Novels: The sin of Monsieur Autoine, v. 2. Leone Leoni George Sand,1902 *A Man of Many Parts* Barbara Rawlinson,2006 This comprehensive study of George Gissing s short stories and related non fiction is essential reading for students of nineteenth century realism For the first time readers will be able to follow the development which transformed Gissing s unremarkable early stories into the very individual tales that elevated his work to the vanguard of realistic short fiction Gissing s American period is notable for its accumulation of themes that were repeatedly refined and adapted for his later work causality emerging as the dominant voice On his return to England

shifting political and philosophical beliefs expressed in his non fiction had a vital impact on his second phase of short fiction and the part played by realism in the author s short stories and his writings on Charles Dickens added further dimensions to his work as a whole By the final phase of Gissing s remarkable development it is evident that his interest in the concept of causality as the major force in his short work had been replaced by a more challenging preoccupation with the human psyche This introduced philosophical sociological and psychological dimensions to Gissing s work that established him in the field of short fiction as a leading exponent of late nineteenth century realism

*Father Figures in Zimbabwean Literature and Society* Kizito Z. Muchemwa,Robert Muponde,2007 Gender studies in  
 Zimbabwe have tended to focus on women and their comparative disadvantages and under privilege Assuming a broader

 and class sex and gender poverty and wealth patriotism and terrorism etc The editors of Manning the Nation recognise that  
 concepts of manhood can be used to repress or liberate and will depend on historical and political imperatives they seek to  
 introduce a more nuanced perspective to the interconnectivity of patriarchy masculinity the nation and its image The essays  
 in this volume come from well respected academics working in a variety of fields The ideals and concepts of manhood are  
 examined as they are reflected in important Zimbabwean literary texts However if literature provides a rich vein for the  
 analysis of masculinities what makes this collection so interesting is the interplay of literary analysis with chapters that  
 provide a critical examination of the ways in which ideals of manhood have been employed in for example leadership and the
