

The Australian Century

POLITICAL STRUGGLE IN THE BUILDING OF A NATION
EDITED AND INTRODUCED BY ROBERT MANNE

The Australian Century Political Struggle In The Building Of A Nation

JR Anderson

The Australian Century Political Struggle In The Building Of A Nation:

The Australian Century Robert Manne, 1999 At the dawn of the twentieth century Australia became a nation and entered a period of sustained political change Edited and introduced by Robert Manne The Australian Century provides nine essays on key events and issues which have defined our path to independent nationhood Engaging and accessible The Australian Century is an indispensable and authoritative guide to the turning points in our history **Australian Politics in the Twenty-First Century** Stewart Jackson, Joff Lelliott, Shannon Brincat, Josephine Bourne, Nick Economou, 2022-09-02 The global political environment in the twenty first century is proving dynamic and challenging for Australian policymakers and political institutions Australian Politics in the Twenty first Century contextualises the Australian political landscape through an institutional lens It examines the legislative and judicial bodies minor parties lobby groups the media and the citizenry providing historical and contemporary facts explaining political issues and examining new challenges The second edition has been updated to reflect the application of political theories in today s civic environment New spotlight boxes highlight issues including marriage equality COVID 19 and federalism the inclusion of First Nations peoples in the political system and gender equality in public policy Short answer reflection research and discussion questions encourage students to test and extend their knowledge of each topic and to clearly link theory to practice Written in an accessible and engaging style Australian Politics in the Twenty First Century is an invaluable introduction to the Australian political system **The Rise and Fall of One Nation** Michael Leach, Geoff Stokes, Ian Ward, 2000 Launched with the enthusiasm and support of many thousands of Australians the One Nation party gave expression to the anger and disenchantment of voters drawn to Pauline Hanson s views on race immigration and national identity In this landmark study scholars in political and social research bring into focus the character and origins of One Nation its organisation and right wing links the unprecedented role of an influential minor party in state parliament and its indelible impact upon Australian political life In particular this timely new book analysis One Nation s electoral failure in the 1998 federal and the subsequent NSW elections and its subsequent deregistration and investigation for fraud There is a key chapter on Aboriginal Australia written from the Murri perspective while other chapters offer up intriguing social commentary on the wider issues of an Australian political populism national identity and the impact of globalisation [The Australian Pursuit of Japanese War Criminals, 1943-1957](#) Dean Aszkielowicz, 2017-09-05 *William Hughes* Carl Bridge, 2011-05-24 The First World War marked the emergence of the Dominions on the world stage as independent nations none more so than Australia The country s sacrifice at Gallipoli in 1915 and the splendid combat record of Australian troops on the Western Front not only created a national awakening at home but also put Great Britain in their debt ensuring them greater influence at the Peace Conferences Australia was represented at Versailles by the Prime Minister the colourful Billy Hughes whom Woodrow Wilson called a pestiferous varmint after their repeated clashes over Australia s claims to the Pacific Islands its troops had taken from Germany during the War Hughes was

also the most vociferous though by no means at all the only opponent of the racial equality clause put forward by Japan. Indeed it was fear of Japanese expansion that drove Australia's territorial demands in the Pacific. **Australia And The British Embrace** Stuart Ward, 2016-10-18. Until a generation ago Britishness lay at the heart of Australian political culture. How and why did this fundamental idea lose its meaning for Australians and their political institutions? The popular view is that the British ideal succumbed to a triumphant long thwarted Australian nationalism. The reality is much more complex. Having weighed the documentary evidence, Stuart Ward vigorously argues that it was not Australia but the Mother Country that set the pace. The critical move was the Macmillan Government's decision in the early 1960s to seek membership of the European Economic Community. Thereafter the ties of imperial sentiment and the dictates of national self interest were essentially irreconcilable. Australia's attachment to being British was profoundly shaken and the contours of Australian nationhood were irreversibly redrawn. **Australia and the British Embrace** is an engrossing account of the unravelling of Britishness in Australian political life. The consequences of that unravelling continue to dominate Australian politics from multiculturalism to Aboriginal reconciliation, engagement with Asia and above all the prospect of a republic. ***Claiming the City*** Shelton Stromquist, 2023-02-14. Winner of the International Labor History Association ILHA 2023 Book of the Year Award for labor history. For more than a century municipal socialism has fired the imaginations of workers fighting to make cities livable and democratic. At every turn propertied elites challenged their right to govern. Prominent US labor historian Shelton Stromquist offers the first global account of the origins of this new trans local socialist politics. He explains how and why cities after 1890 became crucibles for municipal socialism. Drawing on the colorful stories of local activists and their social democratic movements in cities as diverse as Broken Hill, Christchurch, Malmö, Bradford, Stuttgart, Vienna, and Hamilton, OH, the book shows how this new urban politics arose. Long governed by propertied elites, cities in the nineteenth century were transformed by mass migration and industrialization that tore apart their physical and social fabric. Amidst massive strikes and faced with epidemic disease, fouled streets, unsafe water, decrepit housing, and with little economic security and few public amenities, urban workers invented a local politics that promised to democratize cities: they might themselves govern and reclaim the wealth they created. This new politics challenged the class power of urban elites as well as the centralizing tendencies of national social democratic movements. Municipal socialist ideas have continued to inspire activists in their fight for the right of cities to govern themselves. ***Creating Frames*** Maryrose Casey, 2004. ***Creating Frames*** traces the journey behind a substantial national body of work and its importance in ensuring that Indigenous Voices are heard. ***Creating Frames*** provides the first significant social and cultural history of Indigenous theatre across Australia. As well as using archival sources and national and independent theatre company records, much of this history is drawn from interviews with individuals who have shaped contemporary Indigenous theatre in Australia, including Bob Maza, Jack Charles, Gary Foley, Justine Saunders, Wesley Enoch, Ningali, and John Harding. ***The Routledge Handbook of the Global 1980s*** Jonathan

Davis,2025-08-18 The 1980s was a decade of enormous global change Upheaval from the top of governments to the bottom of societies saw a new world order begin to emerge A new form of capitalism redefined global economics on both the right and left as market forces were unleashed The ideological conflict of the previous four decades petered out as superpower relations improved A more interconnected world introduced new consumer products and forms of popular culture to societies across the globe And protest movements saw new battles fought and new alliances forged in an increasingly interdependent world The Routledge Handbook of the Global 1980s brings together specialists from across the world to examine how the decade was shaped by these changes to politics economics culture societies and protest movements The Handbook is divided into five parts focusing on the global environment globalisation and neoliberalism politics and society culture and society and the closing stages of the global Cold War By taking an international approach to the history of the 1980s this book offers a wide ranging and important new perspective of this hugely transformative decade It will appeal to students and scholars alike as well as all those interested in the political social economic and cultural shifts of the 1980s John Stoward Moyes and the Social Gospel Paul Terracini,2015-04-28 This book deals with the social gospel and one of its leading proponents in twentieth century Australia the Anglican bishop of Armidale New South Wales from 1929 to 1964 John Moyes It is an investigation and assessment of the career of Bishop Moyes as a study in Christian social engagement It concerns his vision for the role of the church in society and his contribution to that effect It is not a biography of John Moyes Neither is it an exhaustive history of the social gospel movement in Australia or anywhere else although they both feature prominently throughout Bishop Moyes was a highly articulate public debater who participated in several of the critical episodes in Australian history during the twentieth century The reader will find within the pages of this book discussion of highly contentious issues such as the attempt to ban the Communist Party of Australia in 1950 and 1951 the decision to commit Australian troops to the Vietnam War in 1965 and the Christian response to state legitimised violence Moyes is placed in context with some of the most notable Christian spokespeople on social and political issues in the twentieth century such as Walter Rauschenbusch Ernest Burgmann William Temple George Bell Dietrich Bonhoeffer Reinhold Niebuhr Martin Luther King Jr and Andr Trocm It is argued here that John Moyes made intelligent prescient and compassionate contributions to many of the issues to which he turned his mind but that like most others before or since he was unable to find a solution to the theological and moral challenges raised by the perceived threat to Australias sovereignty during World War II This book challenges the view that when national sovereignty is threatened the Christian response must be to support the governments call to war

Adopting the Melody of Appearance: An Psychological Symphony within **The Australian Century Political Struggle In The Building Of A Nation**

In some sort of consumed by monitors and the ceaseless chatter of immediate communication, the melodic splendor and mental symphony created by the prepared word usually diminish into the back ground, eclipsed by the relentless noise and disruptions that permeate our lives. But, situated within the pages of **The Australian Century Political Struggle In The Building Of A Nation** a wonderful fictional value brimming with fresh emotions, lies an immersive symphony waiting to be embraced. Constructed by a wonderful musician of language, this interesting masterpiece conducts readers on a mental journey, skillfully unraveling the hidden melodies and profound influence resonating within each cautiously crafted phrase. Within the depths with this poignant assessment, we can explore the book is main harmonies, analyze their enthralling writing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
