English Towns in the Wars of the Roses James Edward Winston, 1921 [Six Town Chronicles of England](#) Ralph Flinley, 1911 [Six English Towns](#) Alec Clifton-Taylor, 1986 **War, Politics and Finance in Late Medieval English Towns** Christian Drummond Liddy, 2005 The strengthening of ties between crown and locality in the fourteenth century is epitomised by the relationships between York and Bristol then amongst the largest and wealthiest urban communities in England and the crown This book combines a detailed study of the individuals who ruled Bristol and York at the time with a close analysis of the texts which illustrate the relationship between the two cities and the king thus offering a new perspective on relations between town and crown in late medieval England Beginning with an analysis of the various demands financial political and commercial made upon the towns by the Hundred Years War the author argues that such pressures facilitated the development of a partnership in government between the crown and the two towns meaning that the elite inhabitants became increasingly important in national affairs The book goes on to explore in detail the nature of urban aspirations within the kingdom arguing that the royal charters granting the towns their coveted county status were crucial in binding their ruling elites into the apparatus of royal government and giving them a powerful voice in national politics

[Popular Protest in Late Medieval English Towns](#) Samuel Kline Cohn, Douglas Aiton, 2013 Draws new attention to popular protest in medieval English towns away from the more frequently studied theme of rural revolt **"The" British Almanac ... Containing the Calendar of Remarkable Days and Terms ... Remarks on the Weather ... Astronomical Facts and Phenomena ...** , 1828 *English Towns and Gilds* Edward Potts Cheyney, 1898 **The Reformation in English Towns, 1500-1640** John Craig, 1998-08-24 This volume seeks to address a relatively neglected subject in the field of English reformation studies the reformation in its urban context Drawing on the work of a number of historians this collection of essays will seek to explore some of the dimensions of that urban stage and to trace using a mixture of detailed case studies and thematic reflections some of the ways in which religious change was both effected and affected by the activities of

townsmen and women Crisis and Order in English Towns 1500-1700 Peter Clark,Paul Slack,2013-02-01 This collection of essays in English urban history covers a period which has been called the Dark Ages in English Economic History on which it directs a revealing light The essays range from a discussion of the role of ceremony in the civic life of Coventry at the end of the Middle Ages to the influence of war on London Merchant class at the end of the seventeenth century This book was first published in 1972 Paris Anthony Sutcliffe,1993-01-01 In this extensively illustrated work one of Paris leading historians links the beauty of the city to its harmonious architecture the product of a powerful tradition of classical design running from the Renaissance through the 20th century English grammar. [With] Exercises on English grammar William Jordan Unwin,1862 *The Making of Our Urban Landscape* Geoffrey Tyack,2022-03-02 Britain was the first country in the world to become an essentially urban country And England is still one of the most urbanized countries in the world The town and the city is the world that most of us inhabit and know best But what do we actually know about our urban world and how it was created The Making of the English Urban Landscape tells the story of our towns and cities and how they came into being over the last two millennia from Roman and Anglo Saxon times through the Norman Conquest and the later Middle Ages to the great rebuilding in the sixteenth and seventeenth centuries the polite townscapes of the eighteenth and the commercial and industrial towns and cities of the nineteenth and early twentieth century The final chapter then takes the story from the end of the Second World War to the present from the New Towns of the immediate post war era to the trendy converted warehouses of Shoreditch This is a book that will make the world you live in come alive If you are a town or a city dweller you are unlikely ever to look at the everyday world around you in quite the same way again *The English towns ; The industrial revolution of the fifteenth century ; The commercial revolution of the fifteenth century ; The common life of the town ; The townspeople ; The problem of government ; Battle for freedom (towns on royal demesne) ; Battle for freedom (towns on feudal estates) ; Battle for freedom (towns on church estates) ; Battle for supremacy ; The towns and the church ; Confederation* Alice Stopford Green,1894 Town Life in the Fifteenth Century: The English towns ; The industrial revolution of the fifteenth century ; The commercial revolution of the fifteenth century ; The common life of the town ; The townspeople ; The problem of government ; Battle for freedom (towns on royal demesne) ; Battle for freedom (towns on feudal estates) ; Battle for freedom (towns on church estates) ; Battle for supremacy ; The towns and the church ; Confederation Alice Stopford Green,1894 **Peterborough and the Soke** Ron Baxter,Jackie Hall,Claudia Marx,2019-07-03 The British Archaeological Association Conference held at Peterborough in 2015 provided a welcome opportunity for a new analysis of the cathedral s architecture sculpture and artistic production and a reassessment of the relationship between the former abbey the city and its institutions and the Soke over which it held sway This ambitious volume casts new light on the Roman occupation of the Nene valley and the rich Anglo Saxon sculptural and manuscript context that preceded the construction of the present cathedral as well as exploring the vital Romanesque tradition of the Soke and the essential

Male Professionals in Nineteenth Century Britain Laurence Brockliss, Harry Smith, 2024-07-12

Male Professionals in Nineteenth Century Britain is the first statistically based social cultural and familial history of a fast growing and socially prominent section of the Victorian propertied classes It is built around a representative cohort of 750 men who were recorded in the 1851 census as practising a profession in eight British provincial towns with distinctive economic and social profiles Brighton Bristol Dundee Greenock Leeds Merthyr Tydfil Winchester and the twin county town of Northumberland Alnwick Morpeth The book provides a collective account of the cohort's lives and the lives of their families across four generations starting with their parents and ending with their grandchildren It touches on the history of 16 000 individuals The book aims to throw light on the extent to which nineteenth century professionals had a distinctive socio cultural profile as sociologists and some historians have claimed or were largely indistinguishable from other members of propertied society as most historians today assume without further investigation In exploring this question particular attention is paid to the cohort families wealth household size education occupational history geographical mobility and broader involvement in society measured by their members choice of marriage partner their kinship and friendship circles their political allegiance and their leisure activities The book demonstrates that male professionals in the Victorian era were far from being a homogenous group but were divided in many ways The most important was wealth which played a key role in the social and occupational fortunes of their descendants These divisions largely explain why some professionals and some individual professions were much more likely to display endogenous characteristics than others The book also demonstrates that even the most successful professional families got poorer over time and reveals how easily in the age of industrialisation branches of families and sometimes complete families could drop out of the elite
