians in the Middle Ages and the Early Modern Time Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic astrology necromancy medicine and even sciences in the pre modern world Under the umbrella term magic the contributors to this volume examine a wide range of texts both literary and religious both medical and philosophical in which the topic is discussed from many different perspectives The fundamental concerns address issue such as how people perceived magic whether they accepted it and utilized it for their own purposes and what impact magic might have had on the mental structures of that time While some papers examine the specific appearance of magicians in literary texts others analyze the practical application of magic in medical contexts In addition this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large

Women and Family Life in Early Modern German Literature Elisabeth Wågghäll Nivre, 2004 A study of the discourse of gender in 16th century German popular literature Writers of sixteenth century German popular literature took great interest in describing debating commenting on and prescribing gender roles and discourses of gender can be traced in texts of all kinds from this period This book focuses on popular works by Georg Wickram Jakob Frey Martin Montanus and Johann Fischart all of whom published novels joke books plays and or moral treatises on marriage and family life in Strasbourg in the sixteenth century Their works express not only their own ideas on women s roles as wives and mothers but also societal values at a time of religious political and cultural change The view of gender issues provided by these writers is not a simple one as they ascribed widely varying characteristics to woman and her relationship to man The book thus analyzes the social and cultural construction of the concept of woman as indicated not only by the narrators comments but also by the relationships and roles of men and women characters in the narratives Overall the focus is on the disparities that persisted in the sixteenth century discourse of gender confusing all attempts to arrive at definitive gender roles In the end the study argues for something that can best be described as a flowing continuity or a continuous flow in the discourses that form the sixteenth century concepts of woman and man Elisabeth Wågghäll Nivre is associate professor of German at Växjö University Sweden
