Small Enterprises and Changing Policies A. H. J. Helmsing, Theo Kolstee, 1993 Looks at small enterprise development in the context of historical patterns of African industrialization and aims to provide a framework for assessment of key policies and their effects on small enterprise development *Small Enterprises & Changing Policies* Th Kolstee, Intermediate Technology Development Group (London), 1993 **Resources in Education** ,1986 **Index to International Statistics** ,1992 Sociological Abstracts Leo P. Chall, 1978 **Small Enterprises Adjusting to Liberalization in Five African Countries** Ronald L. Parker, Randall Riopelle, William F. Steel, 1995 World Bank Discussion Paper No 271 This study incorporates data from comparable surveys across five African countries Ghana Malawi Mali Senegal and Tanzania to analyze how small and micro enterprises have been positively and negatively affected by policy liberalization schemes Some grow rapidly by adapting their products while others stagnate because of import competition and increased self employment Comparisons were made between small firms with 6 to 49 workers and microenterprises with fewer than 6 The study suggests a two pronged strategy 1 to facilitate widespread participation in microenterprises broad measures are needed to lower the costs of entry generate demand for their goods and services raise the educational level and incomes of the poor and encourage informal financial institutions 2 to stimulate growth of potentially dynamic enterprises well targeted measures may be appropriate to lower the costs of entry increase access to credit and provide demand driven business services Also available in French ISBN 0 8213 3907 0 Stock No 13907 **Negotiating Structural Adjustment in Africa** Hilary Hodgson, United Nations Development Programme, 1994 Essential reading for those involved in implementing adjustment programmes the findings of this UNDP commissioned research set out to analyse experiences and provide a set of development objectives Insufficient attention has been paid in the programmes to the links between macroeconomic policy changes and microeconomic behaviour which has had a negative impact on investment and activity BR In association with UNDP FSG and QEH **Adjustment in Africa** Ishrat Husain, Rashid Faruquee, 1994 This collection of case studies focuses on the processes and outcomes of reform programs in seven African countries C te d Ivoire Ghana Kenya Nigeria Senegal and Tanzania chosen for the wide variety of conditions present before their individual adjustment programs began The World Bank s recent policy research report *Adjustment in Africa Reforms Results and the Road Ahead* concludes that the adjustment programs launched in 29 countries in the mid 1980 s have resulted in some improvement in the overall policy environment These improvements have been strongest in the macroeconomic and agricultural spheres and weakest in the areas of finance and public enterprise The study also finds that reform programs work in the countries where policy performance has been good conversely poor policy progress has been reflected in poor performance This volume presents case studies of seven country experiences to supplement and reinforce findings from the Policy Research Report The studies

confirm that whenever adjustment programs are vigorously pursued results are strongly positive from the viewpoints of growth and alleviation of poverty A key element in ensuring a successful adjustment program is strong motivation and commitment by the leadership in each nation Too many abrupt unpredictable and frequent changes and reversals of policies erode the credibility of the programs intensify the uncertainties and slow down investor confidence In short the success of reforms hinges on policy stability continuity and predictability Microeconomies and Structural Adjustment in Africa ,1998
