Smith Jones:

Smith & Jones Nicholas Monsarrat, 2012-05-24 Within the precarious conditions of the Cold War diplomats Smith and Jones are not to be trusted Their files reveal numerous indiscretions and drunkenness but friends in high places ensure this doesn't count against them However when they defect at all costs and by whatever means they must be silenced *Spy*, 1989-10 Smart Funny Fearless It's pretty safe to say that *Spy* was the most influential magazine of the 1980s It might have remade New York's cultural landscape it definitely changed the whole tone of magazine journalism It was cruel brilliant beautifully written and perfectly designed and feared by all There's no magazine I know of that's so continually referenced held up as a benchmark and whose demise is so lamented Dave Eggers It's a piece of garbage Donald Trump *Reason and Action* Bruce Aune, 2013-06-29 Philosophers writing on the subject of human action have found it tempting to introduce their subject by raising Wittgenstein's question What is left over if you subtract the fact that my arm goes up from the fact that I raise my arm The presumption is that something of particular interest is involved in an action of raising an arm that is not present in a mere bodily movement and the philosopher's task is to specify just what this is Unfortunately such an approach does not take us very far since a person could properly be said to raise his or her arm while asleep or hypnotized even though he or she would not be performing an action in the sense of action with which philosophers are particularly concerned To avoid this kind of difficulty I shall approach the subject of human action in a more academic way I shall expound some important rival theories of human action and introduce the relevant issues by commenting critically on those theories One of the issues I eventually introduce is a metaphysical one A theory of action makes sense I contend only on the assumption that there are such things as actions or events After considering some key arguments bearing on the issue I conclude that as matters currently stand in philosophy a metaphysically noncommittal attitude toward actions and events seems justified
