The Skateboarder's Journal - Lives on Board, 2009. A piece of wood, two trucks, four wheels: a skateboard. You start by rolling down a sidewalk and end up rolling through life. For some, the ride stops at the end of the street; for others, the ride never ends. This book was written by those for whom the ride is never ending: by the 15-year-old grom who falls asleep dreaming of skateboarding; by the 40-something dad you see at the local skatepark; by the women whose stories have never been told; and by the 73-year-old architect who didn't begin skateboarding until the age of 65. Over 170 stories and 200 photographs. The everyman, everywoman are accompanied by contributions from some notable skateboarders and other personalities from the skateboard world. Some of the great skateboarding photographers have graciously contributed to the book. Description from www.amazon.com

Sky Surfing Skateboarder Bill Myers, 2002-05-05. Through a series of incredible misadventures, so what else is new? Our boy blunder finds himself participating in the Skateboard Championship of the Universe. It would be of the World except for the one kid who claims to be from Jupiter, a likely story in spite of his two heads and seven arms. It's a tough crowd where anything goes as long as you win. Amidst the incredible chaotic chaos, by incurably corrupt competitors, say that five times fast. Wally learns there is more to life or, in his case, near death than winning.

Skateboarding Bill Gutman, 1997-05-15. A guide to skateboarding featuring the history of the sport and information on equipment, clothing, fitness, and safety tips.

McLachlan, Patricia F. Hess, 2015-06-01

Too often students automatically think that an internship is not for them. They seem to believe that internships are just for those students who are in AP or engineering and science programs or for students who know exactly what career they want to pursue. They don't take internship opportunities offered by their school or college or seek an internship on their own. Internships offer all students a way to find direction for their future. An internship will help them gain experience in the real world, find a career area that they like or don't like, get focused on a possible college major, and build those skills critical for success in a career and higher education. This book is a resource for all high school and community college students who want to find, get, and make the most out of an internship. The book gives students a heads up on how to use community school and college resources to help secure an internship. Get their act together by writing a compelling resume, cover email, and elevator speech. Show the skills and attitudes every organization wants to see during the interview. Prepare for an interview by anticipating the typical interview questions. Know what the interviewer is looking for and what to say and do to make the best impression. Take on value-added projects once the internship gets going. Deal with the ups and downs. Use the internship experience in their future. *Get an Internship and Make the Most of It: Practical Information for High School and Community College Students* can be a help to every high school and community college student. It follows four students as they find, interview for, and complete their internships. If you're thinking about doing an internship or are well on the way to starting one, this book is for you.
