Small Homes In The New Tradition:

Small Homes in the New Tradition François C. Morand, 1959 A Field Guide to American Houses Virginia Savage McAlester, 2015-07-29 The fully expanded updated and freshly designed second edition of the most comprehensive and widely acclaimed guide to domestic architecture in print since its original publication in 1984 and acknowledged everywhere as the unmatched essential guide to American houses This revised edition includes a section on neighborhoods expanded and completely new categories of house styles with photos and descriptions of each an appendix on Approaches to Construction in the 20th and 21st Centuries an expanded bibliography and 600 new photographs and line drawings **New Traditions** Susan Abel Lieberman, 1991 Liberman presents suggestions for creating satisfying traditions when the traditions you grew up with aren't appropriate for your life style Includes ideas for mixed marriages single parents people who are far from home and single people **Renegades** Luca Guido, Stephanie Pilat, Angela Person, 2020-01-28 Like America itself the architecture of the United States is an amalgam an imitation or an importation of foreign forms adapted to the natural or engineered landscape of the New World So can there be an American School of architecture The most legitimate claim to the title emerged in the 1950s and 1960s at the Gibbs College of Architecture at the University of Oklahoma where under the leadership of Bruce Goff Herb Greene Mendel Glickman and others an authentically American approach to design found its purest expression teachable in its coherence and logic Followers of this first truly American school eschewed the forms most in fashion in American architectural education at the time those such as the French Beaux Arts or German Bauhaus Schools in favor of the vernacular and the organic The result was a style distinctly experimental resourceful and contextual challenging not only established architectural norms in form and function but also traditional approaches to instructing and inspiring young architects Edited by Luca Guido Stephanie Pilat and Angela Person this volume explores the fraught history of this distinctively American movement born on the Oklahoma prairie Renegades features essays by leading scholars and includes a wide range of images including rare never before published sketches and models Together these essays and illustrations map the contours of an American architecture that combines this country's landscape and technology through experimentation and invention assembling the diversity of the United States into structures of true beauty Renegades for the first time fully captures the essence and conveys the importance of the American School of architecture **New Traditions in Terror** Cheryl Petzold, 2001-11-19 The stories within these pages will bring you into the world of ghosts ghouls werewolves demons and psychos Welcome back to where the horror all began Welcome home Catalog of the Avery Memorial Architectural Library of Columbia University Avery Library, 1968 Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1960 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July December **Re-made in Japan** Joseph Jay Tobin, 1992-01-01 Colonel Sanders Elvis Mickey Mouse and Jack Daniels have been enthusiastically embraced by Japanese consumers in recent decades But rather

than simply imitate or borrow from the West the Japanese reinterpret and transform Western products and practices to suit their culture This entertaining and enlightening book shows how in the process of domesticating foreign goods and customs the Japanese have created a culture in which once exotic practices such as ballroom dancing have become familiar and once familiar practices such as public bathing have become exotic Written by scholars from anthropology sociology and the humanities the book ranges from analyses of Tokyo Disneyland and the Japanese passion for the Argentinean tango to discussions of Japanese haute couture and the search for an authentic nouvelle cuisine japonaise These topics are approached from a variety of perspectives with explorations of the interrelations of culture ideology and national identity and analyses of the roles that gender class generational and regional differences play in the patterning of Japanese consumption The result is a fascinating look at a dynamic society that is at once like and unlike our own

Contemporary Hinduism P.

Pratap Kumar, 2014-09-11 Most overviews of Hindu belief and practice follow a history from the ancient Vedas to today Such approaches privilege Brahmanical traditions and create a sense of Hinduism as a homogenous system and culture and one which is largely unchanging and based solely on sacred texts In reality modern Hindu faith and culture present an extraordinary range of dynamic beliefs and practices Contemporary Hinduism aims to capture the full breadth of the Hindu worldview as practised today both in the sub continent and the diaspora Global and regional faith ritualised and everyday practice Brahmanical and non Brahmanical belief and ascetic and devotional traditions are all discussed Throughout the discussion is illustrated with detailed case material and images whilst key terms are highlighted and explained in a glossary Contemporary Hinduism presents students with a lively and engaging survey of Hinduism offering an introduction to the oldest and one of the most complex of world religions
