Six French Poets Of Our Time:

Six French Poets of Our Time Robert W. Greene, 2015-03-08 During the last sixty to seventy years avant garde poetry in France has evolved in two directions one toward poetry conceived as a means to an end the other toward poetry as an end in itself Focusing on Pierre Reverdy Francis Ponge Ren Char Andr du Bouchet Jacques Dupin and Marcelin Pleynet as the modern French poets who most faithfully reflect these directions Robert Greene's chronological study allows us to follow the two pronged evolution of French poetry since 1910 Situating his argument in a detailed historical context and basing it on comparisons with artistic movements and the poets own writings on art and on extended analyses of selected representative poems the author is able to establish a new intellectual historical perspective on contemporary poetry Professor Greene finds that whereas Reverdy Char du Bouchet and Dupin all embrace a conception of poetry as quest as a search for the absolute as the Way of beauty or truth Ponge and Pleynet hold to a view of poetry as *jete* as a celebration of the relative as the play and display of language in action What knits them together he concludes is the way in which each poet sums up his era as a stage in the development of twentieth century French poetry Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Six French Poets of Our Time* Robert W. Greene, 1979 **Shakespeare's Revision of KING LEAR** Steven Urkowitz, 2014-07-14

Of the three texts of King Lear the Quarto version printed in 1608 the Folio edition of 1623 and the modern composite of these two early texts it has been assumed that both the Quarto and Folio versions are distortions of an unblemished original now lost and that only the modern text accurately approaches Shakespeare's lost original manuscript Steven Urkowitz argues to the contrary that the Quarto and Folio are simply different stages of Shakespeare's writing an early draft and a final revision and that they reveal much about his process of composition Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Flannery O'Connor and the Language of Apocalypse Edward Kessler, 2017-03-14 Seeing Flannery O'Connor in the company of poets rather than realistic prose writers this work shows how she uses recurring figures of speech to transform or re create the external world Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton

Coleridge's Metaphors of Being Edward Kessler, 2015-03-08 In an original and provocative demonstration that Coleridge's later poetry took on a powerful metaphysical conception Edward Kessler emphasizes Coleridge's struggle with language as a means of both expressing and creating Being While many of Coleridge's late poems are generally viewed as fragments that constitute an aesthetic failure Professor Kessler contends that what at first may appear to reflect Coleridge's inability to finish a poem can otherwise be seen as a deliberate rejection of what the poet came to see as a confining form Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Emmanuel Hocquard and the Poetics of Negative Modernity Glenn Williams Fetzer, 2004 This critical work explores written and visual texts in light of the writer's understanding of negative modernity and professed adherence to its dimension of literality In his pursuit of literality contemporary writer poet Emmanuel Hocquard enacts a model of the discontinuous organization of language a poetic practice known to some as an action poétique This book gives special attention to essays letters poems fictions etc and also pursues the poet's attraction to Deleuze Wittgenstein and Rousseau Professor Fetzer presents features of Hocquard's writings that reflect the imprint of negative modernity and explores these dimensions through interpretive readings

The Skeptic Disposition Eugene Goodheart, 2014-07-14 Eugene Goodheart examines the skeptic disposition that has informed advanced literary discourse over the past generation arguing that the targets of deconstructive suspicion are fundamental humanistic values This book is a fair minded generous critique of the deconstructionist theories of Jacques Derrida Paul de Man and their followers These writers have argued that language is so inherently slippery it can never express a speaker's intended meaning The critic's role in their view is to explore the contradictions subtexts and metaphorical byways of works that may be most radically deceptive when they appear simple Critics have castigated this language centered skepticism as a form of nihilism geared to multiply numbingly similar readings of already familiar texts Mr Goodheart's objection is more subtle He suggests that the philosophical orientation of deconstructive critics leads them to overemphasize the tricky propositional sense of words at the expense of the broader impact of literature its power to wound thrill or transform us Morris Dickstein The New York Times Book Review Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions

The Skeptic Disposition In Contemporary Criticism Eugene Goodheart,2014-07-14 Eugene Goodheart's remarkably compact and penetrating analysis examines the skeptic disposition that has informed advanced literary discourse over the past generation Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Redefining Resistance Esther Rowlands,2004 The study of resistance developed here by Dr Esther Rowlands consists of a fresh interrogation of the notion of resistance discourse Here for the first time this detailed study of selected wartime texts produced by Francis Ponge Benjamin Peret Henri Michaux and Antonin Artaud compiled between 1936 and 1946 presents a specific critique of resistance which investigates the possibility for opposition and subversion to take place without direct allusion to the object of resistance This investigation questions the criteria according to which literature is perceived as being resistant and suggests that historical and political referentiality may be deemed retaliative and reactionary thereby risking replication of the dominant order The relationship between language and power structures is elucidated through allusion to modern theorists Michel de Certeau Michel Foucault Ross Chambers and Françoise Proust

Winspur, 2010-11-01 **The Routledge Companion to Media and Risk** Bishnupriya Ghosh, Bhaskar Sarkar, 2020-02-26

This collection presents new work in risk media studies from critical humanities perspectives. Defining, historicizing and consolidating current scholarship, the volume seeks to shape an emerging field, signposting its generative insights while examining its implicit assumptions. When and under what conditions does risk emerge? How is risk mediated? Who are the targets of risk media? Who manages risk? Who lives with it? Who are most in danger? Such questions, the what, how, who, when and why of risk media, inform the scope of this volume. With roots in critical media studies and science and technology studies, it hopes to inspire new questions, perspectives, frameworks and analytical tools not only for risk media and communication studies but also for social and cultural theories. Editors Bishnupriya Ghosh and Bhaskar Sarkar bring together contributors who elucidate and interrogate risk media's varied histories and futures. This book is meant for students and scholars of media and communication studies, science and technology studies and the interdisciplinary humanities looking either to deepen their engagement with risk media or to broaden their knowledge of this emerging field. **Twentieth-Century French**

Poetry Hugues Azérad, Peter Collier, 2010-05-20. Modern French poetry is unique in the boldness and creativity of its experiments in form and genre, from classical verse to vers libre, from calligrammes to prose poems and poésies sonores. This anthology includes 32 poems by French and francophone poets, each followed by an accessibly written, detailed commentary. The different approaches adopted in the close readings by specialists in their field reflect the major trends in current literary criticism and theory. A foreword by one of France's foremost poets, Yves Bonnefoy, a general introduction and an afterword provide a helpful theoretical framework for the study of modern poetry. An extensive bibliography, concise biographies of the poets and a glossary of literary terms are included. Students of French and of comparative literature will gain a deeper understanding of the development of French verse and of the artistic movements, especially in the visual arts, which have shaped twentieth-century French poetry. The Art Criticism of Francis Ponge Shirley Ann Jordan, 1994. This study of

Francis Ponge's essays on contemporary artists, *L'Atelier contemporain*, attempts to broaden the popular view of the author as a poet of objects. It explores Ponge's perception of art criticism as an inherently problematic genre and exposes the inhibitions surrounding the production of the essays. The study demonstrates how Ponge's essays on artists parallel developments in his other works. They are seen as instrumental in his movement towards open texts and a stress on the creative process itself, as well as opportunities to reaffirm his philosophical and aesthetic stance. *Selections from*
