Slaying The Nimby Dragon:

Slaying the Nimby Dragon Herbert Inhaber, 2018-10-08 A mob scene erupted in April 1990 in the sleepy hamlet of Caneada a small town on the northern edge of the Allegheny Mountains In addition to riots and numerous arrests six senior citizens handcuffed to a heavy chain formed a human barricade across the steel bridge spanning the Genesee River Their purpose was to prevent the siting commission

Slaying the Nimby Dragon Herbert Inhaber, 1998 Advanced societies around the world are facing a dilemma What to do with all the facilities that everyone desires in principle but wants to keep out of their own block The phenomenon is called NIMBY Not In My Own Back Yard Herb Inhaber proposes a solution that combines environmental science and economics to wipe it out the reverse Dutch auction

Slaying the Nimby Dragon Elena Skrjabina, Herbert Inhaber, 2017-10-12 A mob scene erupted in April 1990 in the sleepy hamlet of Caneada a small town on the northern edge of the Allegheny Mountains In addition to riots and numerous arrests six senior citizens handcuffed to a heavy chain formed a human barricade across the steel bridge spanning the Genesee River Their purpose was to prevent the siting commission of a low level radioactive waste dump from getting across the bridge In the past few decades finding sites for undesirable facilities such as prisons and garbage landfills has become ever more difficult The difficulty lies not in tracking down technically suitable sites but in the so called NIMBY syndrome People might agree that a facility is desperately needed just as long as it is Not In My Backyard The unfortunate results of this proverbial game of hot potato are ever mounting social and economic costs State and local governments will continue to spend small fortunes finding sites to facilities that everyone desires in principle but nobody seems to want on their block In *Slaying the NIMBY Dragon* Herbert Inhaber draws on the experience of many NIMBY cases He discusses new approaches to overcoming NIMBY such as the reverse Dutch auction Reverse because undesirable objects are being auctioned This market approach holds promise for meeting the objections of potential neighbors of a LULU Locally Unwanted Land Use as well as society's need to get the facilities built According to Inhaber a site auction works better than negotiation the community handles it on their own and when they are satisfied with a site they offer a bid The hefty bonus would go to the first county that agrees to have a site built in their backyard Psychological components of the NIMBY syndrome are also discussed logical objections and why people think as they do about LULUs Inhaber believes that the trick to handling this problem is to take account of these personal sentiments and accomplish the nation's work at the same time Inhaber adopts an optimistic approach to a problem that many believe has become a national fixture with no solution The nuclear industry has been trying without success to dispose of its waste for about four decades to take just one example Inhaber believes there is a way to assuage the fears of an affected community while simultaneously preserving the environment and the people This book will be of interest to environmentalists developers policymakers and those in the fields of waste industry nuclear and risk analysis
