The Gods Of Atheism:

The Gods of Atheism Fr Vincent Miceli Sj,2022-06-28 Working Description An excellent overview of the Enlightenment theologians philosophers and how they try to get us to deny God s existence why different forms and or philosophies of atheism still involve some higher power or deified ideal of perfection This eye opening book provides a detailed overview of the Enlightenment theologians and philosophers and their attempt to get us to deny God s existence Fr Miceli demonstrates that atheism s vigor arises from its creation of mythical gods in place of the true God When the atheist has a spiritual posture against God he is simultaneously posturing in preference for some other Being above God As he dismisses the true God he is welcoming his New God Why must this be so Because every personal commitment of man presupposes deep in the metaphysical core of his being a hunger for being and goodness The aim of this work is to indicate that the great sin of contemporary atheism is that it consists through a sustained act of Supreme Self Will a narcissistic adoration and love of himself *The Gods of Atheism* Vincent P. Miceli,1971 *The Gods of Atheism* Vincent P. Miceli (s.j.),1971 Battling the Gods Tim Whitmarsh,2016-10-18 How new is atheism Although adherents and opponents alike today present it as an invention of the European Enlightenment when the forces of science and secularism broadly challenged those of faith disbelief in the gods in fact originated in a far more remote past In *Battling the Gods* Tim Whitmarsh journeys into the ancient Mediterranean a world almost unimaginably different from our own to recover the stories and voices of those who first refused the divinities Whitmarsh provides a bracing antidote to our assumptions about the roots of freethinking By shining a light on atheism s first thousand years *Battling the Gods* offers a timely reminder that nonbelief has a wealth of tradition of its own and indeed its own heroes **The Gods of Atheism** Vincent P. Micelli,1983-12-01 Systematic Atheology John R. Shook,2017-12-01 Atheology is the intellectual effort to understand atheism defend the reasonableness of unbelief and support nonbelievers in their encounters with religion This book presents a historical overview of the development of atheology from ancient thought to the present day It offers in depth examinations of four distinctive schools of atheological thought rationalist atheology scientific atheology moral atheology and civic atheology John R Shook shows how a familiarity with atheology s complex histories forms and strategies illuminates the contentious features of today s atheist and secularist movements which are just as capable of contesting each other as opposing religion The result is a book that provides a disciplined and philosophically rigorous examination of atheism s intellectual strategies for reasoning with theology *Systematic Atheology* is an important contribution to the philosophy of religion religious studies secular studies and the sociology and psychology of nonreligion God Dr. Jeff L. Barnhart DMin.,2022-10-03 This book will change your life I know there are probably many authors that would use that phare to describe their book However in my case it is true The information in this book will surprise and may even shock some people But trust me it is all true and documented I wrote this book because I wanted to share my love for God to as many people as possible God has helped me through the writing of this

book to make sure his message is given correctly The Studia Philonica Annual XXXIV, 2022 David T. Runia, Gregory E. Sterling, 2022-12-15 The Studia Philonica Annual is a scholarly journal devoted to the study of Hellenistic Judaism particularly the writings and thought of the Hellenistic Jewish writer Philo of Alexandria circa 15 BCE to circa 50 CE *The Freethinker*, 1914 Sophists, Socratics and Cynics (Routledge Revivals) David Rankin, 2014-06-27 The Sophists the Socratics and the Cynics had one important characteristic in common they mainly used spoken natural language as their instrument of investigation and they were more concerned to discover human nature in its various practical manifestations than the facts of the physical world The Sophists are too often remembered merely as the opponents of Socrates and Plato Rankin discusses what social needs prompted the development of their theories and provided a market for their teaching Five prominent Sophists Protagoras Gorgias Prodicus Hippias and Thrasymachus are looked at individually The author discusses their origins aims and arguments and relates the issues they focussed on to debates apparent in contemporary literature Sophists Socratics and Cynics first published in 1983 also traces the sophistic strand in Greek thought beyond the great barrier of Plato emphasising continuity with the Cynics and concludes with a look forward to Epicureans and Stoics
