Lethbridge,2009-10-21 WHAT IS REALLY REAL Is the chair you are sitting on really there What does reality and existence mean to you Can you as an ordinary human get a grip of what reality is or could be Well yes you can You can raise your perception horizons without becoming a nuclear physicist philosopher or priest MAN IS AN UNCERTAINTY MACHINE He is fine tuned to deal with uncertainty He is not primarily a love machine I am of course the exception nor a sex machine nor a fighting machine nor a hate machine and not even a gene machine He is an UNCERTAINTY MACHINE People like and seek certainty in their lives but is uncertainty the real path or key to reality Should we celebrate and embrace uncertainty So let s start using all that uncertainty and applying it to every component of our very being Can we trust our senses or is perception deception Can we trust the physical objects we are seeing around us What is the matter batter holding us all together and how does matter chatter What is the relationship between mind and matter Is it the case that If you don t mind it doesn t matter Do we have free will or are we just a quantum puppet If religion is the opium of the masses is science the amphetamine of the individual Do we put too much reliance on science and is our conviction a restriction Could it be that doubt gives you clout Read on and be transformed to another world the world of THE GIST IN THE MIST **Great Myths of the Brain** Christian Jarrett,2014-11-17 Great Myths of the Brain introduces readers to the field of neuroscience by examining popular myths about the human brain Explores commonly held myths of the brain through the lens of scientific research backing up claims with studies and other evidence from the literature Looks at enduring myths such as Do we only use 10% of our brain Pregnant women lose their mind Right brained people are more creative and many more Delves into myths relating to specific brain disorders including epilepsy autism dementia and others Written engagingly and accessibly for students and lay readers alike providing a unique introduction to the study of the brain Teaches readers how to spot neuro hype and neuro nonsense claims in the media **Spiritual Capital** Danah Zohar,2011-11-07 In their new book Danah Zohar and Ian Marshall envisage two scenarios The first is business as we know it today all short term interest short term gain isolationist thinking with the material bottom line as king The second envisages a business culture driven by fundamental values and a deep sense of purpose in which wealth is accumulated to generate a decent profit while acting to raise the common good The emphasis is on stake holder value where stake holders include the human race present and future and the planet itself These are the values of Spiritual Capital The crucial question which Zohar and Marshall address is How we can move from one scenario to the other They show how we need to consider three types of capital to make the leap Rational Intelligence IQ and Emotional Intelligence EQ are needed to diagnose the current state and then the twelve qualities of Spiritual Intelligence SQ can be used to bring about the final transformation The ultimate goal is sustainable capitalism within a framework of a more meaningful working life **Visits to Heaven** Josie Varga,2011-02 As each case is unlocked Varga gives her readers an insider s view into near death experiences NDEs and afterlife communications with examples studies and stories that include apparitional appearances deathbed visitations ghostly encounters and visits from
