Six Moons In Sulawesi:

White Stranger Harry Wilcox, 1949 The Potent Dead Anthony Reid, 2020-08-20 The dead are potent and omnipresent in modern Indonesia Presidents and peasants alike meditate before sacred graves to exploit the power they confer and mediums do good business curing the sick by interpreting the wishes of deceased forebears Among non Muslims there are ritual burials of the bones of the dead in monuments both magnificent and modest By promoting dead heroes to a nationalist pantheon regions and ethnic groups establish their place within the national story Although much has been written about the local forms of the scriptural religions to which modern Indonesians are required by law to adhere Islam Christianity Hinduism and Buddhism this is the first book to assess the indigenous systems of belief in the spirits of ancestors Sometimes these systems are condemned in the name of the formal religions but more often the potent dead coexist as a private dimension of everyday religious practice A unique team of anthropologists historians and literary scholars from Europe Australia and North America demonstrate the continuing importance of the potent dead for understanding contemporary Indonesia At the same time they help us understand historic processes of conversion to Islam and Christianity by examining **Perspectives on Traditional Settlements and** the continuing interactions of the spirit world with formal religion **Communities** Bagoes Wiryomartono, 2014-02-18 This book covers the relationship between societies and their culture in the context of traditional settlement in Indonesia The focus of the study is on the search for meanings of local concepts This study reveals and analyzes the concepts concerning home and their sociocultural strategies for maintaining a sense of community and identity In this study identifying local concepts becomes the hallmark and the hub of analyses that explore verify and establish relations between ideas and phenomena Based on these relations this study attempts to capture the reality of the local world that upholds and sustains the communities values norms and principles for what they may call a homeland The book is organized into two parts Part I describes a cross regional habitation in Indonesia while Part II presents four ethnic regions of Indonesia Sa dan Toraja Bali Naga and Minangkabau Their unique traditions customs beliefs and attitudes serve to provide diversity in terms of their backgrounds and lifestyles though they share the challenge of sustaining their sense of home in the face of modernity as characterized by changes and developments toward a technologically industrialized society The central research questions are What is development in terms of culture and environmental sustainability How do these communities respond to modernity **Sulawesi** Judyth Gregory-Smith, 2000 Anderson's <u>Travel Companion</u> Compiled by Sarah Anderson, 2016-12-05 A selection of the best in travel writing with both fiction and non fiction presented together this companion is for all those who like travelling like to think about travelling and who take an interest in their destination It covers guidebooks as well as books about food history art and architecture religion outdoor activities illustrated books autobiographies biographies and fiction and lists books both in and out of print Anderson's Travel Companion is arranged first by continent then alphabetically by country and then by subject cross referenced where

Domeniq, 2014-04-03 In his richly illustrated Religion and Architecture in Premodern Indonesia Gaudenz Domenig investigates the nature of Indonesian ethnic religions by focusing on land opening rituals sacred groves and architectural responses to the custom of presenting offerings Since deities and spirits were supposed to taste offerings on the spot it was a task of architecture to attract them and to guide them into houses where offerings were presented Domenig quotes numerous sources to show that certain material elements of the house were viewed as spirit attractors spirit ladders or spirit pathways Various exotic features of Indonesian vernacular architecture thus become understandable as relics from times when architecture was still responding to indigenous religions practised in the architecture Sailina Directions (enroute) for Borneo, Jawa, Sulawesi and Nusa Tenggara United States.
