Blood on the Page Lizzy Attree, 2010-03-08 The fourteen interviews in this book form an unprecedented wealth of material on authors responses to HIV AIDS in South Africa and Zimbabwe They comprise a valuable archive which documents and contextualises the variety of views and opinions of different authors on their often ground breaking choices in writing about HIV AIDS Each author ranks among the first to publish fiction on HIV AIDS in their respective countries These interviews are of particular merit as these issues have not been discussed at length with any of the authors before Collectively they offer a unique range of approaches and opinions in response to the HIV AIDS pandemic in southern Africa Their significance lies in their specific literary as well as their broader social cultural and political perspectives on a disease which continues to spread despite extensive NGO medical and government intervention In both South Africa and Zimbabwe government responses have failed to address the urgent need for new political and economic solutions to the challenge of HIV infection Responses among the population have varied from widespread silence shame and fear to political activism and outspoken critiques of government inaction Writers give voice to this silence and contextualise the disparate reactions amongst diverse peoples Globally AIDS killed approximately 2 million in 2008 In 1998 AIDS was the largest killer in southern Africa nearly double the one million deaths from malaria and eight times the 209 000 deaths from tuberculosis It has long been the case that of those dying globally of AIDS the majority live in southern Africa When the associated social and cultural implications of infection with HIV are considered fictional representations contribute significantly to our understanding of the impact of HIV AIDS on communities and individuals and provide a much needed basis for humanising an epidemic which is unimaginable statistically It has been said that the feelings and reactions that HIV AIDS inspires are often too unreal for words and it is this very notion that certain diseases are taboo unmentionable and hardly even named as such that makes verbalisation of this

epidemic a modern imperative **Bulletin** Srpsko hemijsko društvo,1967 Military Standard Transaction Reporting and Accounting Procedures, Change No. 4, April 15, 1996 ,1987 *The French Scholar's Guide: Or an Easy Help for Translating French Into English. ...
