Small Enterprise Development in South-East Europe Will Bartlett, Milford Bateman, Maja Vehovec, 2012-12-06 Since the end of the Kosovo war in 1999 increasing attention has been paid to the problems of economic development and reconstruction in South East Europe In a context of limited resources small and medium sized enterprises SMEs have a key role to play in creating jobs and building a dynamic entrepreneurial economy Small Enterprise Development In South East Europe presents important findings from recent empirical research on key factors which hinder sustainable SME growth in South East Europe Finance is identified as a critical barrier to growth and the role of commercial banks micro finance institutions and credit cooperatives in assisting growth is addressed Yet finance alone is not enough A rebuilding of social capital a reduction of the unofficial or grey economy and the promotion of inter firm networks and clusters are also of vital importance in promoting sustainable growth The book concludes with critical analyses of SME policies in Albania Croatia and Macedonia countries which hitherto have received little attention in the literature Small Enterprise Development in South East Europe will be of great interest to policy makers business consultants and academics and post graduate students working on economic development and reconstruction in South East Europe *Small Enterprise Development in South-East Europe* Will Bartlett, William Bartlett, Milford Bateman, Maja Vehovec, 2002-05-31 Since the end of the Kosovo war in 1999 increasing attention has been paid to the problems of economic development and reconstruction in South East Europe In a context of limited resources small and medium sized enterprises SMEs have a key role to play in creating jobs and building a dynamic entrepreneurial economy Small Enterprise Development In South East Europe presents important findings from recent empirical research on key factors which hinder sustainable SME growth in South East Europe Finance is identified as a critical barrier to growth and the role of commercial banks micro finance institutions and credit cooperatives in assisting growth is addressed Yet finance alone is not enough A rebuilding of social capital a reduction of the unofficial or grey economy and the promotion of inter firm networks and clusters are also of vital importance in promoting sustainable growth The book concludes with critical analyses of SME policies in Albania Croatia and Macedonia countries which hitherto have received little attention in the literature Small Enterprise Development in South East Europe will be of great interest to policy makers business consultants and academics and post graduate students working on economic development and reconstruction in South East Europe **Europe's Troubled Region** William Bartlett, 2007-12-21 The countries of the Western Balkans Albania Bosnia and Herzegovina Croatia Macedonia Montenegro Serbia and the province of Kosovo form a core European region The region is known for its instability and recent history of wars and civil conflicts but far less is known about the changes that have taken place in the economic and social welfare systems and the dynamic processes of transition development and European integration that have been taking place over the last twenty years Although economic growth has been firmly established many problems remain in relation to the labour markets where there is high unemployment large

informal economies and widespread poverty The book discusses the role of welfare reforms international aid and European integration in addressing these difficulties The author argues that the resistance to reforms which were initiated under the communist system in former Yugoslavia led to the break up of the country and that since then a group of early reforming countries have made fast progress in institutional reform and have been at the forefront of EU integration He also acknowledges that the main problems have been among a group of late reformers including two international protectorates where aid dependence has held back progress with institutional reforms The book concludes that the resolution of these problems will unblock the completion of the transition development and EU integration in the region and open for the way for a more stable and prosperous future **Handbook of Doing Business in South East Europe** D.
