Investigating the Sinking of the Titanic Charles River Charles River Editors,2017-12-20 Includes pictures Includes passengers accounts and testimony from the investigations Explains the different investigations findings and the changes made Includes a bibliography for further reading Just before midnight on April 14 1912 the RMS Titanic the largest ship in the world hit an iceberg setting in motion a chain of events that would ultimately make it history s most famous and notorious ship In the over 100 years since it sank on its maiden voyage the Titanic has been the subject of endless fascination as evidenced by the efforts to find its final resting spot the museums full of

its objects and the countless books documentaries and movies made about the doomed ocean liner Thanks to the dramatization of the Titanic s sinking and the undying interest in the story millions of people are familiar with various aspects of the ship s demise and the nearly 1 500 people who died in the North Atlantic in the early morning hours of April 15 1912 The sinking of the ship is still nearly as controversial now as it was over 100 years ago and the drama is just as compelling The Titanic was neither the first nor last big ship to sink so it s clear that much of its appeal stems from the nature of ship itself Indeed the Titanic stands out not just for its end but for its beginning specifically the fact that it was the most luxurious passenger ship ever built at the time In addition to the time it took to come up with the design the giant ship took a full three years to build and no effort or cost was spared to outfit the Titanic in the most lavish ways Given that the Titanic was over 100 feet tall nearly 900 feet long and over 90 feet wide it s obvious that those who built her and provided all of its famous amenities had plenty of work to do The massive ship was carrying thousands of passengers and crew members each with their own experiences on board and the various amenities offered among the different classes of passengers ensured that life on some decks of the ship was quite different than life on others Much has been made through the years about the failures of those designing the Titanic to take proper safety precautions and how these failings led to the disaster and huge loss of life In fact the number of lives lost was so great that it can be hard to believe that the death toll might have been higher Nonetheless it s true that many more would have died without the courageous efforts of those on the ships who responded to the Titanic s distress calls and sailed through the same dangerous conditions that brought down the unsinkable ship itself The drama involved with the sinking of the Titanic often obscures the important aftermath of the disaster particularly the several investigations conducted on both sides of the Atlantic that sought to figure out not only why the Titanic sank but future changes that could be made in order to protect ships and passengers in the future In fact the course of the investigations was interesting in itself especially since the British and Americans reached wildly different conclusions about what went wrong and led to the ship s demise Investigating the Sinking of the Titanic chronicles the immediate aftermath of the tragedy and the investigations and changes that followed Along with pictures of important people places and events you will learn about the investigations like never before

The Loss of the S.S. Titanic Lawrence Beesley,1912 The Loss of the S S Titanic is a classic Titanic biography and a fascinating and gripping actual account from a

survivor of the R M S Titanic Laurence Beesley His words bring you as close as you can possibly be to that great disaster at sea The circumstances in which this book came to be written are as follows Some five weeks after the survivors from the Titanic landed in New York I was the guest at luncheon of Hon Samuel J Elder and Hon Charles T Gallagher both well known lawyers in Boston After luncheon I was asked to relate to those present the experiences of the survivors in leaving the Titanic and reaching the Carpathia When I had done so Mr Robert Lincoln O'Brien the editor of the Boston Herald urged me as a matter of public interest to write a correct history of the Titanic disaster his reason being that he knew several publications were in preparation by people who had not been present at the disaster but from newspaper accounts were piecing together a description of it He said that these publications would probably be erroneous full of highly coloured details and generally calculated to disturb public thought on the matter He was supported in his request by all present and under this general pressure I accompanied him to Messrs Houghton Mifflin Company where we discussed the question of publication

S. Titanic: Its Story and Its Lessons* Lawrence Beesley, 2015-05-25 RMS Titanic was a British passenger liner that sank in the North Atlantic Ocean in the early morning of 15 April 1912 after colliding with an iceberg during her maiden voyage from Southampton UK to New York City US The sinking resulted in the loss of more than 1 500 passengers and crew making it one of the deadliest commercial peacetime maritime disasters in modern history The RMS Titanic the largest ship afloat at the time it entered service was the second of three Olympic class ocean liners operated by the White Star Line and was built by the Harland and Wolff shipyard in Belfast with Thomas Andrews as her naval architect Andrews was among those lost in the sinking On her maiden voyage she carried 2 224 passengers and crew Wikimedia Commons has media related to RMS Titanic Under the command of Edward Smith the ship s passengers included some of the wealthiest people in the world as well as hundreds of emigrants from Great Britain and Ireland Scandinavia and elsewhere throughout Europe seeking a new life in North America A wireless telegraph invented by Guglielmo Marconi and manned by operators Jack Phillips and Harold Bride was provided for the convenience of passengers as well as for operational use Although Titanic had advanced safety features such as watertight compartments and remotely activated watertight doors there were not enough lifeboats to accommodate all of those aboard due to outdated maritime safety regulations Titanic only carried enough lifeboats for 1 178 people slightly more than half of the number on board and one third her total capacity After leaving Southampton on 10 April 1912 Titanic called at Cherbourg in France and Queenstown now Cobh in Ireland before heading west to New York 2 On 14 April 1912 four days into the crossing and about 375 miles 600 km south of Newfoundland she hit an iceberg at 11 40 p m ship s time The collision caused the ship s hull plates to buckle inwards along her starboard side and opened five of her sixteen watertight compartments to the sea the ship gradually filled with water Meanwhile passengers and some crew members were evacuated in lifeboats many of which were launched only partly loaded A disproportionate number of men were left aboard because of a women and children first protocol followed by some of the officers loading the lifeboats 3 By 2 20 a m she broke apart and foundered with well over one thousand people still aboard Just under two hours after Titanic foundered the Cunard liner RMS Carpathia arrived on the scene of the sinking where she brought aboard an estimated 705 survivors The disaster was greeted with worldwide shock and outrage at the huge loss of life and the regulatory and operational failures that had led to it Public inquiries in Britain and the United States led to major improvements in maritime safety One of their most important legacies was the establishment in 1914 of the International Convention for the Safety of Life at Sea SOLAS which still governs maritime safety today Additionally several new wireless regulations were passed around the world in an effort to learn from the many missteps in wireless communications which could have saved many more passengers 4 The wreck of

Sinking of the "Titanic" Jay Henry Mowbray,1912 *Wreck and Sinking of the Titanic* Marshall Everett,1912
Recounts the events of the 1912 disaster when the ocean liner struck an iceberg on her maiden voyage and sank killing almost 1600 men women and children Includes the first hand accounts of many survivors Sinking of the Titanic Jay Henry Mowbray,2012-08-09 Published only months after the disaster and sold as a Memorial Edition this is one of the most sensationalistic early books about the sinking of the Titanic It contains a multitude of survivor accounts taken from newspaper stories personal interviews and reports of the Senate investigation Much of the early reporting for example that the Titanic exploded and broke in two before she sank is now known to be untrue but the raw horror of the disaster remains in the rush and jumble of the survivors own words There are also unique accounts not reported elsewhere including a comparison to the cowardly behavior of passengers and crew during the Bourgogne disaster a chapter on the gruesome task of the funeral ship Mackay Bennett and the initial story of Lady Duff Gordon who was later pilloried by the yellow press

The Sinking of the Titanic John Dudman,1988 Reviews the Titanic disaster the sinking of the world s biggest ocean liner after collision with an iceberg causing the loss of more than 1500 lives
