The Global Internet Economy:

The Global Internet Economy Bruce Mitchel Kogut, 2003 Comparative analyses of the development and economic development of the Internet in seven countries *Creative Destruction* Raul Luciano Katz, 2002 Schumpeter's framework of creative destruction applied to the rapidly changing telecommunications and related Internet industries More than fifty years ago Joseph Schumpeter stated that processes intrinsic to a capitalist society produce a creative destruction whereby innovations destroy obsolete technologies only to be assaulted in turn by newer and more efficient rivals This book asks whether the current chaotic state of the telecommunications and related Internet industries is evidence of creative destruction or simply a result of firms governments and others wasting valuable resources with limited benefits to society as a whole In telecommunications for example wireless IP and cable based technologies are all fighting for a share of the market currently dominated by older circuit switched copper terminated networks This process is accompanied by mergers acquisitions bankruptcies and investment and divestment in worldwide markets The selections discuss the primary challenge facing firms governments and other players how to exploit the opportunities created by such destructive dynamics They highlight the importance of national regulations promoting competition and nonmonopolistic market structures as well as the role of new technologies such as the Internet in driving down the price and speeding the diffusion of innovative products and services in telecommunications media electronic retailing and other new economy industries **The Global Digital**

Economy: A Comparative Policy Analysis - Student Edition Holroyd, Carin, Coates, Ken S., 2015-01-08 Note this is an abridged version of the original book with references removed The complete edition is also available This book explores the intersection of public policy and the fast changing digital media economy Over the last 20 years digital technologies and digital content have revolutionized many aspects of social economic and political life around the world Governments locked into the policies and programs of the traditional economy are struggling to respond to this dynamic and commercially unique global ecosystem This study examines the nature and extent of the digital economy looking at both the commercial diversity within the sector and the different digital implementations across the world While the digital engagement of North America is well known the scale and intensity of digital growth in East Asia is not fully understood not are the transformative changes occurring in parts of Africa The digital world is marked by the unexpected and rapid re orientation of economic social cultural and political affairs The digitization of work for example has already brought major disruptions within national economies Governments are struggling to respond in part because of pressures from the traditional industrial and resource sectors but also because of the unique somewhat anarchistic nature of the digital content industry The Global Digital Economy provides a profile of the global digital environment reviews current government digital policies with an emphasis on innovative strategies and offers policy suggestions for national and subnational governments Countries that respond creatively to the digital economy like Taiwan South Korea Finland and Israel stand to prosper from the anticipated

accelerated growth of the sector Those nations that struggle to keep pace with the digital infrastructure needs of the new economy and with the potential for employment and business creation stand to fall behind economically This book provides a policy roadmap for the digital economy and identifies the risks and opportunities of this core sector in the twenty first century economy

Taxation in a Global Digital Economy Ina Kerschner,Maryte Somare,2017-10-04 Time to discuss anti BEPS measures around digitalization In the course of the BEPS Report on Action 1 it was concluded that there was no instantaneous need for specific rules to address base erosion and profit shifting BEPS made possible by the digitalization of enterprises and new digital businesses At the same time it was acknowledged that general measures may not suffice with the assessment of results to begin in 2020 While awaiting possible fundamental reforms of the tax framework it is time to discuss anti BEPS measures bearing in mind the peculiar features of the digital economy such as increased mobility no need for physical presence and dematerialization The Book focuses on five key areas of interest International Tax PolicyTax Treaty LawTransfer PricingIndirect Taxation IssuesEU Law Taxation in a Global Digital Economy analyses the issues and addresses the five key areas of interest from various viewpoints

[The Routledge Companion to Global Internet Histories](#) Gerard Goggin,Mark McLelland,2017-02-17 The Routledge Companion to Global Internet Histories brings together

research on the diverse Internet histories that have evolved in different regions language cultures and social contexts across the globe While the Internet is now in its fifth decade the understanding and formulation of its histories outside of an anglophone framework is still very much in its infancy From Tunisia to Taiwan this volume emphasizes the importance of understanding and formulating Internet histories outside of the anglophone case studies and theoretical paradigms that have thus far dominated academic scholarship on Internet history Interdisciplinary in scope the collection offers a variety of historical lenses on the development of the Internet as a new communication technology seen in the context of older technologies as a new form of sociality read alongside previous technologically mediated means of relating and as a new media vehicle for the communication of content Labor in the Global Digital Economy Ursula Huws,2014-12-05 For every person who reads this text on the printed page many more will read it on a computer screen or mobile device It s a situation that we increasingly take for granted in our digital era and while it is indicative of the novelty of twenty first century capitalism it is also the key to understanding its driving force the relentless impulse to commodify our lives in every aspect Ursula Huws ties together disparate economic cultural and political phenomena of the last few decades to form a provocative narrative about the shape of the global capitalist economy at present She examines the way that advanced information and communications technology has opened up new fields of capital accumulation in culture and the arts in the privatization of public services and in the commodification of human sociality by way of mobile devices and social networking These trends are in turn accompanied by the dramatic restructuring of work arrangements opening the way for new contradictions and new forms of labor solidarity and struggle around the planet Labor in the Global Digital Economy is a forceful critique of our dizzying contemporary moment one that goes beyond notions of mere connectedness or free flowing information to illuminate the entrenched mechanisms of exploitation and control at the core of capitalism **The Institutional Foundations of the Digital Economy in the 21st Century** Elena G. Popkova,Artem Krivtsov,Aleksei V. Bogoviz,2021-02-08 The development of the Digital Economy has been a landmark breakthrough for economic systems in the 21st century as it opens up opportunities for the full scale implementation of new digital technologies and the optimization of economic activities While the conceptual essence and specific features of the digital economy are described in detail in the existing literature the practical foundations of its formation are poorly studied In this book the digital economy is studied from the perspective of neo institutional economic theory This allows for the tracking of the process of formation institutionalization of the digital economy determining the basic institutions that are necessary for its formation and that exist in modern economic practice and analyzing scenarios for the future development of the digital economy in the 21st century Proceedings of the 3rd International Conference on Internet Finance and Digital Economy (ICIFDE 2023) Yusheng Jiao,Khaled Elbagory,Shyam Bihari Goyal,Hang Luo,2023-11-26 This is an open access book With the advent of economic globalization and the information technology revolution especially the dawn of the era of network economy marked by the Internet human society

is embarking on a transition from an industrial society to an information society and from industrial civilization to information civilization In recent years domestic Internet business has become more and more prosperous In order to adapt to the development of the new media era many traditional industries have extended their business to the Internet field Among them the most prominent is the financial business Thanks to the operation of Internet business the efficiency of financial services has been rapidly improved However the rapid development of the Internet has also brought certain practical problems that must be faced This conference has therefore been convened in the hope of engaging in an in depth exchange with scholars in the following aspects Acquaint yourself with the development status of Internet finance and the digital economy in various countries and deepen the elaboration of the concept of financial Internet Summarize the characteristics of Internet finance in the world and propose solutions to the problems faced by Internet finance Understand academic development trends broaden research ideas strengthen academic research and discussion and promote the industrialization cooperation of academic achievements Promote the institutionalization and standardization of management science through modern research The previous conference of ICIFDE took place in Guangzhou China Online ICIFDE 2023 will come back this year on August 04 06 and it will provide a valuable and face to face opportunity for researchers scholars and some scientists to exchange their ideas Distinguished by its strong organizational team dependable reputation and prestigious sponsors across the globe ICIFDE 2023 is an annual conference on Internet Finance and the Digital Economy for all researchers both domestic and international ICIFDE started in 2021 and all papers accepted in the last session of ICIFDE have been successfully published The 3rd International Conference on Internet Finance and Digital Economy ICIFDE 2023 will be held in Chengdu China on August 04 06 2023 We warmly invite you to participate in ICIFDE 2023 and look forward to seeing you in Chengdu China

Global e-commerce Kenneth L. Kraemer, Jason Dedrick, Nigel P. Melville, Kevin Zhu, 2006-08-17 Are the Internet and e commerce truly revolutionizing business practice This book explodes the transformation myth by demonstrating that the Internet and e commerce are in fact being adapted by firms to reinforce their existing relationships with customers suppliers and business partners Detailed case studies of eight countries show that rather than creating a borderless global economy e commerce strongly reflects existing local patterns of commerce business and consumer preference and its impact therefore varies greatly by country Paradoxically while e commerce is increasing the efficiency effectiveness and competitiveness of firms it is also increasing the complexity of their environments as they have to deal with more business partners and also face greater competition from other firms This incisive analysis of the diffusion and impact of e business provides academic researchers graduates and MBA students with a solid basis for understanding its likely evolution
