## **The Baptist And Christian Character Of Baylor:**

The Baptist and Christian Character of Baylor Dianna M. Vitanza, 2003      *Baylor at the Crossroads* Donald D. Schmeltekopf, 2015-09-01 This is a book about the enormous changes that took place at Baylor University from 1991 to 2003 as seen through the perceptive eyes of its provost at the time Donald D. Schmeltekopf. On the front end was the charter revision, a change that permanently restructured the legal governance of the university. On the back end was Baylor 2012, a grand vision for the university issued by the Board of Regents on September 21, 2001. There were several critical crossroads along the way to what has now been created at Baylor: a Christian research university, one of a kind among church-related universities in the Protestant orbit. These memoirs tell the story of this transformation from the perspective of one who was leading at the crossroads.      *The Christian College (Renewed Minds)* William C. Ringenberg, 2006-04-01 When it first appeared in 1984, *The Christian College* was the first modern comprehensive history of Protestant higher education in America. Now this second edition updates the history, featuring a new chapter on the developments of the past two decades, a major introduction by Mark Noll, a new preface and epilogue, and a series of instructive appendixes.      **Encyclopedia of Christian Education** George Thomas Kurian, Mark A. Lamport, 2015-05-07 Christianity regards teaching as one of the most foundational and critically sustaining ministries of the Church. As a result, Christian education remains one of the largest and oldest continuously functioning educational systems in the world, comprising both formal day schools and higher education institutions, as well as informal church study groups and parachurch ministries in more than 140 countries. In *The Encyclopedia of Christian Education*, contributors explore the many facets of Christian education in terms of its impact on curriculum, literacy, teacher training, outcomes, and professional standards. This encyclopedia is the first reference work devoted exclusively to chronicling the unique history of Christian education across the globe, illustrating how Christian educators pioneered such educational institutions and reforms as universal literacy, home schooling, Sunday schools, women's education, graded schools, compulsory education of the deaf and blind, and kindergarten. With an editorial advisory board of more than 30 distinguished scholars and five consulting editors, *The Encyclopedia of Christian Education* contains more than 1,200 entries by 400 contributors from 75 countries. These volumes cover a vast range of topics from Christian education history, spanning from the church's founding through the Middle Ages to the modern day, to denominational and institutional profiles, intellectual traditions in Christian education, biblical and theological frameworks, curricula, missions, adolescent and higher education, theological training, and Christian pedagogy. Biographies of distinguished Christian educators. This work is ideal for scholars of both the history of Christianity and education, as well as researchers and students of contemporary Christianity and modern religious education.      Southern Baptist Consensus and Renewal David S. Dockery, 2008 When former United States presidents Jimmy Carter and Bill Clinton announced the establishment of a broadly inclusive New Baptist Covenant that will be launched in early 2008, excluded from the proceedings were leaders from the Southern Baptist

Convention SBC Recognizing the need for both conviction and cooperation for confessional commitments and biblical unity Union University president David Dockery rallies Southern Baptists anew for such a time as this in Southern Baptist Consensus and Renewal a prophetic clarion call to cooperation unity and renewal throughout the SBC Many issues today threaten to sidetrack Southern Baptists from advancing the gospel missions and theological education together Dockery urges them to focus on their confessional heritage and renew their commitment to truth to doctrinal fidelity and to the Christ centered message of the gospel Publisher Seeing the Light Samuel Schuman, 2010-01-18 Samuel Schuman examines the place of religious colleges and universities particularly evangelical Protestant institutions in contemporary American higher education Many faith based schools are flourishing They have rigorous academic standards impressive student recruitment ambitious philanthropic goals and well maintained campuses and facilities Yet much of the U S higher education community ignores them or accords them little respect Seeing the Light considers instead what can be learned from the viability of these institutions The book begins with a history of post secondary U S education from the perspective of the religious traditions from which it arose After focusing briefly on nonevangelical institutions Schuman next looks at three Roman Catholic institutions the College of New Rochelle Villanova University and Thomas Aquinas College He then profiles evangelical colleges and universities in detail discovering the factors contributing to their success These institutions range from nationally recognized to little known from rich to poor with both highly selective and open admission requirements Interviews with key administrators faculty and students reveal the challenges the successes and the goals of these institutions Schuman concludes that these schools Baylor University Anderson University New Saint Andrews College Calvin College North Park University George Fox University Westmont College Oral Roberts University Northwestern College and Wheaton College and others like them offer important and timely lessons for the broader higher education community

**The Baylor Bulletin** Baylor University, 1916 *The Soul of the American University Revisited* George M. Marsden, 2021 The Soul of the American University is a classic and much discussed account of the changing roles of Christianity in shaping American higher education presented here in a newly revised edition to offer insights for a modern era As late as the World War II era it was not unusual even for state schools to offer chapel services or for leading universities to refer to themselves as Christian institutions From the 1630s through the 1950s when Protestantism provided an informal religious establishment colleges were expected to offer religious and moral guidance Following reactions in the 1960s against the WASP establishment and concerns for diversity this specifically religious heritage quickly disappeared and various secular viewpoints predominated In this updated edition of a landmark volume George Marsden explores the history of the changing roles of Protestantism in relation to other cultural and intellectual factors shaping American higher education Far from a lament for a lost golden age Marsden offers a penetrating analysis of the changing ways in which Protestantism intersected with collegiate life intellectual inquiry and broader cultural developments He tells the stories of many of the nation's

setting universities at defining moments in their histories By the late nineteenth century when modern universities emerged debates over Darwinism and higher criticism of the Bible were reshaping conceptions of Protestantism in the twentieth century important concerns regarding diversity and inclusion were leading toward ever broader conceptions of Christianity then followed attacks on the traditional WASP establishment which brought dramatic disestablishment of earlier religious privilege By the late twentieth century exclusive secular viewpoints had become the gold standard in higher education while our current era is arguably post secular The Soul of the American University Revisited deftly examines American higher education as it exists in the twenty first century     Catalogue and Annual Announcement of the Officers and Teachers, and Roster of Students Baylor Female College, Mary Hardin-Baylor College, 1910     **Battle of the Brazos** T. G. Webb, 2018-07-30 During halftime of the October 30 1926 football game between Baylor University and the Agricultural and Mechanical College of Texas a massive riot erupted between the two student bodies that resulted in the death of Texas A M senior cadet Charles Sessums Though various newspaper articles have chronicled this infamous cold case over the last ninety years none has placed the riot in its proper context nor has any official determination ever identified the person responsible for Sessums s death T G Webb has pored over related historic documents including contemporary newspaper accounts records in the library archives of both universities personal correspondence of the victim s family and the original report of the Pinkerton detective hired by Texas A M to investigate the incident In Battle of the Brazos Webb examines and explains the riot its origins and its aftermath untangling many enduring myths that grew up around the event over the years to establish the definitive record He allows readers to witness the heart breaking arrival of Cadet Sessums s parents at the Waco train station as they came to receive the body of their deceased son and he places readers amid the swirl of charges recriminations and allegations that clouded the atmosphere at both Texas A M and Baylor Most significantly Webb provides previously unpublished indications of a cover up designed to shield the killer s identity from public knowledge This historical whodunit is a must read for sports fans and historians devotees of leather helmet football local history buffs and Texas football enthusiasts alike
