The Golden Age Revisited Art And Culture In Denmark 1800-1850:

The Golden Age Revisited, 1996 **A History of Hegelianism in Golden Age Denmark, Tome I** Jon

Stewart, 2024-02-19 This is the first of a three volume work dedicated to exploring the influence of G W F Hegel's philosophical thinking in Golden Age Denmark. The work demonstrates that the largely overlooked tradition of Danish Hegelianism played a profound and indeed constitutive role in many spheres of Golden Age culture. This initial tome covers the period from the beginning of the Hegel reception in the Danish Kingdom in the 1820s until the end of 1836. The dominant figure from this period is the poet and critic Johan Ludvig Heiberg who attended Hegel's lectures in Berlin in 1824 and then launched a campaign to popularize Hegel's philosophy among his fellow countrymen. Using his journal *Kjøbenhavnens flyvende Post* as a platform, Heiberg published numerous articles containing ideas that he had borrowed from Hegel. Several readers felt provoked by Heiberg's Hegelianism and wrote critical responses to him, many of which appeared in *Kjøbenhavnsposten*, the rival of Heiberg's journal. Through these debates, Hegel's philosophy became an important part of Danish cultural life.

Kierkegaard and His Contemporaries Jon Stewart, 2008-08-22 Interpreting Kierkegaard in the general context of Golden Age Denmark, this interdisciplinary anthology features articles which treat his various relations to his most famous Danish contemporaries. It aims to see them not as minor figures laboring in Kierkegaard's shadow but rather as significant thinkers and artists in their own right. The articles illuminate both Kierkegaard's influence on his contemporaries and their varied influences on him. By means of the analyses of these various relations, aspects of Kierkegaard's authorship are brought into new and insightful perspectives. The featured essays treat some of the most important figures from the time representing the fields of philosophy, theology, literature, criticism, and art. **Volume 7, Tome I: Kierkegaard and his Danish**

Contemporaries - Philosophy, Politics and Social Theory Jon Stewart, 2016-12-05 The period of Kierkegaard's life corresponds to Denmark's Golden Age, which is conventionally used to refer to the period covering roughly the first half of the nineteenth century when Denmark's most important writers, philosophers, theologians, poets, actors, and artists flourished. Kierkegaard was often in dialogue with his fellow Danes on key issues of the day. His authorship would be unthinkable without reference to the Danish State Church, the Royal Theater, the University of Copenhagen, or the various Danish newspapers and journals such as *The Corsair*, *Fædrelandet*, and *Kjøbenhavnens flyvende Post*, which played an undeniable role in shaping his development. The present volume features articles that employ source work research in order to explore the individual Danish sources of Kierkegaard's thought. The volume is divided into three tomes in order to cover the different fields of influence. Tome I is dedicated to exploring the sources that fall under the rubrics Philosophy, Politics, and Social Theory. With regard to philosophy, Kierkegaard read the works of all the foremost Danish thinkers of the time and their German antecedents, in particular Kant, Schelling, and Hegel. While he was sympathetic to individual ideas offered by this tradition, he was generally keen to criticize the German model of philosophy and to propose a new paradigm for philosophical

thought that was more in tune with lived existence Kierkegaard also experienced the dynamic period in history that saw the great upheavals throughout Europe in connection with the revolutions of 1848 and the First Schleswig War While it has long been claimed that Kierkegaard was not interested in politics recent research supports a quite different picture To be sure he cannot be regarded as a political scientist or social theorist in a traditional sense but he was nonetheless engaged in the issues of his day and in his works one can certainly find material that can be insightful for the fields of politics and social theory

Baltic Light Catherine Johnston, Helmut Borsch-Supan, Helmut R. Leppien, National Gallery of Canada, Kasper Monrad, 1999-01-01 During the first half of the nineteenth century Danish and German artists studying in Paris and Rome brought back the concept of plein air painting and began to paint out of doors on their native soil They introduced a whole new aesthetic that was sensitive to the light and atmospheric conditions peculiar to the north especially during the long summer days This beautiful book focuses on the painters and paintings of this period particularly Caspar David Friedrich who produced many fine works before he developed the romantic style for which he is better known The book presents topographical landscapes panoramas and some group and individual portraits that often include a window from which light emanates Essays by eminent authorities discuss various aspects of the Danish and North German open air movement They note for example that the paintings reflect a direct view of nature devoid of the intellectual and moral overtones of the neoclassical paintings that preceded them They also discuss the fact that Schleswig Holstein was closely allied with Denmark until 1848 and this favored many Hamburg and north German artists studying at the Academy in Copenhagen where painting out of doors was encouraged In addition to the essays the book presents 108 works by twenty three artists catalogue entries for each work and a biography of each artist

Kierkegaard and the Question Concerning Technology Christopher B. Barnett, 2019-08-22 Over the last several decades technology has emerged as an important area of interest for both philosophers and theologians Yet despite his status as one of modernity's seminal thinkers Søren Kierkegaard is not often seen as one who contributed to the field Kierkegaard and the Question Concerning Technology argues otherwise Christopher B Barnett shows that many of Kierkegaard's criticisms of the present age relate to the increasing dominance of technology in the West and he puts Kierkegaard's thought in conversation with subsequent thinkers who grappled with technological issues from Martin Heidegger to Thomas Merton Barnett shows that Kierkegaard's writing with its marked emphases on personal upbuilding stands as a place where deeper non technical modes of thinking are both commended and nurtured In doing so Barnett presents a Kierkegaard who remains relevant perhaps all too relevant in today's digital age

Poul Martin Møller's "Thoughts on the Possibility of Proofs of Human Immortality" and Other Texts, 2022-05-20 A classicist philosopher and poet Poul Martin Møller was an important figure in the Danish Golden Age The traumatic event of the death of his wife led him to think more profoundly about the question of the immortality of the soul In 1837 he published his most important philosophical treatise Thoughts on the Possibility of Proofs of Human Immortality presented here in English for the

first time It was read and commented upon by the leading figures of the Golden Age such as Søren Kierkegaard It proved to be the last important work that Møller wrote before his death in March of 1838 at the age of 43

Cultural Tourism and Tourism Cultures Can-Seng Ooi,2002 This book presents a comprehensive and dynamic understanding of cultural tourism It examines cultural mediators and how they help tourists appreciate foreign cultures It also shows how tourism experiences are strategically crafted by mediators The mediation process is complex and the various products are mediated differently A number of different products are investigated including destination brand identities living cultures and everyday life art and history

Hans Christian Andersen Jackie Wullschläger,2001 Beloved by generations of children and adults around the world for tales such as The Ugly Duckling and The Emperor's New Clothes Hans Christian Andersen 1805-1875 revolutionized children's literature Although others before him had collected and retold folk stories and fairy tales Andersen was the first to create the stories himself instilling a previously stilted genre with new humor wisdom and pathos Drawing on letters diaries and other original sources many never before translated from the Danish Wullschläger shows in this compelling extensively researched biography how Andersen's writings darker and more diverse than previously recognized reflected the complexities of his life a far cry from the happily ever after of a fairy tale As we follow in his footsteps from Golden Age Copenhagen to the princely courts of Germany and the villas of southern Italy Andersen becomes a figure every bit as fascinating as a character from one of his stories a gawky self-pitying and desperate man but also one of the most gifted storytellers the world has ever known

Bildung Lene Rachel Andersen,2020-06-25 Have you ever wondered why Nordic countries are so prosperous peaceful good for business and happy They have a secret and it was invented in Denmark folk bildung Bildung is a German concept that combines moral and emotional development with education Still it was a Danish pastor and a teacher who democratized it and invented folk high schools and laid the foundation for some of the most prosperous countries in the world Bildung Keep Growing tells the story of this Danish invention and suggests a path towards global folk bildung and a wiser more meaningful happier future
