stands out both in taste and appeal through a multifarious exploration of themes enriching the all inclusive discourse on food. Rather than reiterating the debates that have been hashed and re hashed in various disciplines the essays compiled here explore novel ideas and spark unique discussions regarding the situatedness of food in everyday life using parameters such as culture identity space and taste. Employing unique inter and intra disciplinary methodologies and critical approaches each article explores the evolution of definitions of food cuisine and foodways and focuses on the ways in which discussions about food have moved beyond the superficial food as a means of survival to play a role in economic social political cultural and ideological realms. By transcending boundaries of discipline methodology and interest areas this compilation will appeal to the tastes of anyone interested in food.

*The Modern Ayurvedic Cookbook* Amrita Sondhi, 2006-10-01 Ayurveda is a holistic healing tradition from India whose history is linked to the development of yoga. It is an ancient system in which physical and spiritual well being comes from a number of sources including a healthful diet based on one's individual constitution. Ayurveda is about achieving a physical and spiritual balance through a number of means including yoga aromatherapy and diet. This all vegetarian cookbook based on Ayurvedic traditions features delectable and nutritious recipes that appeal to particular doshas which are one's personal constitution based on physical and mental characteristics: fire, pitta, air, vata, and earth, kapha. The book includes a dosha questionnaire so readers can determine their own. And while the recipes are authentically Ayurvedic they feature easy to find ingredients and modern day cooking methods appropriate for busy schedules. The book also includes yoga postures, cleansing programs and information on aromatherapy, color therapy and Abhyanga massage. There are also suggested meat substitutions for non vegetarians. Ayurveda is not exclusively vegetarian although this book is. Written with both converts and beginners in mind, *The Modern Ayurvedic Cookbook* is a twenty first century approach to a five thousand year old tradition that will restore your health, energy and sense of well being.

**Consciousness Mattering** Peter D. Herschok, 2023-12-14 *Consciousness Mattering* presents a contemporary Buddhist theory in which brains, bodies, environments and cultures are relational infrastructures for human consciousness. Drawing on insights from meditation, neuroscience, physics and evolutionary theory, it demonstrates that human consciousness is not something that occurs only in our heads and consists in the creative elaboration of relations among sensed and sensing presences and more fundamentally between matter and what matters. Herschok argues that without consciousness there would only be either unordered sameness or nothing at all. Evolution is consciousness mattering. Shedding new light on the co emergence of subjective awareness and culture, the possibility of machine consciousness, the risks of algorithmic consciousness hacking and the potentials of intentionally altered states of consciousness, Herschok invites us to consider how freely, wisely and compassionately consciousness matters.
