The Attainment of Delacroix Frank Trapp,1970 The Attainment of Delacroix Frank Anderson Trapp,1971

Delacroix's Moroccans Jennifer Olmsted,2024-12-24 The Women of Algiers in Their Apartment is arguably Eug ne Delacroix s best known work from his trip to Morocco in 1832 and the attention scholars have paid to it has obscured a crucial fact about Delacroix s Moroccan subjects most of his paintings of North Africa depict men rather than women After serving as a diplomat s companion on a mission to Morocco Delacroix went on to devote over three quarters of his massive North African oeuvre to the military prowess effective leadership equestrian virtuosity and elegant dress of Moroccan men Using the evidence of his writings sketches and paintings Olmsted argues that rather than embodying a typical colonialist fantasy Delacroix s paintings of Moroccan men instead show his subjects as models of heroic masculinity and political sovereignty a position that ran counter to prevailing French attitudes toward North Africans In this way Delacroix s Moroccans intervenes in the discourse of imperialism to examine the multiple heterogeneous features of cultural response and provides nuanced readings of the artist s work that support the idea that European constructions of non European cultures were not monolithic Olmsted s multifaceted analysis creates a powerful and original understanding of Delacroix s Moroccan oeuvre and a counternarrative to the colonialist imagery of his era Through close attention to Delacroix s paintings drawings and writings as well as their historical and political contexts this book illuminates the artist s practice and offers a fresh avenue for assessing colonialism and art produced within colonial contexts *The Writings of Robert Motherwell* Robert Motherwell,2023-11-15 Robert Motherwell 1915 1991 one of the leading American Abstract Expressionist painters was also a theorist and exponent of the movement His writing articulated the intent of the New York school Jackson Pollock Willem de Kooning Adolph Gottlieb Franz Kline Arshile Gorky and others during a period when their work was often reviled for its departure from traditional representation As founder of the Documents of Modern Art series later renamed the Documents of Twentieth Century Art Motherwell gave modern artists a voice at a time when very few people understood their theories or work This authoritative new edition of the artist s writings about art includes public lectures essays and interviews Impeccably edited with an informative introductory essay and rigorous annotation it is illustrated with black and white images that elucidate Motherwell s writings Robert Motherwell 1915 1991 one of the leading American Abstract Expressionist painters was also a theorist and exponent of the movement His writing articulated the intent of the New York school Jackson Pollock Willem de Kooning Adolph Gottlieb F **The Artist & the Emotional World** John E. Gedo,1996 In this unique blending of clinical experience with in depth biographical study Gedo examines both the necessary traits that prepare a person for a creative career as well as the emotional vicissitudes of such a career the psychological issues talented persons must struggle with in order to be creative He then goes further to discuss crucial developmental experiences that may result in a creative personality childhood experiences the strong possibly negative effect of a possession of talent on

personality and the influence of opportunities provided by a creator's environment Gedo also details attributes required of the successful artist the possible need to separate creativity from psychosis and the evolution of psychoanalytic views on creativity

The Age of Chopin Halina Goldberg, 2004-05-07 This multidisciplinary collection addresses Chopin's life and oeuvre in various cultural contexts of his era Fourteen original essays by internationally known scholars suggest new connections between his compositions and the intellectual literary artistic and musical environs of Warsaw and Paris Individual essays consider representations of Chopin in the visual arts reception in the United States and in Poland analytical aspects of the mazurkas and waltzes and political literary and gender aspects of Chopin's music and legacy Several senior scholars represent the fields of American Western European and Polish history Slavic literature musicology music theory and art history

Psychoanalytic Perspectives on Art, V.2 Mary M. Gedo, 2013-05-13 This new hardcover annual offers a unique scholarly format an interdisciplinary dialogue that it is hoped will foster the development of a sound useful methodology for applying psychoanalytic insight to art and artists The series provides a medium for those who study art those who interpret it and occasionally those who create it formally to explore the meaning of an artistic work as the direct reflection of the inner world of its creator Within each volume individual topics are addressed by either an art historian or a psychoanalyst with a response frequently tendered by an expert from the other field Reviews of important books of cross disciplinary interest are treated in a similar manner and include rebuttals by the authors themselves It is precisely this exchange of ideas among scholars with difference perspectives on the meaning of a work of art that sets PPA apart from the standard art history publication Its depth of scholarship coupled with its innovative format make it a fascinating addition to the burgeoning field of psychoanalytic studies of art history
