The Ascetic Self Subjectivity Memory And Tradition:

The Ascetic Self Gavin D. Flood, 2004-11-25 This 2004 book is about the ascetic self in the scriptural religions of Christianity Buddhism and Hinduism The author claims that asceticism can be understood as the internalisation of tradition the shaping of the narrative of a life in accordance with the narrative of tradition that might be seen as the performance of the memory of tradition Such a performance contains an ambiguity or distance between the general intention to eradicate the will or in some sense to erase the self and the affirmation of will in ascetic performance such as weakening the body through fasting Asceticism must therefore be seen in the context of ritual The book also offers a paradigm for comparative religion more generally one that avoids the inadequate choices of either examining religions through overarching categories on the one hand and the abandoning of any comparative endeavour that focuses purely on area specific study on the other

The Ascetic Self Gavin D. Flood, 2004 Bekanntmachung ..., daß die ... 1823 in den hiesigen Landen eingeführte Preussische Neue Arzneytaxe ... als für das hiesige Herzogthum normirend angesehen, und bei allen Rechnungen der Apotheker ... zum Grunde gelegt werden soll ... Datum Neustrelitz den 2ten Januar 1833 ,1833 *The Integral Philosophy of Aurobindo* Brainerd Prince, 2017-01-20 Sri Aurobindo was an Indian nationalist philosopher yogi guru and poet This book is an enquiry into the integral philosophy of Aurobindo and its contemporary relevance It offers a reading of Aurobindo s key texts by bringing them into conversation with religious studies and the hermeneutical traditions The central argument is that Aurobindo s integral philosophy is best understood as a hermeneutical philosophy of religion Such an understanding of Aurobindo s philosophy offering both substantive and methodological insights for the academic study of religion subdivides into three interrelated aims The first is to demonstrate that the power of the Aurobindonian vision lies in its self conception as a traditionary hermeneutical enquiry into religion the second to draw substantive insights from Aurobindo s enquiry to envision a way beyond the impasse within the current religious secular debate in the academic study of religion Working out of the condition of secularism the dominant secularists demand the abandonment of the category religion and the dismantling of the academic discipline of religious studies Aurobindo s integral work on religion arising out of the Ved nta tradition critiques the condition of secularity that undergirds the religious secular debate Finally informed by the hermeneutical tradition and building on the methodological insights from Aurobindo s integral method the book explores a hermeneutical approach for the study of religion which is dialogical in nature This book will be of interest to academics studying Religious Studies Philosophy of Religion Continental Hermeneutics Modern India Modern Hinduism as well as South Asian Studies **Desire and the Ascetic Ideal** Edward Upton, 2023-09-26 The Hindu words Shantih shantih shantih provide the closing of The Waste Land perhaps the most famous poem of the twentieth century This is just one example among many of T S Eliot s immersion in Sanskrit and Indian philosophy and of how this fascination strongly influenced his work Centering on Eliot s study of sources from ancient India this new book offers a rereading of the poet s work analyzing

his unpublished graduate school notebooks on Indian philosophy and exploring Eliot's connection with Buddhist thought Eliot was crucially influenced by his early engagement with Indian texts and when analyzed through this lens his poems reveal a criticism of the attachments of human desire and the suggestion that asceticism might hold out the possibility that desire can be cultivated toward a metaphysical absolute Full of such insights Upton's book represents an important intervention in modernist studies

Refiguring the Body Barbara A. Holdrege, Karen Pechilis, 2016-12-28 Refiguring the Body provides a sustained interrogation of categories and models of the body grounded in the distinctive idioms of South Asian religions particularly Hindu and Buddhist traditions The contributors engage prevailing theories of the body in the Western academy that derive from philosophy social theory and feminist and gender studies At the same time they recognize the limitations of applying Western theoretical models as the default epistemological framework for understanding notions of embodiment that derive from non Western cultures Divided into three sections this collection of essays explores material bodies embodied selves and perfected forms of embodiment divine bodies and devotional bodies and gendered logics defining male and female bodies The contributors seek to establish theory parity in scholarly investigations and to re figure body theories by taking seriously the contributions of South Asian discourses to theorizing the body

Desire and Mental Health in Christianity and the Arts David Torevell, 2023-08-21 This book considers the connection between the world of mental health in the twenty first century and the traditional concept of desire in Christianity and the Arts It draws parallels between the desire for rest from anxiety among mental health sufferers with the longing for peace and happiness in Religion and the Arts The author presents Biblical philosophical and theological insights alongside artistic ones arguing that desire for rest remains at the heart of spiritual living as well as mental health recovery The chapters draw from historical and contemporary voices including Plato Augustine of Hippo Julian of Norwich Gerard Manley Hopkins Simone Weil Samuel Beckett Tennessee Williams Jean Louis Chr tien Eric Varden and others The study demonstrates why longing continues to fascinate and grip individuals creative endeavour and society at large not least in the development of the understanding of mental health It is valuable for scholars and advanced students of Christian theology and those interested in spirituality and the arts in particular

The Stain of Errors on the Self Carl Olson, 2024-09-02 Using an interdisciplinary approach to the problem of the self this study focuses on a gap left by previous philosophers This shortcoming is related to the nature of the self to commit errors that become part of the identity of the self These errors stain the self and make I what it is This study shines light on the self that will give the reader a more balanced understanding of it Fictional literature will be invoked to illustrate features of the self associated with errors The book is divided into two parts a review of selected theories of the self and a reconsideration of the self and errors producing being

Classical Indian Philosophy Peter Adamson, Jonardon Ganeri, 2020-03-26 Peter Adamson and Jonardon Ganeri present a lively introduction to one of the world's richest intellectual traditions: the philosophy of classical India. They begin with the earliest extant literature, the Vedas, and the explanatory works that these inspired, known as Upanishads. They also discuss other famous texts of classical Vedic culture, especially the Mahabharata and its most notable section, the Bhagavad Gita, alongside the rise of Buddhism and Jainism. In this opening section, Adamson and Ganeri emphasize the way that philosophy was practiced as a form of life in search of liberation from suffering. Next, the pair move on to the explosion of philosophical speculation devoted to foundational texts called sutras, discussing such traditions as the logical and epistemological Nyaya school, the monism of Advaita Vedanta, and the spiritual discipline of Yoga. In the final section of the book, they chart further developments within Buddhism, highlighting Nagarjuna's radical critique of non-dependent concepts and the no-self philosophy of mind found in authors like Dignaga, and within Jainism, focusing especially on its standpoint epistemology. Unlike other introductions that cover the main schools and positions in classical Indian philosophy, Adamson and Ganeri's lively guide also pays attention to philosophical themes such as non-violence, political authority, and the status of women, while considering textual traditions typically left out of overviews of Indian thought, like the Crvaka school, Tantra, and aesthetic theory, as well. Adamson and Ganeri conclude by focusing on the much-debated question of whether Indian philosophy may have influenced ancient Greek philosophy, and from there evaluate the impact that this area of philosophy had on later Western thought.
